## Newmowa PH05 Max-NMW

# Newmowa 5-inch Phone Vlog Selfie Monitor Screen

Model: PH05 Max-NMW | Brand: Newmowa

## INTRODUCTION

The Newmowa 5-inch Phone Vlog Selfie Monitor Screen is designed to enhance your mobile content creation by providing a real-time view of your phone's rear camera. This allows for high-quality video recording and photography, ideal for vlogging, live streaming, and selfies. It features both wired and wireless connectivity options, screen rotation, and a magnetic attachment system for ease of use.

## PACKAGE CONTENTS

- 1 x Selfie Monitor Screen
- 1 x Magnetic Phone Holder
- 1 x Bluetooth Remote Control
- 1 x Dual USB-C Cable
- 1 x Type-C Charging Cable
- 1 x Soft Velvet Bag
- 1 x Instruction Manual

## SETUP

### 1. Attaching the Monitor to Your Phone

The Newmowa monitor features a unique magnetic attachment system. Securely attach the magnetic phone holder to the back of your iPhone. The monitor then magnetically connects to this holder, ensuring a stable setup for recording.

# 1080P Wireless Recording & 33ft Bluetooth Remote Control

**Note:** Wireless connection does NOT support 4K recording, please select 1080P recording. And iPhone cannot play sound during screen sharing.

## 2. Initial Charging

Before first use, fully charge the monitor screen using the provided Type-C charging cable. Connect the cable to the Type-C charging port on the monitor and a 5V/1A charger, power bank, laptop, or car charger. The red light indicates charging, and the green light indicates a full charge.

# Press the Screen Rotation Button

## USB Type-C Cable

## OPERATING INSTRUCTIONS

### 1. Wired Recording (4K 30fps)

- For iPhone 15/16/17 series: Use the included Dual USB-C cable for direct plug-and-play 4K 30fps recording.
- For iPhone 11-14 series: Use your original Lightning to USB-C cable (not included) to achieve 4K 30fps recording.
- **Note:** Wired connection supports iPhone audio output during screen sharing.

# The rear camera takes clearer photos than the front camera in the same photo.

## 2. Wireless Recording (1080P)

- The monitor supports 1080P wireless recording. Ensure your iPhone (iOS 9 or above) is connected to the monitor's Wi-Fi.
- **Note:** Wireless connection does not support 4K recording, and phone audio will not be output during wireless screen sharing.

## Pocket Size & Portable

Easy to carry, suitable for indoor and outdoor use

## Magnetic Phone Holder

#### **4. Bluetooth Remote Control**

The included Bluetooth remote control allows you to remotely trigger photo and video capture, providing convenience for solo shooting or group photos.

#### **5. Using the Rear Camera for Selfies and Vlogs**

The primary benefit of this monitor is to utilize your iPhone's superior rear camera for selfies, vlogs, and live streams, ensuring higher quality content compared to the front camera.

## Maintenance

- Cleaning:** Use a soft, dry cloth to clean the screen and body. Avoid abrasive cleaners or solvents.
- Storage:** When not in use, store the monitor in the provided soft velvet bag to protect it from scratches and dust. Keep it in a cool, dry place away from direct sunlight.
- Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge it regularly, even if not in constant use.

## Troubleshooting

### 1. Screen Not Turning On

- Ensure the device is fully charged.
- Press and hold the power button for a few seconds to turn it on.

### 2. Wireless Connection Issues

- Verify that your iPhone's Wi-Fi is connected to the monitor's network.
- Restart both the monitor and your iPhone.
- Ensure you are within the effective range for wireless connectivity.

### 3. No Audio During Wireless Screen Share

- This is expected behavior for wireless recording. Audio output is only supported with a wired connection.

### 4. Lag in Wireless Display

- Wireless connections may experience slight latency. For critical applications requiring minimal lag, use the wired connection.
