6. Maintenance

To clean the flower bouquet, gently wipe the plastic pieces with a soft, dry cloth to remove dust. For more thorough cleaning, a slightly damp cloth can be used, followed by immediate drying with a dry cloth. Avoid harsh chemicals, abrasive cleaners, or excessive moisture, which may damage the plastic material or color finish.

7. Troubleshooting

- **Missing Pieces:** Carefully check all packaging materials, including the box and any plastic bags, as small pieces can sometimes be overlooked. If pieces are genuinely missing, contact customer support with the specific part number or description from the instruction booklet.
- **Difficulty Connecting Blocks:** Ensure blocks are aligned correctly before applying pressure. Apply firm, even pressure to interlock the pieces. If a block is consistently difficult to connect, check for any manufacturing defects or

excess plastic that might be obstructing the connection.

- **Unstable Assembly:** Re-examine the connections of the affected sections. Ensure all blocks are fully interlocked as per the instructions. Loose connections can lead to instability. Disassemble and reassemble the problematic section if necessary.
