CRF 450R Red 1/12 Diecast Motorcycle Model User Manual

Model: New Ray 57873

1. INTRODUCTION

This manual provides essential information for the CRF 450R Red 1/12 Diecast Motorcycle Model by New Ray. This highly detailed replica is designed for display and collection, capturing the essence of the full-scale motorcycle in a compact form.

Please read this manual thoroughly to understand the features, proper handling, and care instructions for your model.

2. PRODUCT OVERVIEW

Figure 2.1: Front-side view of the CRF 450R Red 1/12 Diecast Motorcycle Model, showcasing its red and white body, gold-colored front forks, and detailed wheels. The model is displayed on a black stand.

The CRF 450R Red 1/12 Diecast Motorcycle Model is a meticulously crafted replica featuring:

- **Detailed Exterior:** Accurate representation of the CRF 450R motorcycle.
- **Real Rubber Tires:** Enhances realism and provides a stable base.
- **True-to-Scale Detail:** Proportional accuracy for an authentic look.
- **Wheels Roll and Steer:** Functional wheels and steering for dynamic display.
- **Officially Licensed Product:** Ensures authenticity and quality.
- **Durable Construction:** Made of diecast metal with some plastic parts.

3. SETUP AND UNBOXING

Your diecast model comes in manufacturer's original unopened packaging. Follow these steps for safe unboxing and initial setup:

1. **Unpack Carefully:** Gently remove the model from its packaging to avoid damage to delicate parts.
2. **Inspect for Damage:** Before display, visually inspect the model for any signs of shipping damage.
3. **Position on Stand:** The model typically comes with a display stand. Carefully place the motorcycle onto the stand to ensure stability.
4. **Choose Display Location:** Select a stable, flat surface away from direct sunlight, extreme temperatures, and

high humidity to prevent material degradation.

4. OPERATING AND INTERACTION

This diecast model is primarily for display. However, it features some interactive elements:

- **Rolling Wheels:** The wheels are designed to roll freely. You can gently push the model to observe this feature.
- **Steering Functionality:** The handlebars can be gently turned to simulate steering. Avoid forcing the steering beyond its natural range of motion to prevent damage.
- **Suspension (if applicable):** Some models may feature working suspension. Gently press down on the model to check for spring action.

Caution:

- This is a collectible model, not a toy. It contains small parts and delicate components.
- Avoid excessive force when interacting with movable parts.
- Keep out of reach of small children to prevent choking hazards.

5. MAINTENANCE AND CARE

Proper care will ensure the longevity and pristine condition of your diecast model:

- **Cleaning:** Dust regularly with a soft, dry cloth or a soft brush. For stubborn dust, a slightly damp cloth can be used, followed immediately by a dry cloth. Avoid abrasive cleaners or solvents.
- **Handling:** Always handle the model by its main body or base. Avoid touching delicate parts like mirrors, levers, or antennas, as they can bend or break easily.
- **Storage:** If storing, keep the model in its original packaging or a protective display case to prevent dust accumulation and accidental damage.
- **Environment:** Protect the model from direct sunlight, which can fade paint and degrade plastic parts over time. Avoid extreme temperature fluctuations and high humidity.

6. TROUBLESHOOTING

Diecast models are generally robust, but minor issues can occur. Here are some common observations and solutions:

Issue	Possible Cause	Solution
Wheels do not roll smoothly	Dust or debris in axle; minor misalignment	Gently clean around the axles. Ensure wheels are properly seated. Avoid forcing rotation.
Steering feels stiff	Dust accumulation; tight manufacturing tolerance	Gently try to move the handlebars. Do not apply excessive force. Regular gentle movement can loosen it.
Paint fading or discoloration	Exposure to direct sunlight or harsh chemicals	Relocate the model away from direct sunlight. Do not use chemical cleaners. This is typically irreversible damage.

If you encounter significant damage or manufacturing defects upon unboxing, please contact the retailer or manufacturer for assistance.

7. SPECIFICATIONS

Feature	Detail
Model Name	CRF 450R Red
Model Number	57873
Scale	1/12
Brand	New Ray
Material	Diecast Metal with Plastic Parts
