Aivituvin AIR96

Aivituvin Chicken Coop AIR96 - Instruction Manual

Model: AIR96

PRODUCT OVERVIEW

The Aivituvin Chicken Coop AIR96 is an upgraded, durable outdoor chicken house designed for poultry. It features large wheels for easy movement, a nesting box for egg collection, a leakproof pull-on tray for cleaning, and a UV-resistant roof panel for weather protection. This coop is suitable for 4-6 adult chickens, as well as rabbits, ducks, and other small animals.

SETUP AND ASSEMBLY

Assembly of the Aivituvn Chicken Coop AIR96 requires careful attention to the provided instructions. All parts are labeled to facilitate the process. While assembly can be completed by one person, having assistance may be beneficial. A power drill is highly recommended for faster assembly, but use a low setting to prevent wood splitting.

Key Structural Features

- **Iron Reinforcement:** The coop features upgraded all-around iron reinforcement edges on both the main coop structure and the nesting box, enhancing durability and strength.
- **Weatherproof Construction:** Constructed from natural fir wood with an asphalt roof and non-toxic varnish, the coop is designed to withstand various weather conditions.

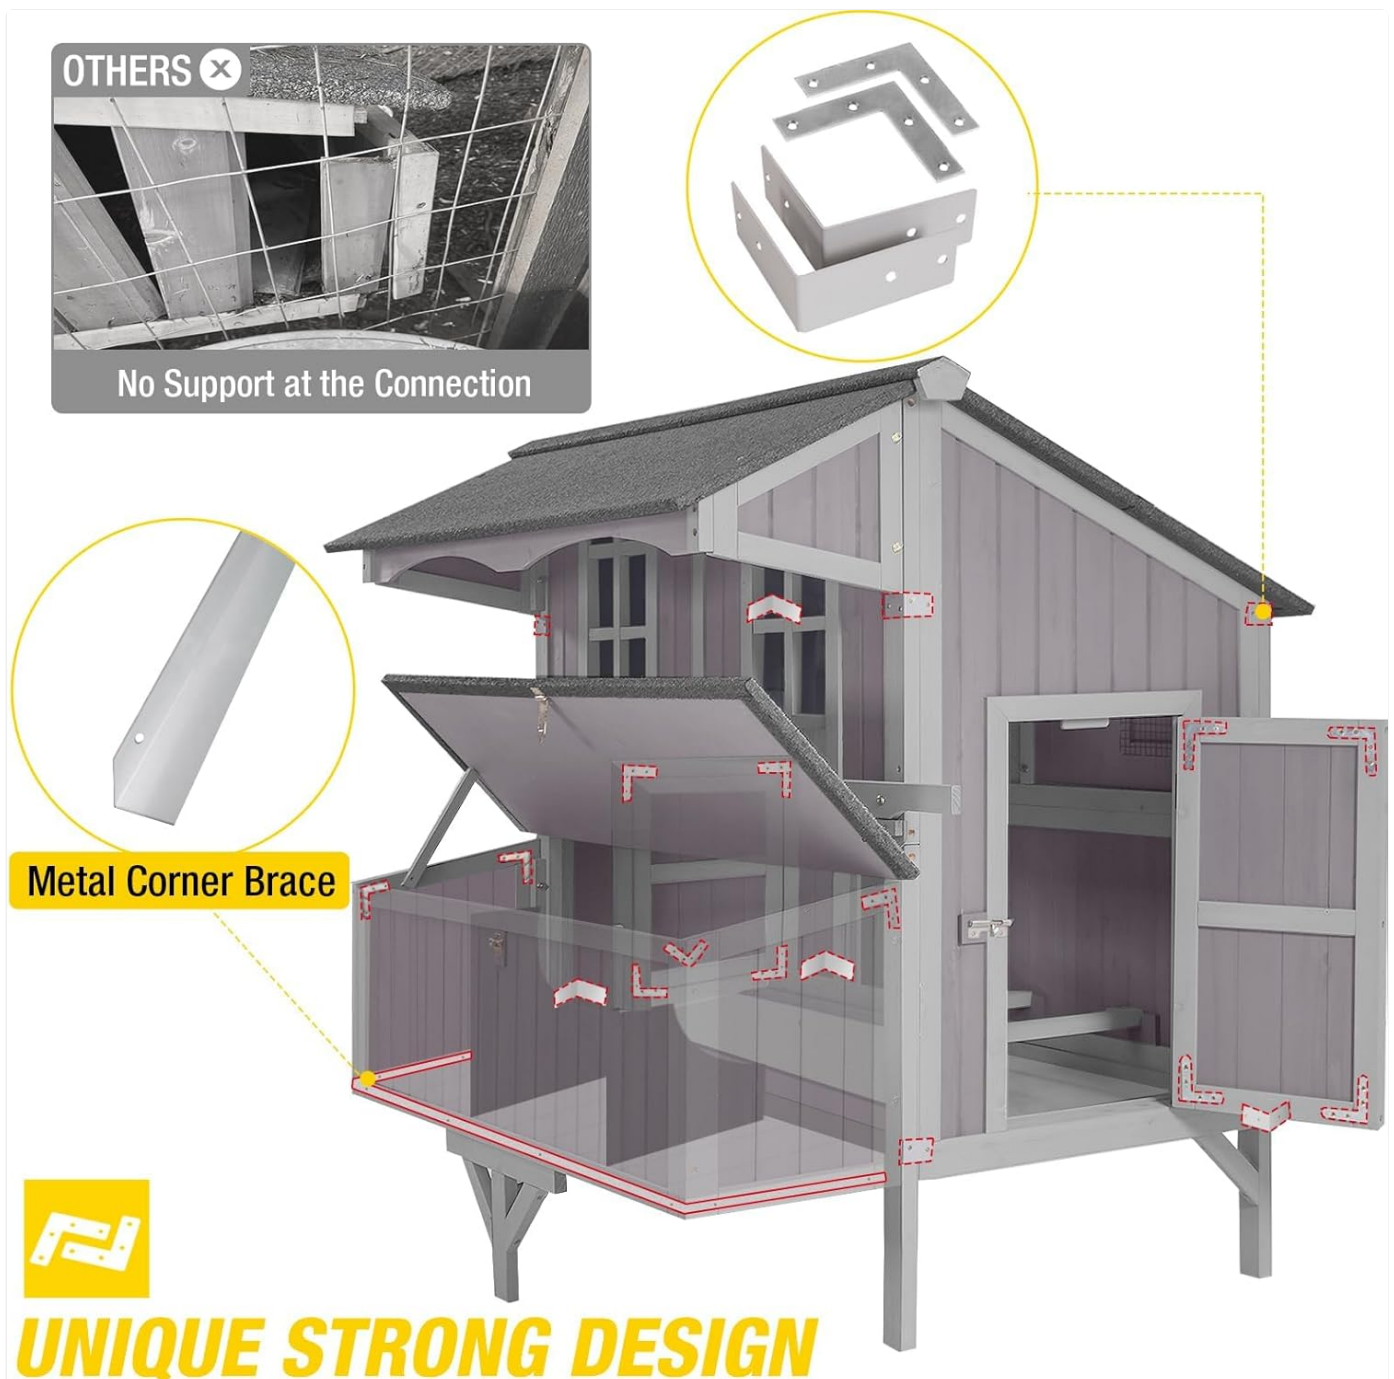

Figure 2: Illustration of the unique strong design with metal corner braces, highlighting reinforced connection points for enhanced stability.

Assembly Tips:

- Ensure all pieces are accounted for before beginning assembly.
- Follow the step-by-step instructions carefully, as each part is labeled.
- Consider using wood glue in plug holes for added strength, as suggested by some users.
- If any pieces arrive with minor cracks, wood glue can often provide a sufficient repair without affecting functionality.

OPERATING INSTRUCTIONS

Access and Features

The coop is designed with multiple access points for ease of use and animal management.

- **Nesting Boxes:** The nesting box is designed for easy egg collection and keeps eggs clean. It includes dividers that can be removed to create a larger nesting area if needed.
- **Perches:** Round-edged perches are included, designed to conform to the natural standing posture of chickens, providing comfortable roosting areas.
