

## PAJ GPS PET Finder 4G - Blue

# PAJ GPS Dog Tracker - User Manual

Model: PET Finder 4G - Blue

## 1. INTRODUCTION AND OVERVIEW

The PAJ GPS Dog Tracker is an advanced 4G real-time tracking device designed to ensure the safety and well-being of your pet. This compact and waterproof tracker provides precise location monitoring, runaway alerts, and health activity insights directly to your smartphone via a dedicated app. It is suitable for dogs weighing 8.8 lbs (4 kg) and above, offering peace of mind whether at home or during outdoor adventures.

## 3. SETUP

### 3.1. Charging the Device

Before first use, fully charge your PAJ GPS Dog Tracker using the provided USB charging cable. Connect the cable to the tracker and a standard USB power source (e.g., computer USB port, wall adapter). The device's LED indicator will show charging status.

### 3.2. App Download and Activation

To utilize the full features of your tracker, download the official PAJ GPS app from your device's app store

(available for Android and iOS). Follow the in-app instructions to create an account and activate your device. A subscription plan is required for real-time tracking services.

### 3.3. Attaching to Your Pet's Collar

The PAJ GPS Dog Tracker is designed to fit securely on most dog collars. Use the included durable Velcro straps to attach the device firmly to your pet's collar. Ensure the tracker is positioned comfortably and does not impede your pet's movement.

## 4. OPERATING INSTRUCTIONS

#### 4.1. Real-Time Tracking

Access your pet's live location at any time through the PAJ GPS app. The app provides precise, real-time updates on a map, allowing you to monitor your pet's whereabouts instantly.

