# Vacuum Cleaner Exhaust Filter Instruction Manual

Model: 4G51XT2Y89N13EHW46X2

## INTRODUCTION

---

This instruction manual provides essential information for the proper installation, operation, and maintenance of your new Vacuum Cleaner Exhaust Filter. This filter is designed to be compatible with Silvercrest SBZBK 850 A1 and Mod.HG07375 vacuum cleaners, ensuring optimal filtration performance and contributing to a healthier living environment.

The filter is made of high-quality materials, ensuring durability and reliable performance. It is designed for easy installation and delivers excellent performance, optimizing the function and suction power of your vacuum cleaner. This filter helps clean the vacuum cleaner and makes your lifestyle healthier, offering excellent filter performance.

## PRODUCT OVERVIEW

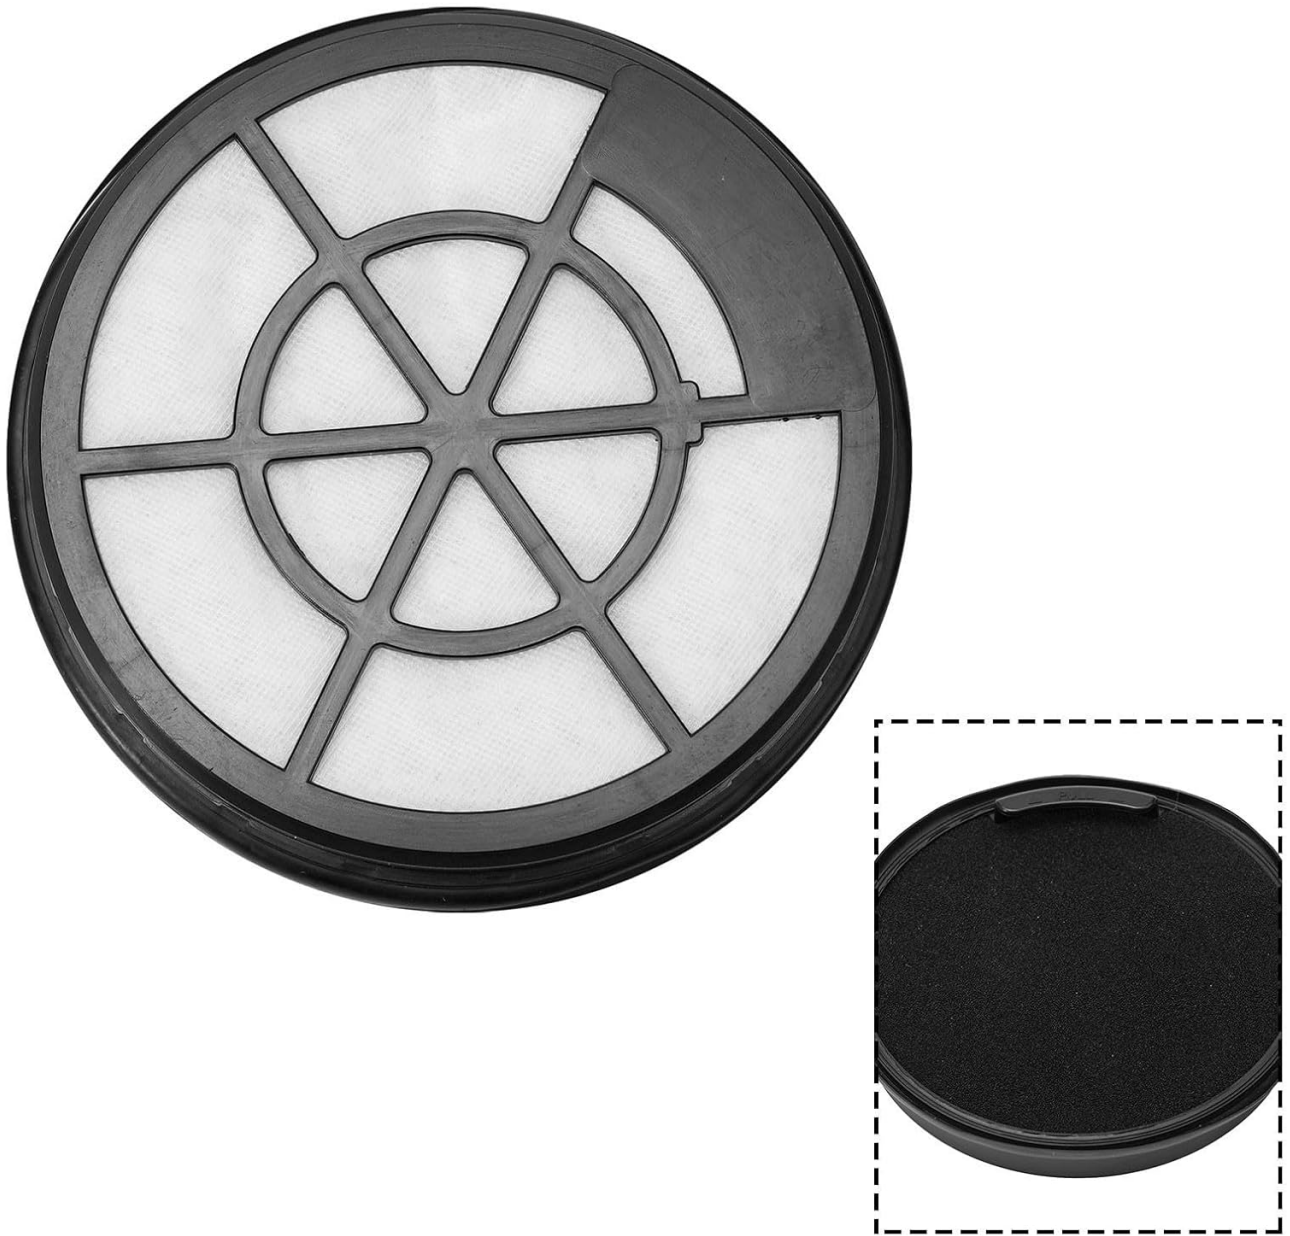

---

**Figure 1:** Front view of the circular vacuum cleaner exhaust filter. It features a black plastic frame with a six-spoke design covering a white filter mesh.