- **Main Entrance/Exit:** A secure door allows access for chickens and can be closed for security. A ramp facilitates easy entry and exit for poultry.

Mobility

The coop is equipped with two upgraded large wheels and a long design handle, making it easily movable across your backyard or property.

EASIER TO MOVE

MAINTENANCE

Regular maintenance ensures the longevity and hygiene of your Aivituvin Chicken Coop.

- **Cleaning the Tray:** The leakproof pull-on tray allows for easy and convenient cleaning of waste. Regularly slide out and clean the tray to maintain a sanitary environment for your poultry.

- **Wood Care:** The natural fir wood construction is treated with non-toxic varnish for weather resistance. Periodically inspect the wood for any signs of wear or damage. Applying a wood sealant or stain annually can further extend its lifespan and protect against the elements.
- **Roof Inspection:** The asphalt roof provides protection from weather. Check the roof periodically for any damage or leaks, especially after severe weather.
- **General Hygiene:** Ensure proper ventilation and regularly clean the interior of the coop to prevent odor buildup and maintain a healthy living space for your animals.

TROUBLESHOOTING

This section addresses common issues that may arise during the use of your chicken coop.

Problem	Possible Cause	Solution
Wood pieces appear cracked upon arrival.	Minor transit damage or natural wood characteristics.	For minor cracks, apply wood glue. This typically does not affect the structural integrity or functionality.
Strong odor from the coop.	New product smell from materials or varnish.	Allow the coop to air out in a well-ventilated area for several days before introducing animals.
Nesting box separation panels do not align perfectly.	Minor manufacturing tolerance or assembly error.	Ensure all connecting screws are properly tightened. Minor misalignments usually do not impact functionality.
Coop feels fragile when moving.	Lightweight construction for ease of mobility.	Handle with care when moving. The design prioritizes portability. Ensure wheels are properly secured.

SPECIFICATIONS

Feature	Detail
Model Name	AIR96
Brand	Aivituvin
Overall Dimensions (L x W x H)	37.6" x 48.58" x 51.22"
