3. ASSEMBLY INSTRUCTIONS (SETUP)

Assembly requires two adults. A power drill with appropriate bits is recommended for faster and easier assembly, though not strictly required. Follow the step-by-step instructions provided in your physical manual.

General Assembly Steps:

1. **Prepare the Area:** Clear a spacious, clean, and level area for assembly. Lay down a blanket or cardboard to protect the furniture pieces and your floor.
2. **Identify Parts:** Unpack all components and identify them using the numbered labels. Separate hardware into distinct groups.
3. **Assemble the Frame:** Begin by assembling the main frame of the dresser according to the numbered steps. Ensure all connections are secure.
4. **Install Drawer Slides:** Attach the drawer slides to the dresser frame and to the drawer sides as instructed. Ensure they are level and aligned for smooth operation.
5. **Assemble Drawers:** Construct each drawer box. Attach the drawer fronts, ensuring the fluted design aligns correctly. Install the matte gold handles.
6. **Insert Drawers:** Carefully insert the assembled drawers into the dresser frame, ensuring they glide smoothly.
7. **Install Anti-Tip Kit:** Securely attach the anti-tip hardware to the back of the dresser and to a wall stud, following the specific instructions provided with the kit. This step is critical for safety.
