## Lamicall STCD07

# Lamicall 3-in-1 Car Phone Mount (Model STCD07) Instruction Manual

Your versatile solution for secure smartphone mounting in your vehicle.

## 1. INTRODUCTION

Thank you for choosing the Lamicall 3-in-1 Car Phone Mount. This multifunctional holder is designed to provide a secure and convenient way to mount your smartphone in your car, offering three installation options: dashboard, windshield, and air vent. Its robust design ensures stability and ease of use for a safer driving experience.

## 2. PACKAGE CONTENTS

Please ensure all components are present before proceeding with installation:

- 1 x Phone Holder (fits big phones/thick cases)
- 1 x Suction Cup Base (reusable and versatile)
- 1 x Air Vent Clip (fits vertical/horizontal vent)
- 1 x Detailed Manual (for correct installation)
- 1 x Wipe (for cleaning dash/windshield surface)

## 3. SETUP AND INSTALLATION

### 3.1. Suction Cup Installation (Dashboard/Windshield)

1. **Clean the Surface:** Use the provided wipe to thoroughly clean the desired mounting area on your dashboard or windshield. Ensure the surface is dry and free of dust or oils. *Note: The suction cup is not suitable for genuine leather, coated faux leather, suede, uneven, dirty, or soiled surfaces.*
2. **Attach the Suction Cup Base:** Press the suction cup firmly onto the cleaned surface.
3. **Engage the Vacuum Lock:** Flip the lever on the suction cup base down to create a vacuum seal, securing the mount in place.
4. **Attach Phone Holder:** Connect the phone holder to the ball joint of the suction cup base. Tighten the screw collar clockwise to secure it.
5. **Allow Adhesion to Set:** For optimal adhesion and stability, allow the suction cup to rest for 48-72 hours before placing your phone in the holder or applying significant pressure.

Video: Acekem Sterling Reviews demonstrates the installation of the car phone holder with both suction cup and metal hook options.

### 3.2. Air Vent Clip Installation

1. **Attach Air Vent Clip:** Connect the air vent clip to the ball joint of the phone holder. Tighten the screw collar clockwise to secure it.
2. **Secure to Vent:** Insert the metal hook of the vent clip into a horizontal or vertical air vent vane. Tighten the knob on the clip until you hear an audible 'clicking' noise, indicating a secure connection.
3. **Adjust Position:** Ensure the mount is stable and does not obstruct your view or interfere with vehicle controls. *Note: This vent clip is not suitable for round vents.*

## 4. OPERATING INSTRUCTIONS

### 4.1. Inserting and Removing Your Phone

1. **Insert Phone:** Gently place your smartphone into the holder. The side arms will automatically clamp around your device.
2. **Secure Phone:** Press the side arms inward to ensure a firm grip. The holder is designed to accommodate smartphones ranging from 4.7 to 7 inches, including those with thick cases (up to 0.94 inches thick).
3. **Remove Phone:** Press the quick-release buttons located on the sides of the holder to release the arms and retrieve your phone.

Image: The phone holder's deep clamp design, illustrating its compatibility with wallet cases, ring cases, and thick cases for phones between 4.7 and 7 inches.

### 4.2. Adjusting the Viewing Angle

- **360° Rotation:** The phone holder features a 360° rotatable ball joint, allowing you to easily switch between portrait and landscape orientations.
- **Extendable Arm:** The telescopic arm extends from 4.7 inches to 6.8 inches, enabling you to adjust the distance of your phone for optimal viewing without obstructing your driving view.
- **Angle Adjustment:** The suction base is equipped with a 360° rotating mechanism for side-to-side adjustments, and the arm can be adjusted up to 270° for precise vertical positioning.

## 5. MAINTENANCE

- **Suction Cup Cleaning:** If the suction cup loses its adhesion, simply wash it with water and let it air dry. This will restore its adhesive properties.
- **General Cleaning:** Wipe the mount with a soft, damp cloth to remove dust and grime. Avoid harsh chemicals or abrasive cleaners.
- **Temperature Considerations:** The mount is designed to withstand extreme temperatures from -4°F to 194°F. However, prolonged exposure to direct sunlight in very hot conditions may affect the suction cup's longevity.

## 6. TROUBLESHOOTING

- **Suction Cup Not Sticking:**
  - Ensure the mounting surface is clean, dry, and smooth.
  - Verify the vacuum lock lever is fully engaged.
  - Wash the suction cup with water and air dry to restore stickiness.
  - Avoid mounting on porous, uneven, or delicate surfaces like genuine leather.
  - Allow 48-72 hours for the adhesive to fully set before heavy use.
- **Vent Clip Not Secure:**
  - Ensure the metal hook is fully inserted into a vent vane and the tightening knob is securely clicked.
  - The vent clip is not compatible with round air vents.
- **Phone Not Fitting in Holder:**
  - Check that your phone size is between 4.7 and 7 inches.
  - Ensure your phone case thickness is less than 0.94 inches.
  - Press the quick-release buttons to fully extend the arms before inserting the phone.

## 7. SPECIFICATIONS
