# Instruction Manual: TrustCell BL-06 Replacement Battery

Model: CS-EVS600MC

## 1. PRODUCT OVERVIEW

This manual provides essential information for the safe and effective use of your TrustCell BL-06 Replacement Battery. This high-quality Li-ion battery is designed as a compatible replacement for EZVIZ S1c, S2, S3, S5, and S6 devices.

## 2. SETUP AND INSTALLATION

Before installing the new battery, please ensure it is compatible with your device by checking the model number of your device and the part number of your original battery. The BL-06 battery is designed for specific EZVIZ models.

### Initial Charging

A new battery will achieve its best performance after 2 or 3 complete cycles of charge and discharge. It is recommended to fully charge the new battery pack before its first use.

### Installation Steps

1. Carefully open the battery compartment of your device according to its original instruction manual.
2. Remove the old battery.
3. Insert the new TrustCell BL-06 battery, ensuring the connector is properly aligned and securely connected to your device.

### 3. OPERATING GUIDELINES

---

To ensure the longevity and optimal performance of your TrustCell BL-06 battery, adhere to the following guidelines:

- Always use a high-quality, compatible charger for your device. Using low-quality third-party adapter chargers can shorten the battery's life.
- Avoid completely draining the battery frequently.
- Store the battery in a cool, dry place when not in use for extended periods.

### 4. MAINTENANCE AND SAFETY PRECAUTIONS

---

Proper maintenance and adherence to safety precautions are crucial for preventing damage and ensuring safe operation.

#### General Care

- Keep the battery contacts clean and free from dust or debris.
- Avoid exposing the battery to extreme temperatures.

#### Safety Warnings

**ATTENTION! TO REDUCE RISK OF FIRE OR BURNS, READ INSTRUCTIONS IN OPERATING GUIDE BEFORE USING THE BATTERY.**

- **DO NOT** attempt to disassemble, open, or service the battery pack. Warranty is void if the label is removed.
- **REPLACE ONLY** with the battery pack designated for this product.
- **DO NOT** crush, puncture, short external contacts, or dispose of in fire or water.
- **DO NOT** store above 60 °C (140 °F).

### 5. TROUBLESHOOTING

While the TrustCell BL-06 battery is designed for reliability, should you encounter issues, consider the following:

- **Battery Not Charging:** Ensure the battery is correctly seated in the device and the charging cable/adaptor is functioning properly and is compatible.
- **Short Battery Life:** Verify that you are using a quality charger. Repeated deep discharges can reduce battery lifespan. Ensure the device's software is up to date, as inefficient software can drain power.
- **Device Not Powering On:** Confirm the battery is fully charged and properly installed. If the issue persists, it may indicate a problem with the device itself rather than the battery.

For persistent issues, please refer to the Support section for contact information.
