### Coleman 2000037512

# Coleman Backpack Sun Shelter (Model 2000037512) Instruction Manual

Portable 7x7ft Canopy Tent with Easy Setup

## 1. Introduction

This instruction manual provides essential information for the safe and effective use of your Coleman Backpack Sun Shelter. Please read this manual thoroughly before initial setup and retain it for future reference. This sun shelter is designed to provide portable shade and sun protection for various outdoor activities.

Image 1.1: The Coleman Backpack Sun Shelter providing shade on a field. The shelter measures 7 ft. x 7 ft. and offers UPF 50+ sun protection.

## 2. Safety Information

Observe the following safety guidelines to ensure safe operation and prevent damage to the product or injury.

- **Wind Conditions:** Avoid using the shelter in windy conditions. Strong winds can cause the shelter to become unstable or collapse.
- **Sun Exposure:** Prolonged exposure to direct sunlight, even with the sun shelter, does not eliminate the need for additional sun protection such as sunscreen and appropriate clothing. The shelter provides UPF 50+ protection but is not a complete barrier.
- **Water Resistance:** The shelter is water-resistant, not waterproof. It should not be used in heavy rain or wet conditions without proper grounding and additional waterproofing measures if prolonged exposure is expected.
- **Assembly:** Ensure all poles are securely connected and the canopy is properly attached before use.
- **Grounding:** Always use the provided stakes, guylines, and sandbags to secure the shelter to the ground, especially in light to moderate wind conditions.

## 3. Package Contents

Verify that all components are present in the package:

- Sun Shelter Canopy
- Pre-connected Poles (integrated into the canopy structure)
- 6 Stakes
- 2 Guylines
- 4 Sandbags
- Backpack Carry Bag

## 4. Setup Instructions

The Coleman Backpack Sun Shelter features a 3-step easy setup process:

1. **Assemble Pre-connected Poles:** Unfold the shelter and extend the pre-connected poles. Ensure all pole sections are fully engaged and locked into place.
2. **Connect Frame:** Connect the main frame components. The design allows for a pinch-free setup.
3. **Attach Canopy:** Secure the canopy to the frame. The canopy is designed to attach easily.

