Ilano LJN-GHM08

Ilano 9H Tempered Glass Screen Protector Instruction Manual

For Sony Alpha A6600, A6100, A6400, A6000, A6300, A5000, NEX-7, NEX-6, NEX-5 Series
Cameras

1. INTRODUCTION

This manual provides detailed instructions for the installation and care of your Ilano 9H Tempered Glass Screen Protector. Designed to protect your camera's LCD screen from scratches, impacts, and daily wear, this protector maintains optical clarity and touch sensitivity. Please read these instructions carefully before installation to ensure optimal performance and longevity of your screen protector.

2. PRODUCT FEATURES

- **Ultimate 9H Hardness Protection:** Built with premium 9H tempered glass, this screen protector offers robust defense against scratches, drops, and sharp objects.
- **95% Ultra-High Transparency:** Delivers crystal-clear visuals with zero distortion, maintaining true color accuracy and sharpness for lifelike photography.
- **Effortless 30-Second Installation:** Designed for a bubble-free and precision fit, with included alignment stickers and dust removal tools for easy application.
- **Nano-Touch Sensitivity:** Advanced nano-coating technology ensures flawless touch control, smooth scrolling, and instant menu navigation.
- **Oil & Fingerprint Resistant:** Features an oleophobic coating to keep your screen smudge-free for a pristine view.

3. COMPATIBILITY

The Ilano Screen Protector is compatible with the following Sony Alpha series cameras:

- Sony Alpha A6600
- Sony Alpha A6100

- Sony Alpha A6400
- Sony Alpha A6000
- Sony Alpha A6300
- Sony Alpha A5000
- Sony NEX-7
- Sony NEX-6
- Sony NEX-5
- Sony NEX-5T
- Sony NEX-5R
- Sony NEX-3N
- Sony NEX-C3
- Sony NEX-F3

4. WHAT'S IN THE BOX

Your Ilano Screen Protector package includes the following items:

- 2 x Tempered Glass Screen Protectors
- 2 x Wet Cleaning Wipes
- 2 x Dry Cleaning Cloths
- 2 x Dust Removal Stickers
- 2 x Alignment Guide Stickers
- 1 x Anti-Static Sticker
- 1 x User Manual

What's in the Box:

- 1 Instructions
- 2 Tempered Film*2
- 3 Auxiliary Stickers
- 4 Cleaning Wipes
- 5 Cleaning Cloth
- 6 Dust Removal Patch
- 7 Electrostatic Sticker

5. SETUP AND INSTALLATION

Follow these steps for a bubble-free and precise installation of your screen protector:

1. **Clean the Screen:** Use the provided wet cleaning wipe to thoroughly clean your camera's LCD screen. Follow with the dry cleaning cloth to remove any moisture.

Stunning Crystal-Clear Transparency

95% Transparency for Perfect Screen and Photography Quality

Figure 5.1: Cleaning the camera screen.

2. **Remove Dust:** Use the dust removal sticker to pick up any remaining dust particles from the screen. Ensure the screen is completely free of dust. An anti-static sticker is also provided for thorough dust removal.

Quick 30-Second Setup

Comes with Easy-Apply Sticker for Flawless, Bubble-Free Installation

Figure 5.2: Removing dust with a sticker.

3. **Attach Alignment Stickers:** Carefully attach the alignment guide stickers to the edges of the tempered glass protector. These stickers will help you position the protector accurately on your camera screen.
4. **Peel off Protective Film:** Gently peel off the first protective film (labeled #1) from the adhesive side of the tempered glass protector. Avoid touching the adhesive surface.
5. **Align and Place:** Align the edges of the tempered glass protector with your camera's screen using the alignment stickers as guides. Once perfectly aligned, gently lower the protector onto the screen. The adhesive will begin to spread automatically.

