3. ASSEMBLY INSTRUCTIONS

Assembly is straightforward. Please follow these steps carefully to ensure correct installation and functionality.

- 1. Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, soft surface to prevent scratches.
- 2. Identify Parts:** Separate the components for the large table and the small table. Note that the large table is designed to be shorter, and the small table is designed to be taller.
- 3. Assemble Bases:** Attach the fluted drum bases to their respective tabletops using the provided hardware. Ensure that the correct base is paired with its designated tabletop. The larger tabletop connects to the shorter base, and the smaller tabletop connects to the taller base. Incorrect installation will make the components incompatible.
- 4. Secure Connections:** Tighten all screws firmly, but do not overtighten to avoid damaging the material.
- 5. Final Placement:** Once assembled, place the tables in your desired location. The nesting design allows the smaller table to partially overlap the larger one for space-saving.

Tools Recommended: A screwdriver is recommended for assembly.

4. OPERATING INSTRUCTIONS

These nesting coffee tables offer versatile usage options for various indoor settings.

- **Nesting Configuration:** The tables are designed to partially overlap, allowing the smaller table to tuck under the larger one. This is ideal for compact spaces or when you need to adjust your layout.
- **Individual Use:** Both tables can be used separately as individual coffee tables, side tables, or accent pieces in different areas of a room.
- **Placement:** Suitable for living rooms, bedrooms, or as decorative elements. Ensure placement on a flat, stable surface.

5. CARE AND MAINTENANCE

Proper care will help maintain the appearance and longevity of your coffee tables.

- **Cleaning:** Wipe with a dry cloth. For spills, use a slightly damp cloth immediately and dry thoroughly.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or strong chemical solutions, as these can damage the finish.
- **Protect Surfaces:** Although the tabletops feature a wood grain pattern that offers some water resistance, it is advisable to use coasters for drinks and placemats for hot items to prevent marks and stains.
- **Sunlight Exposure:** Avoid prolonged direct sunlight exposure to prevent fading or discoloration of the wood grain pattern.
