## BoxWave SlimKeys Bluetooth Keyboard

# BoxWave SlimKeys Bluetooth Keyboard User Manual

Model: SlimKeys Bluetooth Keyboard

## INTRODUCTION

---

Thank you for choosing the BoxWave SlimKeys Bluetooth Keyboard. This ultra-thin, portable keyboard is designed to enhance your typing experience across various devices, including tablets, smartphones, and computers. This manual provides detailed instructions for setting up, operating, maintaining, and troubleshooting your new keyboard to ensure optimal performance.

## SETUP

### 1. Charging the Keyboard

Before initial use, fully charge your SlimKeys Bluetooth Keyboard. Connect the included charging cable to the keyboard's charging port and a USB power source. The charging indicator light will illuminate during charging and turn off when fully charged.

Image: Close-up of the keyboard's charging port, indicating where to connect the charging cable.

### 2. Powering On/Off

Locate the ON/OFF switch on the top right side of the keyboard. Slide the switch to the 'ON' position to power on the keyboard. Slide it to 'OFF' when not in use to conserve battery life.

### 3. Bluetooth Pairing

1. **Activate Pairing Mode:** With the keyboard powered on, press the 'Connect' button (usually located near the ON/OFF switch). The Bluetooth indicator light will begin to flash, indicating the keyboard is in pairing mode.
2. **Enable Bluetooth on Your Device:** On your tablet, smartphone, or computer, go to the Bluetooth settings and ensure Bluetooth is enabled.
3. **Search for Devices:** Your device will scan for available Bluetooth devices. Look for 'BoxWave SlimKeys Keyboard' or a similar name in the list.
4. **Connect:** Select the keyboard from the list. Your device may prompt you to enter a pairing code displayed on your screen. Type this code on the SlimKeys keyboard and press Enter.
5. **Confirmation:** Once successfully paired, the Bluetooth indicator light on the keyboard will stop flashing and remain solid or turn off, depending on the model. Your device will also confirm the connection.

### 4. Switching Operating Systems

The SlimKeys keyboard is compatible with Android, Windows, and iOS devices. To optimize function keys for your

specific operating system, press the **Fn** key simultaneously with the corresponding OS key:

- **Fn + Q** for Android
- **Fn + W** for Windows
- **Fn + E** for iOS

## OPERATING INSTRUCTIONS

---

### Function Keys

The SlimKeys keyboard features a row of specialized function keys (F1-F12) that provide quick access to common commands. To use these functions, press the **Fn** key simultaneously with the desired function key.

#### Function Key Overview

| Key Combination            | Function                   |
|----------------------------|----------------------------|
| Fn + Esc (Home)            | Go to Home screen          |
| Fn + F1 (Search)           | Open Search function       |
| Fn + F2 (Select All)       | Select all text/items      |
| Fn + F3 (Copy)             | Copy selected content      |
| Fn + F4 (Paste)            | Paste content              |
| Fn + F5 (Cut)              | Cut selected content       |
| Fn + F6 (Skip Back)        | Skip to previous track     |
| Fn + F7 (Play/Pause)       | Play or Pause media        |
| Fn + F8 (Skip Forward)     | Skip to next track         |
| Fn + F9 (Volume Down)      | Decrease volume            |
| Fn + F10 (Volume Up)       | Increase volume            |
| Fn + F11 (Brightness Down) | Decrease screen brightness |
| Fn + F12 (Brightness Up)   | Increase screen brightness |
| Fn + Delete (Lock)         | Lock device screen         |

# Specialized Function Keys

Image: A visual representation of the specialized function keys and their corresponding actions.

## Power-Saving Mode

The keyboard will automatically enter a power-saving sleep mode after a period of inactivity. To wake it up, simply press any key. The keyboard will reconnect to the last paired device automatically.

## MAINTENANCE

### Cleaning

To clean your keyboard, power it off first. Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution. Avoid using harsh chemicals, abrasives, or excessive moisture, as these can damage the keyboard. For dust between keys, use compressed air.

### Battery Care

To prolong battery life, avoid fully discharging the keyboard frequently. Charge it when the battery indicator is low. If storing the keyboard for an extended period, charge it to about 50% and store it in a cool, dry place. Recharge every few months to prevent deep discharge.

## TROUBLESHOOTING

---

## Keyboard Not Connecting/Pairing

- Ensure the keyboard is powered on and fully charged.
- Make sure Bluetooth is enabled on your device.
- Place the keyboard within close proximity (within 10 meters) of your device.
- If previously paired, try 'forgetting' or 'unpairing' the keyboard from your device's Bluetooth settings and then re-pair it.
- Restart both the keyboard (turn off and on) and your device.

## Keys Not Responding

- Check the battery level and charge the keyboard if necessary.
- Ensure the keyboard is properly connected via Bluetooth.
- Verify that the correct operating system mode (Fn+Q/W/E) is selected for your device.
- Clean the keyboard to remove any debris that might be obstructing the keys.

## Short Battery Life

- Ensure the keyboard is turned off when not in use.
- Avoid extreme temperatures, which can affect battery performance.
- Fully charge the keyboard before each use.

---