Oil & Fingerprint Resistant

Keep Your Screen Smudge-Free for a Pristine View Always

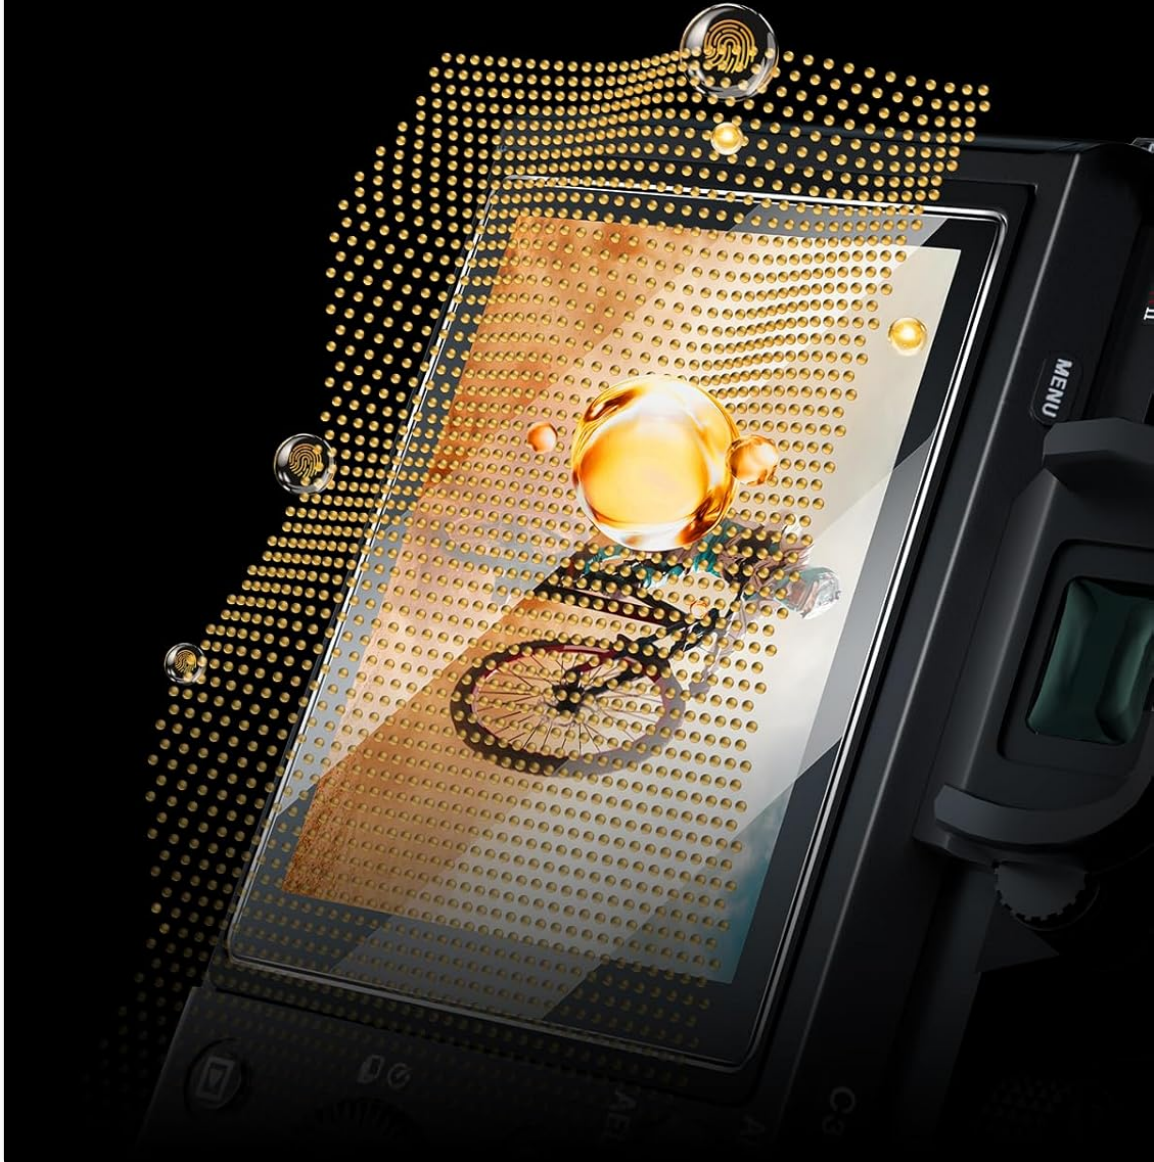

Figure 5.3: Aligning the screen protector.

