SHPAI HG1669-G

SHPAI 12' x 12' Outdoor Hardtop Gazebo with Gutters

MODEL: HG1669-G

Instruction Manual

Important Safety Information

Please read and understand all instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- Always follow assembly instructions carefully.
- Use a team of 2-5 people for assembly to avoid injury.
- Secure the gazebo to a stable foundation to withstand wind and snow pressure.
- Be cautious of curtains and netting to prevent entanglement or tripping hazards.

Product Overview

The SHPAI 12' x 12' Outdoor Hardtop Gazebo is designed to provide a durable and comfortable outdoor living space. It features a galvanized metal double roof, integrated drainage system, and removable curtains and netting for versatile use.

Key Features:

- **Galvanized Steel Double Roof:** Fade-resistant, rust-resistant, provides UV protection, and is designed to withstand heavy snow. The double-roof structure facilitates ventilation and reduces wind speed.
- **Integrated Drainage System:** A sloped roof and water gutters direct rainwater to the four corners, preventing water from dripping around the gazebo.
- **Removable Netting & Curtains:** A double-track system with double-sided zippers allows for easy adjustment. Netting provides ventilation and insect protection, while waterproof curtains offer UV protection, privacy, and warmth.
- **Enhanced Stability:** Features a triangular structure, galvanized steel frame, and anchoring plates with plastic base covers for increased durability and safety.
- **Ceiling Hooks:** Three 'J' hooks are provided on the top for hanging lights or fans.

Setup and Assembly

Assembly of the SHPAI Hardtop Gazebo requires careful attention to detail and adherence to the provided instructions. It is strongly recommended to have multiple individuals assist with the assembly process.

1. **Preparation:** Unpack all components and verify against the parts list in your separate assembly manual. Ensure all parts are present and undamaged. Clear a level area for assembly.
2. **Team Assembly:** Due to the size and weight of the components, a minimum of 2-5 people are required for safe and efficient assembly.
3. **Frame Construction:** Follow the step-by-step instructions in your assembly manual to erect the main frame, posts, and roof structure. Pay close attention to bolt and screw placements.

4. **Roof Panel Installation:** Install the galvanized steel roof panels according to the manual, ensuring proper alignment for the drainage system.
5. **Curtains and Netting:** Attach the double-track system and hang the netting and curtains as instructed.
6. **Anchoring:** Securely anchor the gazebo to a stable foundation using appropriate hardware (not included) to prevent movement in high winds or heavy snow. The plastic base covers should be installed over the anchoring plates to prevent rust and enhance safety.

GAZEBO DIMENSION

UPGRADED 3.94" POSTS

Enhanced stability and durability

Plastic Base Cover

Prevents rust and protects children and pets from sharp screws, enhancing safety.

Image 5: A comparison image highlighting the upgraded 3.94-inch posts with plastic base covers, designed to prevent rust and protect against sharp screws, enhancing overall safety and durability.

Operation

The SHPAI Gazebo offers flexible options for comfort and protection through its adjustable curtains and netting.

- **Adjusting Curtains and Netting:** Utilize the double-track system and double-sided zippers to open, semi-open, or fully close the netting and curtains.
- **Fully Open:** Allows for maximum ventilation and an unobstructed panoramic view of your outdoor surroundings.
- **Semi-Open (Netting Only):** Provides protection from insects while maintaining partial ventilation and blocking harsh sunlight.
- **Fully Closed (Curtains):** Offers complete privacy, protection from UV rays, rain, and dust, and helps retain warmth.
- **Using Ceiling Hooks:** The three 'J' hooks located on the roof structure can support decorative lights, fans, or other

lightweight items (maximum capacity 25 lbs).

REMOVEABLE CURTAINS & NETTINGS

NETTING & HOOKS ON TOP

Netting prevents bugs while hooks for hanging lights or deco.

Image 7: A close-up view of the gazebo's roof interior, showing the integrated netting for insect prevention and the sturdy ceiling hooks available for hanging lights or other decorations.

Maintenance

Regular maintenance will help prolong the life and appearance of your SHPAI Gazebo.

- **Cleaning the Roof:** Periodically clean the galvanized steel roof to remove leaves, debris, and dirt. Use a soft brush and mild soap with water, then rinse thoroughly.
- **Cleaning Curtains and Netting:** The curtains and netting can be cleaned with mild soap and water. Ensure they are completely dry before storing or closing for extended periods to prevent mildew.
- **Frame Inspection:** Annually inspect the metal frame for any signs of rust, loose bolts, or damage. Tighten any loose fasteners and address rust spots with appropriate rust-inhibiting paint.
- **Drainage System:** Ensure the gutters and drainage holes are clear of debris to allow for efficient water runoff.

- **Winter Care:** While the roof is designed for snow, heavy snow accumulation should be cleared to prevent excessive stress on the structure. Consider removing curtains and netting for storage during harsh winter months to extend their lifespan.

Image 8: A visual comparison highlighting the effectiveness of the built-in drainage system in the SHPAI Gazebo, showing how it prevents water from dripping around the structure compared to a system without proper drainage.

Troubleshooting

This section addresses common issues you might encounter with your gazebo.

- **Wobbly Structure:** Ensure all bolts and screws are securely tightened. Verify that the gazebo is anchored properly to a level surface.
- **Water Accumulation on Roof:** Check for any debris blocking the gutters or drainage channels. Ensure roof panels are correctly installed and overlapping as per the assembly instructions.
- **Curtains/Netting Not Sliding Smoothly:** Inspect the double-track system for any obstructions or damage. Clean the tracks if necessary. Ensure zippers are aligned and not snagged.
- **Rust Spots:** Address minor rust spots immediately by cleaning the area and applying rust-inhibiting paint to prevent further corrosion.

Specifications

Attribute	Detail
Brand	SHPAI
Model Number	HG1669-G
Material	Metal (Alloy Steel Frame)
Style	Modern

Attribute	Detail
Product Dimensions (L x W x H)	143.2" x 143.2" x 120.9"
Item Weight	307.1 Pounds
Water Resistance Level	Waterproof
Shape	Rectangular
Ultraviolet Light Protection	99% UV-proof, UPF 50+
Assembly Required	Yes
Color	Gray
Floor Area	144 Square Feet