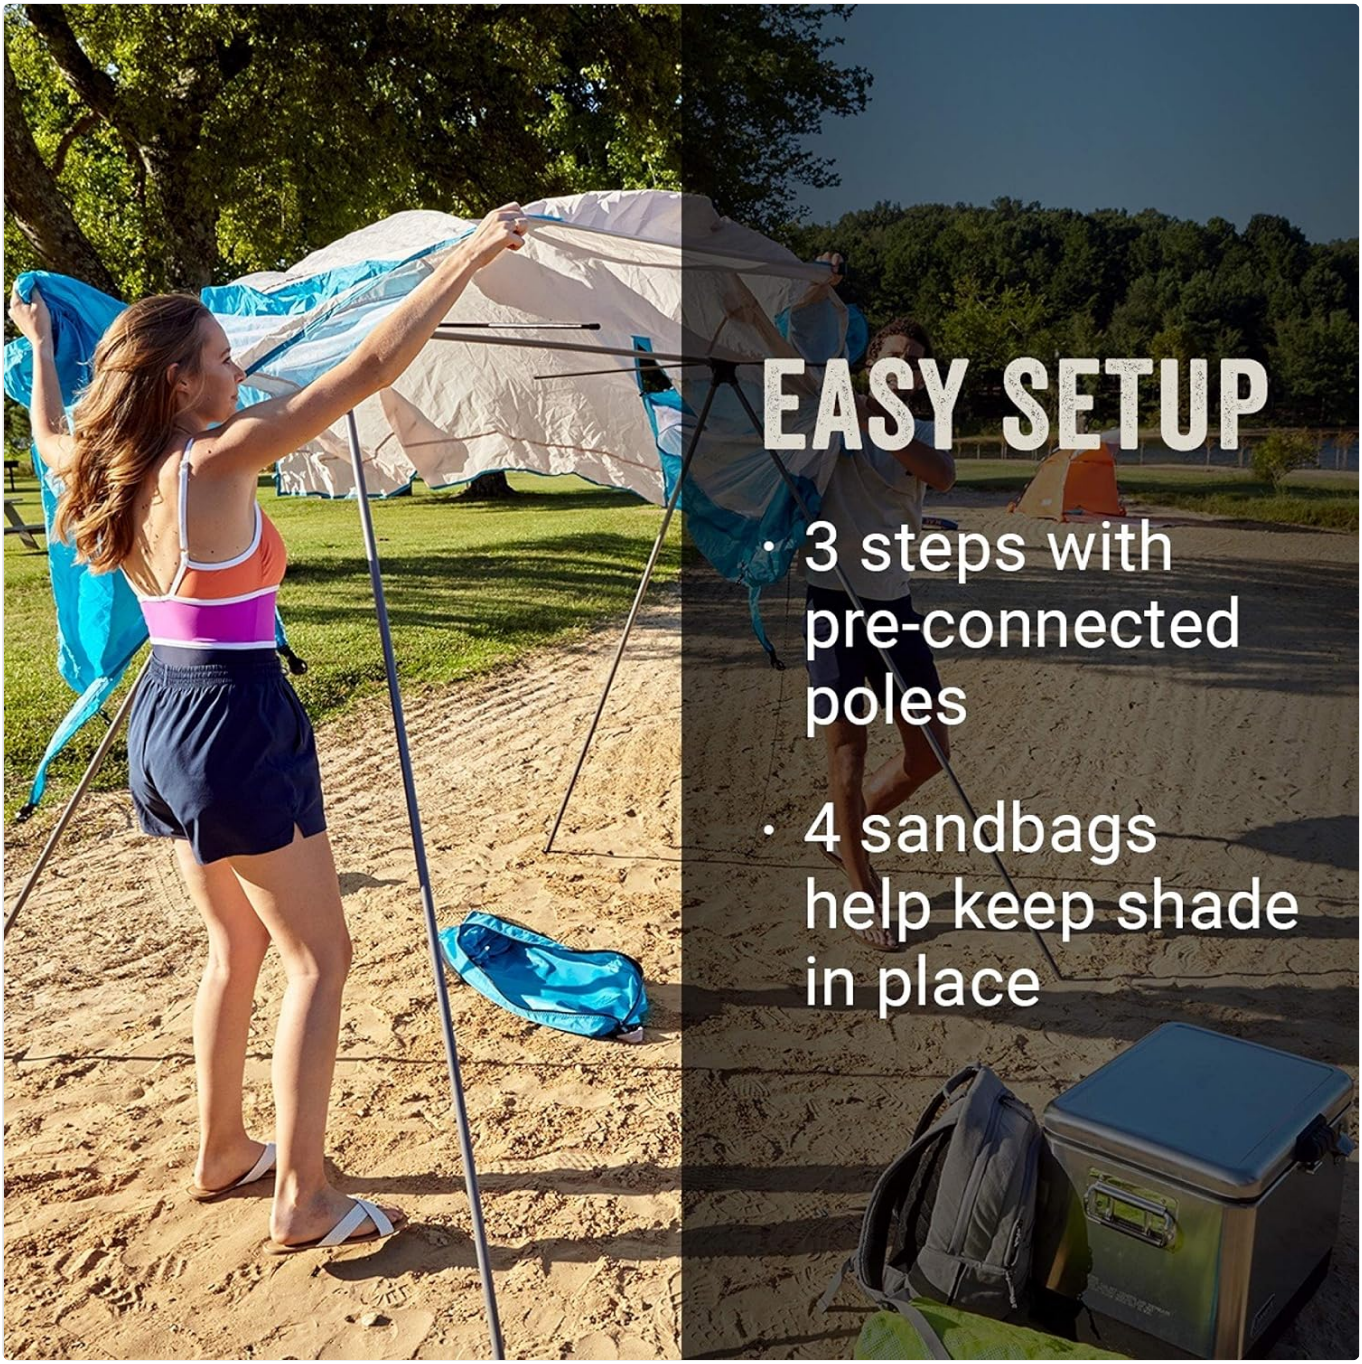

Image 4.1: Illustrates the easy setup process of the sun shelter on a beach.

