MERITLINE Full Murphy Bed with Desk

MERITLINE Full Murphy Bed with Desk Instruction Manual

Model: Full Murphy Bed with Desk

Brand: MERITLINE

PRODUCT OVERVIEW

The MERITLINE Full Murphy Bed with Desk is a versatile furniture solution designed to maximize space in any room. This innovative wall cabinet discreetly conceals a full-size bed, transforming your living area into a comfortable sleeping space when needed, and reverting to a functional desk or open room during the day.

- **Space-Saving Design:** The bed is completely hidden within a cabinet, offering a seamless integration into your room without revealing its dual function.
- **Dual Piston System:** Equipped with a dual piston system, the bed can be safely and easily folded up and down in seconds. The bed will automatically lower with inertia once it reaches a certain angle, requiring minimal manual effort.
- **Integrated Desk:** Features a built-in desk that provides a convenient workspace when the bed is in its upright, closed position.
- **Mattress Ready:** The Murphy wall bed includes supporting wooden slats, eliminating the need for a spring box. It accommodates mattresses with a thickness of 8-10 inches.

Image: The MERITLINE Full Murphy Bed with Desk in its open position, ready for use. The white bed frame with a mattress and pillows is visible, set against a light blue wall, demonstrating its functionality as a sleeping area.

SETUP AND ASSEMBLY

Assembly of the MERITLINE Full Murphy Bed with Desk is required. For optimal safety and ease, it is recommended that **four people** assist with the assembly process. An installation instruction manual with clear, logical illustrations is included with your product to guide you through each step. Following these instructions carefully will ensure correct and safe assembly.

The frame material consists of Pine wood and MDF, providing a sturdy structure with a weight capacity of 600 LBS. Ensure all components are securely fastened as per the manual to prevent any instability.

Full size: inch

OPERATING INSTRUCTIONS

The MERITLINE Full Murphy Bed with Desk is designed for easy and safe operation. The dual piston system allows for smooth transition between bed and cabinet modes.

To Open the Bed:

1. Ensure the area in front of the cabinet is clear of obstructions.
2. Gently pull the bed cabinet handles downwards.
3. As the bed lowers, the dual piston system will assist the movement. Once the mattress drops to a certain

angle, it will continue to fall automatically with inertia until fully extended.

4. Ensure the support legs are fully extended and locked into place for stability before use.

To Close the Bed (Engage Desk Mode):

1. Remove any items from the bed surface.
2. Fold the support legs back into their stored position.
3. Gently lift the bed frame upwards. The dual piston system will assist in retracting the bed into the cabinet.
4. Push the bed firmly into the cabinet until it is fully closed and secured. The integrated desk will then be accessible.

MAINTENANCE

Proper maintenance will ensure the longevity and safe operation of your MERITLINE Full Murphy Bed with Desk.

- **Cleaning:** Wipe down the wood and MDF surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Hardware Check:** Periodically inspect all screws, bolts, and connections to ensure they remain tight. Retighten any loose hardware to maintain structural integrity and safety.
- **Mechanism Inspection:** Regularly check the dual piston system for smooth operation. Ensure there are no obstructions or signs of wear that could impede the bed's movement.
- **Safety:** Always ensure the bed's legs are fully extended and locked when the bed is open for sleeping. When closing, ensure the legs are properly folded and the bed is securely latched into the cabinet.

TROUBLESHOOTING

If you encounter any issues with your MERITLINE Full Murphy Bed with Desk, please refer to the following common solutions:

- **Difficulty during Assembly:** If assembly proves challenging, double-check all steps against the provided instruction manual. Ensure all parts are correctly oriented and that the correct hardware is used for each step. Remember that four people are recommended for assembly.
- **Bed Not Opening/Closing Smoothly:** Check for any obstructions around the bed mechanism or within the cabinet. Ensure all hardware related to the dual piston system is securely fastened and not overtightened, which could restrict movement.
- **Bed Feels Unstable:** Verify that all assembly screws and bolts are fully tightened. Ensure the bed's support legs are completely extended and locked into their designated positions when the bed is open.

For persistent issues or concerns not addressed here, please contact MERITLINE customer service for assistance.
