## SHIDU S617

# SHIDU Portable Voice Amplifier S617 User Manual

Brand: SHIDU | Model: S617

For Teachers, Meetings, Speeches, Yoga, and Tour Guides

## 1. INTRODUCTION AND OVERVIEW

The SHIDU Portable Voice Amplifier S617 is designed to provide clear and amplified sound for various professional and personal uses. Its compact and lightweight design ensures portability, making it suitable for environments such as classrooms, meeting rooms, and outdoor events. This device helps project your voice effectively, reducing strain on your vocal cords.

## 2. PACKAGE CONTENTS

- 1 x SHIDU Portable Voice Amplifier S617
- 1 x Wired Headset Microphone
- 1 x Type-C Charging Cable
- 1 x Adjustable Strap
- 5 x Microphone Covers (Sponges)
- 1 x User Manual

Figure 2: The SHIDU Voice Amplifier is suitable for various settings, including classrooms, and is available in multiple colors.

### 3. SETUP INSTRUCTIONS

- 1. Initial Charge:** Before first use, fully charge the voice amplifier using the provided Type-C charging cable. The device is equipped with an 1800mAh rechargeable Lithium-ion battery.
- 2. Connect Microphone:** Insert the wired headset microphone's 3.5mm jack into the "MIC" port on the amplifier.
- 3. Wearing Options:**
  - **Neck Strap:** Attach the adjustable strap to the designated loops on the amplifier and wear it around your neck for hands-free operation.
  - **Belt Clip:** Utilize the built-in clip on the back of the amplifier to secure it to your belt or waistband.
- 4. Position Microphone:** Adjust the headset microphone so that it is positioned close to your mouth for optimal voice pickup.

## 6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the amplifier and microphone. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Microphone Covers:** Replace microphone covers (sponges) regularly for hygiene and optimal sound quality. Five extra covers are included.

## 7. TROUBLESHOOTING

### • Feedback/Squealing Noise:

- Ensure the speaker and microphone are kept at a sufficient distance from each other.
- Point the microphone away from the speaker.

- Reduce the volume if feedback persists.

- **No Sound/Low Volume:**

- Check if the amplifier is powered on and the volume is turned up.
- Ensure the microphone is securely plugged into the "MIC" port.
- Verify that the microphone is positioned correctly near your mouth.
- Check the battery level and recharge if necessary.

- **Distorted Sound:**

- Reduce the volume.
- Ensure the microphone is not too close to your mouth or being overdriven.