Image 4.2: Detail of the pinch-free setup mechanism, ensuring comfort when extending poles.

### Securing the Shelter

After setting up the frame and canopy, secure the shelter using the provided accessories:

- **Stakes:** Drive the 6 stakes into the ground through the designated loops at the base of the shelter.
- **Guylines:** Attach the 2 guylines to the shelter's upper corners and stake them into the ground at an angle to provide additional stability against wind.
- **Sandbags:** Fill the 4 sandbags with sand or other heavy material and attach them to the shelter's base for added weight and stability, particularly on beaches or soft ground.

### Setup Video Guide

## 5. Operating Instructions

### Adjustable Walls for Shade and Airflow

The sun shelter features adjustable side and back walls. These walls can be rolled up and secured to allow for increased airflow and visibility, or kept down for maximum sun and wind protection. Adjust them according to weather conditions and desired shade.

Image 5.1: Demonstrates how to adjust the side and back walls for optimal sun protection and airflow.

### UV Guard Protection

The canopy is made with UV Guard material, providing UPF 50+ sun protection. This helps block harmful UV rays, making it suitable for extended outdoor use. Remember to still use personal sun protection.

Image 5.2: The shelter's canopy provides UPF 50+ sun protection.

## Interior Gear Pockets

The shelter includes 4 interior gear pockets. Use these pockets to keep small items such as phones, keys, or snacks handy and organized within the shelter.

Image 5.3: Interior gear pockets for convenient storage of small items.

### Versatile Use

The Coleman Backpack Sun Shelter is suitable for various outdoor environments, including beaches, parks, and sports sidelines, providing portable shade wherever needed.

Image 5.4: The sun shelter in use on a soccer field sideline.

## 6. Maintenance

### Cleaning

To clean the shelter, use a mild soap and water solution. Gently scrub any soiled areas with a soft cloth or sponge. Rinse thoroughly with clean water and allow the shelter to air dry completely before packing away. Do not use harsh chemicals or abrasive cleaners.

### Storage

Ensure the shelter is completely dry before folding and placing it back into the backpack carry bag. Storing a damp shelter can lead to mildew and damage. Store the shelter in a cool, dry place away from direct sunlight when not in use.

Image 6.1: The sun shelter packed in its backpack carry bag for easy transport and storage.

## 7. Troubleshooting

### Shelter Instability

If the shelter feels unstable, ensure all poles are fully extended and locked. Verify that all 6 stakes are firmly driven into the ground and the 2 guylines are properly tensioned and secured. If on sand, ensure the 4 sandbags are filled and attached to provide maximum stability. Avoid using the shelter in high winds.

### Difficulty with Setup/Takedown

If you encounter difficulty, ensure you are following the 3-step process. The poles are pre-connected for ease of use; ensure they are not tangled. For takedown, reverse the setup steps, ensuring all connections are disengaged smoothly.

## 8. Specifications

| Feature | Specification |
|---|---|

| | |
|---|---|
| Brand | Coleman |
| Model Number | 2000037512 |
| Material | Nylon (Canopy), Alloy Steel (Frame) |
| Color | Blue |
| Item Weight | 10.5 lbs. (Product weight), 13.05 lbs. (Shipping weight) |
| Dimensions (Set Up) | 7 ft. x 7 ft. (Coverage), 84"H (Item Dimensions L x W x H) |
| Floor Area | 49 Square Feet |
| Occupancy | 1 Person (as per specification, but can accommodate more for shade) |
| UV Protection | UPF 50+ |
| Water Resistance Level | Water Resistant |

## 9. Warranty and Support

### Warranty Information

This Coleman Backpack Sun Shelter comes with a 1-year limited warranty. Please retain your proof of purchase for any warranty claims. The manufacturer warranty description states 'No Warranty' in some specifications, but the feature bullets indicate a '1-year limited warranty'. For specific warranty details and terms, please refer to the official Coleman website or contact customer support.

### Customer Support

For further assistance, product inquiries, or to report any issues, please visit the official Coleman website or contact their customer service department. Contact information can typically be found on the product packaging or the Coleman brand website.

### Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