6. **Remove Alignment Stickers:** Once the tempered glass is positioned and has started adhering, carefully remove the alignment guide stickers.
7. **Smooth Out Bubbles:** Gently push out any air bubbles towards the edges using the cleaning cloth or your fingers. Work from the center outward. Small bubbles should disappear within 24-48 hours.
8. **Final Check:** Your screen is now protected and ready for use.

Video 5.1: Step-by-step guide on how to apply the Ilano Tempered Glass Screen Protector.

6. OPERATING YOUR CAMERA WITH THE SCREEN PROTECTOR

The Ilano screen protector is designed to be virtually invisible and maintain full functionality of your camera's LCD screen. You should experience:

- **Unchanged Touch Sensitivity:** The ultra-thin design ensures that your screen's touch response remains as precise and fluid as without the protector.
- **Optimal Visual Clarity:** With 95% transparency, the screen protector does not diminish the brightness or color accuracy of your display.
- **Enhanced Protection:** Continue to use your camera as usual, knowing its screen is safeguarded against accidental bumps, scratches, and minor drops.

7. MAINTENANCE

To keep your screen protector in pristine condition and ensure maximum clarity:

- **Regular Cleaning:** Use a soft, lint-free microfiber cloth (like the one provided) to gently wipe the screen protector. For stubborn smudges or fingerprints, slightly dampen the cloth with water or a screen-safe cleaning solution.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, alcohol, or ammonia-based solutions, as these can damage the oleophobic coating or the protector itself.
- **Prevent Scratches:** While the protector is highly scratch-resistant, avoid placing your camera face down on rough surfaces or in bags with sharp objects.

Wide Compatibility

Compatible with Sony Alpha models:

A6000 / A6400 / A6600 / A6100 / A6300 / A5000 / NEX-7 / NEX-6 /
NEX-5 / NEX-5T / NEX-5R / NEX-3N / NEX-C3 / NEX-F3

8. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Bubbles After Installation:**

Small bubbles are common immediately after installation. Gently push them towards the edges with a soft cloth. Most small bubbles will naturally disappear within 24-48 hours as the adhesive fully settles. If large bubbles persist, it might indicate dust trapped underneath. In such cases, carefully lift a corner of the protector, use a dust removal sticker to remove the particle, and reapply.

- **Misalignment:**

If the protector is misaligned, you can carefully lift it from one corner (using a thin, non-sharp object like a credit card edge if necessary) and reapply. Do this slowly to avoid cracking the glass or introducing dust.

- **Reduced Touch Sensitivity:**

Ensure the screen and protector are clean. If the issue persists, check if the protector is properly adhered across the entire surface. If not, reapplication might be necessary.

- **Cracks or Chips:**

While highly durable, extreme impacts can cause the tempered glass to crack. This means the protector has absorbed the impact, saving your camera screen. Replace the protector immediately if it cracks to maintain protection and prevent injury.

9. SPECIFICATIONS

Attribute	Detail
Brand	Ilano
Model Number	LJN-GHM08
Material	Tempered Glass
Item Hardness	9H
Clarity	95% Ultra-High Transparency
Finish Type	Glossy
Unit Count	2.0 Count
Product Dimensions	1"L x 1"W (Note: Actual dimensions are specific to compatible camera models)

10. WARRANTY AND SUPPORT

The Ilano Screen Protector comes with a **One-Year Warranty**. For warranty claims, technical support, or any product-related inquiries, please contact Ilano customer service through the retailer where you purchased the product or visit the official Ilano store online.