**Figure 2:** Top-down perspective of the filter, highlighting the circular design and the textured black plastic frame over the white filter material.

**Figure 3:** The filter shown with an additional inset image detailing the black foam backing, which provides additional filtration and sealing.

**Figure 4:** A composite image displaying the filter from a side angle, along with magnified views of the white filter mesh and the black foam backing.

**Figure 5:** An angled view of the filter, showcasing its circular form and the structured black frame over the white filter material.

**Figure 6:** The underside of the filter, revealing the solid black foam layer that provides sealing and additional filtration.

**Figure 7:** A slightly different angle of the filter's bottom, clearly showing the black foam backing and a small tab labeled "PULL" for easy removal or installation.

## SETUP AND INSTALLATION

---

Before installing the new exhaust filter, ensure your vacuum cleaner is unplugged from the power outlet to prevent accidental activation.

1. **Locate the Filter Compartment:** Refer to your vacuum cleaner's original instruction manual to identify the exhaust filter compartment. This is typically located near the motor or air outlet.
2. **Remove the Old Filter:** Carefully open the filter compartment. Remove the old exhaust filter, noting its orientation. Dispose of the old filter responsibly.
3. **Clean the Compartment:** Gently wipe the filter compartment with a dry cloth to remove any dust or debris before inserting the new filter.
4. **Insert the New Filter:** Place the new exhaust filter (Model: 4G51XT2Y89N13EHW46X2) into the compartment. Ensure it is seated correctly and securely. The filter is designed for a perfect fit with compatible models (Silvercrest SBZBK 850 A1, Mod.HG07375).
5. **Close the Compartment:** Close the filter compartment securely. Ensure all latches or covers are properly fastened.
6. **Test Operation:** Plug in your vacuum cleaner and perform a brief test to ensure proper operation and suction.

## OPERATING PRINCIPLES

---

The exhaust filter plays a critical role in your vacuum cleaner's performance by trapping fine dust particles and allergens before the air is expelled back into your living space. This filter is designed to maintain optimal airflow while effectively capturing microscopic particles, contributing to cleaner air quality.

Regular replacement of the exhaust filter ensures that your vacuum cleaner continues to operate at its peak efficiency, maintaining strong suction power and preventing the recirculation of dust and debris.

## MAINTENANCE

---

The exhaust filter is a consumable part and requires periodic replacement to maintain your vacuum cleaner's performance and air quality. This filter is not designed for washing or cleaning.

- **Replacement Frequency:** It is recommended to replace the exhaust filter every 3 to 6 months, or more frequently if you use your vacuum cleaner often, have pets, or notice a decrease in suction power or an increase in dust emission.
- **Visual Inspection:** Periodically inspect the filter for visible signs of dirt, discoloration, or damage. A heavily soiled filter will appear grey or black and may feel stiff.
- **Disposal:** Dispose of used filters according to local waste disposal guidelines.

## TROUBLESHOOTING

---

If you experience issues with your vacuum cleaner after filter replacement, consider the following:

- **Reduced Suction Power:**
  - Ensure the new filter is correctly seated and the compartment cover is fully closed.
  - Check if the filter is heavily soiled. If so, it may need replacement sooner than expected.
  - Inspect other parts of the vacuum cleaner (e.g., dustbin, hose, brush roll) for clogs or blockages.
- **Unusual Odors:**
  - A new filter should not cause odors. If odors persist, the filter may be saturated with fine particles or the vacuum cleaner itself requires a thorough cleaning.
  - Ensure the filter is dry before installation if it was exposed to any moisture.
- **Dust Emission:**
  - Verify the filter is the correct model for your vacuum cleaner and is installed properly.
  - Check for any gaps around the filter seal.
  - If the filter is old or damaged, it may no longer effectively trap particles and requires immediate replacement.

If problems persist after following these steps, consult your vacuum cleaner's original user manual or contact the vacuum cleaner manufacturer's support.

## SPECIFICATIONS

---

Attribute	Detail
Product Type	Vacuum Cleaner Exhaust Filter
Brand	OceaniaLend

<b>Model Number</b>	4G51XT2Y89N13EHW46X2
<b>Compatibility</b>	For Silvercrest SBZBK 850 A1, Mod.HG07375
<b>Product Dimensions</b>	5.91 x 5.91 x 0.79 inches
<b>Item Weight</b>	2.05 ounces
<b>Material</b>	High-quality materials
<b>Country of Origin</b>	China
<b>Date First Available</b>	December 27, 2024

## WARRANTY AND SUPPORT

---

This instruction manual does not provide specific warranty details for the exhaust filter. For information regarding warranty coverage, return policies, or product support, please refer to the purchase documentation or contact the seller directly. The seller for this product is OceaniaLend.

For technical assistance related to your vacuum cleaner, please consult the vacuum cleaner's original manufacturer's support channels.
