Setup

1. Unboxing

1. Carefully remove the doll and all accessories from the packaging.
2. Inspect the doll and accessories for any damage. If any damage is found, do not use the product and contact customer support.
3. Dispose of all packaging materials responsibly, keeping them away from children to prevent choking hazards.

2. Included Accessories

Your BABY born Little Sister Mermaid doll comes with the following accessories:

- 1 Mermaid Doll (46cm)
- 1 Comb
- 1 Tiara

No batteries are required for the operation of this doll.

Operating Instructions

1. Water Play

The BABY born Little Sister Mermaid doll is designed for water play. When placed in water, her mermaid tail will automatically begin to move, simulating swimming. Ensure the doll is fully submerged for optimal movement.

Image 3: A child interacting with the mermaid doll during bath time, demonstrating water play.

Image 4: A detailed view of the doll's articulated mermaid tail, which moves in water.

2. Hair Styling

The doll features long, high-quality hair that can be styled. Use the included comb and tiara to create various hairstyles. The hair can be styled wet or dry.

Image 5: A close-up of the doll's face, highlighting her pink hair and facial details.

Image 6: The mermaid doll with her hair styled in two braids, demonstrating styling possibilities.

Maintenance

1. Cleaning

- After water play, rinse the doll thoroughly with clean water to remove any soap residue or bath additives.
- Gently wipe the doll with a soft, dry cloth.

- Allow the doll to air dry completely before storing. Do not use heat sources to dry the doll.

2. Hair Care

- To prevent tangles, comb the doll's hair gently, starting from the ends and working your way up to the roots.
- For best results, comb the hair when it is slightly damp.

3. Storage

Store the doll in a clean, dry place away from direct sunlight and extreme temperatures to preserve its quality and appearance.

Troubleshooting

Problem	Possible Cause	Solution
Mermaid tail does not move in water.	Doll not fully submerged or mechanism obstructed.	Ensure the doll is fully submerged in water. Check for any debris or obstructions around the tail mechanism and gently remove them.
Hair is tangled or difficult to comb.	Improper combing technique or dry hair.	Gently comb the hair from the ends upwards. Slightly dampen the hair before combing for easier detangling.
