## 5. MAINTENANCE

---

To maintain the quality and appearance of your framed print, follow these simple guidelines:

- **Cleaning:** Gently wipe the plexiglass and frame with a soft, dry, lint-free cloth. Avoid using abrasive cleaners or chemical sprays, as these can damage the surface.
- **Placement:** Avoid placing the framed print in direct sunlight for extended periods, as this may cause the colors to fade over time. Keep it away from areas with high humidity or extreme temperature fluctuations.
- **Handling:** When moving the frame, handle it by the sides to prevent fingerprints or damage to the print and frame.

## 6. TROUBLESHOOTING

---

If you encounter any issues with your Poster Master framed print, consider the following:

- **Print Appears Dull:** Ensure that the protective films have been completely removed from both sides of the plexiglass.

- **Frame Not Hanging Straight:** Verify that the hanging hardware is securely installed and level on the wall. Adjust as necessary.
- **Minor Scratches on Plexiglass:** While the plexiglass is shatterproof, minor surface scratches can occur with improper cleaning. Always use a soft, dry cloth.
