› Hikity Android Car Stereo User Manual for Honda CRV 2002-2006 (4 Core 2+64G)

## Hikity 4 Core 2+64G

# Hikity Android Car Stereo User Manual

Model: 4 Core 2+64G for Honda CRV 2002-2006

## 1. PRODUCT OVERVIEW

This manual provides instructions for the Hikity Android Car Stereo, Model 4 Core 2+64G, designed for Honda CRV vehicles manufactured between 2002 and 2006. This unit features a 9-inch touchscreen, Android operating system, Wireless Carplay, Android Auto, GPS navigation, Bluetooth, DSP, FM RDS radio, and includes a backup camera.

### Key Features:

- **Operating System:** Latest Android System with 4-core CPU, 2GB RAM + 64GB ROM for smooth performance.
- **Connectivity:** Wireless/Wired Carplay & Android Auto, WiFi, Bluetooth.
- **Navigation:** GPS with support for online and offline maps.
- **Audio:** Built-in DSP (Digital Sound Processor) for audio tuning, FM/RDS radio.
- **Display:** 9-inch Touchscreen with Split Screen Function and customizable UI Themes.
- **Safety:** AHD Backup Camera with 170-degree night vision.

## 2. PACKAGE CONTENTS

Verify that all components are present in the package:

- 1 x Android Car Stereo
- 1 x AHD Backup Camera
- 1 x External Microphone
- 1 x Power Cable
- 1 x Installation Tool
- 1 x GPS Antenna
- 2 x USB Cable

- 1 x RCA Cable
- 1 x Rear Camera Input Cable
- 1 x User Manual

### 3. SETUP AND INSTALLATION

This car stereo is specifically designed for Honda CRV models from 2002 to 2006. Ensure your vehicle's dashboard configuration matches the compatible models before proceeding with installation. Refer to the included wiring harness for proper connections.

### 3.1 Wiring Diagram

Consult the detailed wiring diagram provided in the separate installation guide for specific connections. Ensure all cables are securely connected to prevent malfunctions.

### 3.2 Initial Power-Up

After installation, turn on your vehicle's ignition. The stereo should power on automatically. Follow any on-screen prompts for initial setup, such as language selection and time zone.

## 4. OPERATING INSTRUCTIONS

---

### 4.1 Android System Navigation

The unit runs on an Android operating system. Navigate through menus and applications using the 9-inch capacitive touchscreen. Swipe gestures and taps are used for interaction. You can download additional applications from the pre-installed app market.

### 4.2 Wireless Carplay & Android Auto

Connect your smartphone wirelessly or via USB to access Carplay or Android Auto. This allows seamless integration of your phone's apps, navigation, music, and voice assistants (Siri or Google Assistant) directly on the car stereo display.

## 4.4 Bluetooth Functions

Pair your mobile phone via Bluetooth for hands-free calling, phonebook synchronization, and audio streaming. Access your music library directly from your phone through the stereo.

## 4.5 DSP, FM & RDS Radio

The built-in Digital Sound Processor (DSP) allows for precise audio tuning. Adjust frequencies and sound effects to customize your listening experience. The FM/RDS radio provides access to local stations, displaying station information, traffic updates, and weather forecasts where available.

## 4.6 Steering Wheel Control

The unit supports steering wheel controls, allowing you to manage audio playback, volume, and other functions without taking your hands off the wheel. Configuration may be required in the system settings.

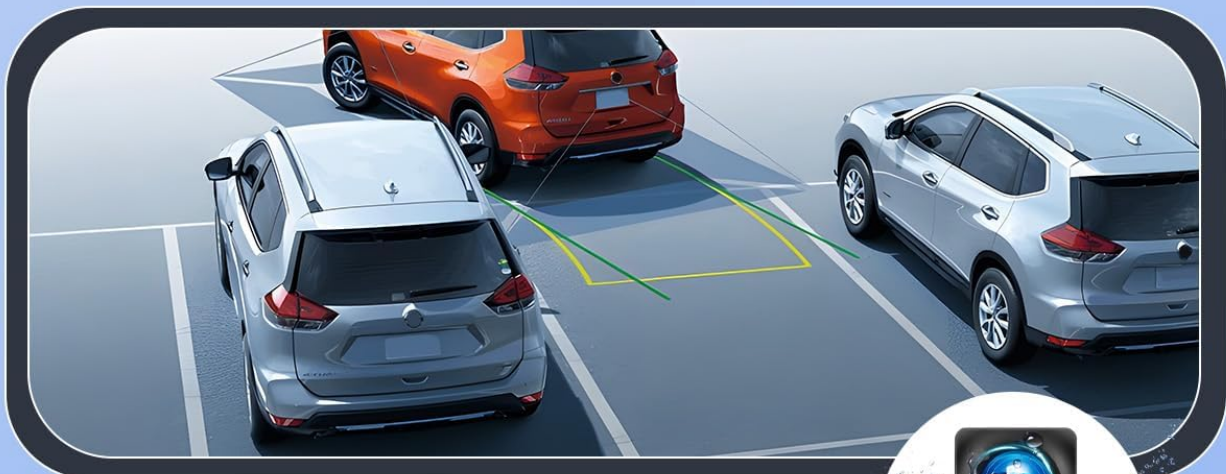

## 4.7 AHD Backup Camera

When reversing your vehicle, the included AHD backup camera automatically displays a 170-degree wide-angle view on the stereo screen. This feature enhances parking safety, even in low-light conditions.

## 5. MAINTENANCE

To ensure the longevity and optimal performance of your Hikity Android Car Stereo, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the touchscreen and exterior. Avoid abrasive cleaners or solvents.
- **Software Updates:** Periodically check for system software updates through the unit's settings menu to ensure you have the latest features and bug fixes.
- **Temperature:** Avoid exposing the unit to extreme temperatures.
- **Power:** Ensure stable power supply to prevent electrical damage.

## 6. TROUBLESHOOTING

If you encounter issues with your car stereo, refer to the following common troubleshooting steps:

- **No Power:** Check all power connections and fuses. Ensure the vehicle's ignition is on.
- **No Sound:** Verify speaker connections, volume levels, and audio settings (EQ, DSP).
- **Touchscreen Unresponsive:** Try restarting the unit. If the issue persists, a factory reset might be necessary (refer to system settings).
- **GPS Signal Loss:** Ensure the GPS antenna is properly installed and has a clear view of the sky.
- **Bluetooth Pairing Issues:** Delete previous pairings on both the stereo and your phone, then attempt to pair again.
- **Backup Camera Not Displaying:** Check the camera's power and video input connections.

For persistent issues, contact customer support.