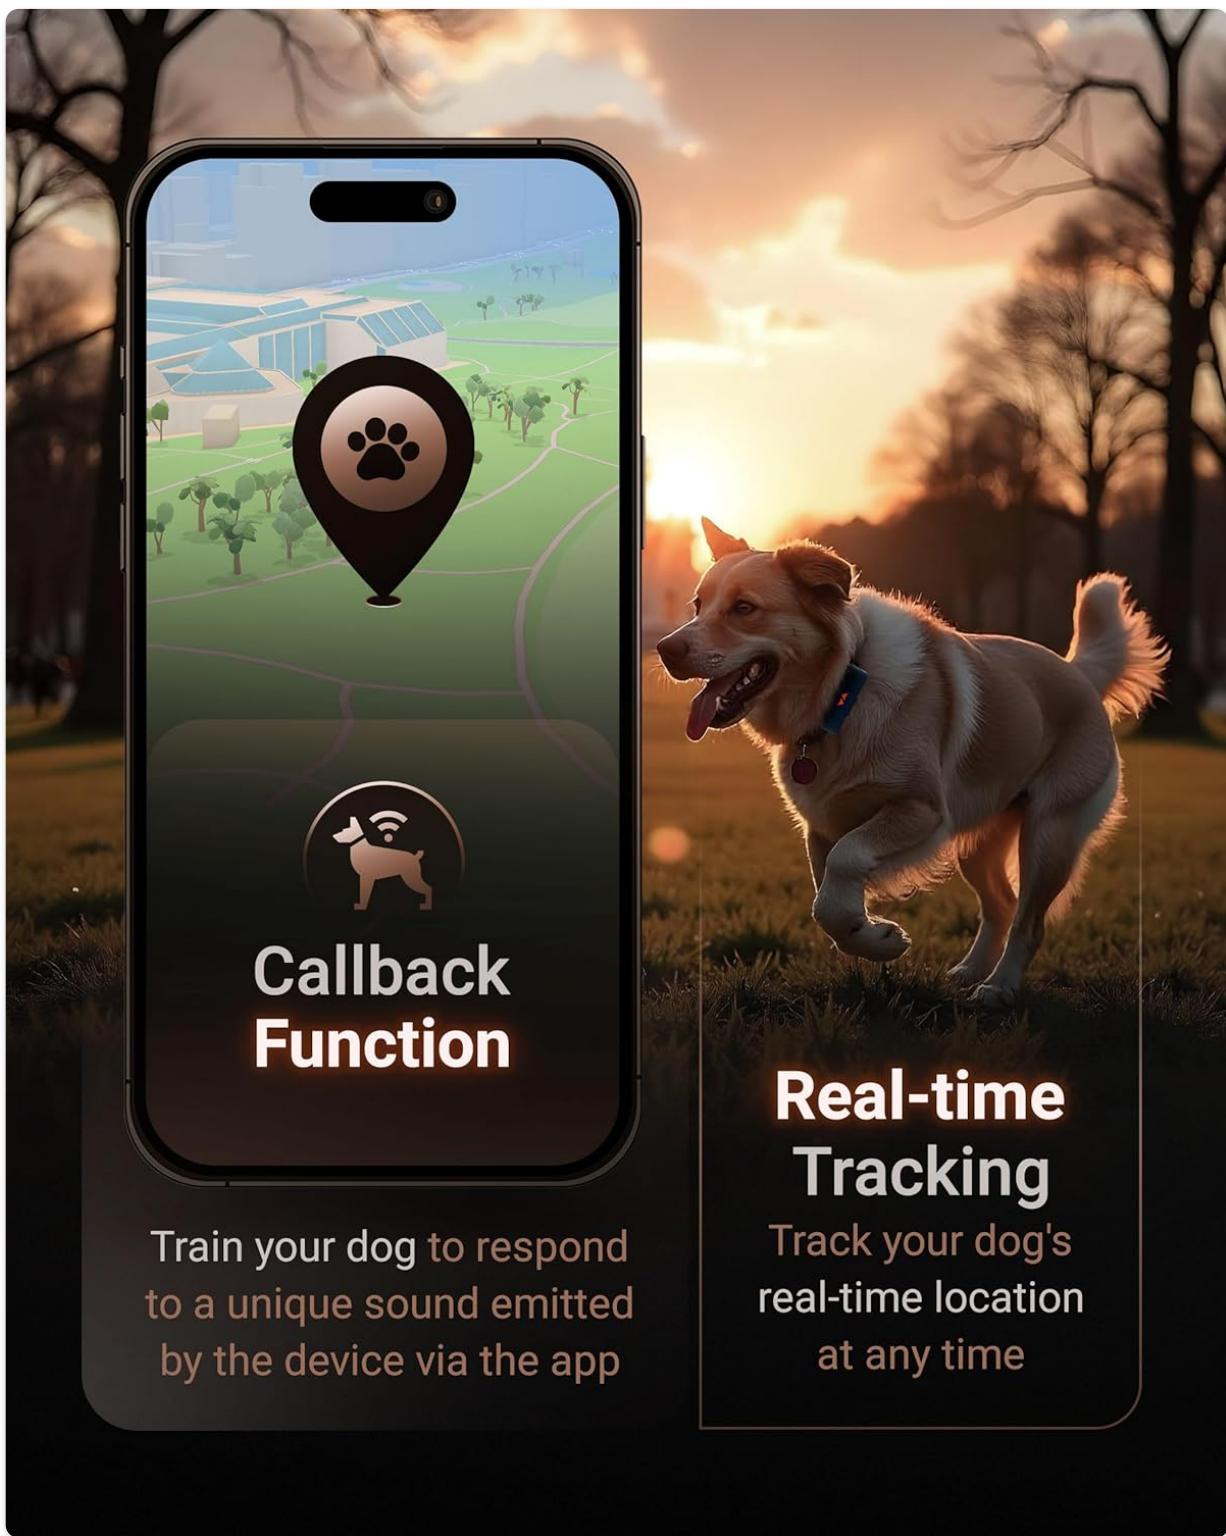

Image: A dog with the tracker on its collar, next to a smartphone displaying the PAJ GPS app's live tracking map, indicating the pet's current location.

#### 4.2. Runaway Alerts (Geofence)

Set up virtual fences (geofences) within the app to define safe zones for your pet. If your pet enters or exits these predefined areas, you will receive instant notifications on your smartphone, allowing for quick response.

#### 4.3. Callback Function

The app features a unique callback function that emits a distinct sound from the tracker. This can be used as a training tool to teach your dog to return to you when they hear the sound.

Image: A vibrant image of a dog enjoying an outdoor run, accompanied by a smartphone screen illustrating the "Callback Function" and "Real-time Tracking" features of the PAJ GPS app.

#### 4.4. LED Lights for Enhanced Visibility

The PAJ GPS Dog Tracker is equipped with built-in LED lights that enhance your pet's visibility, especially during night walks or in low-light conditions. The light sensor automatically adjusts brightness for optimal visibility.

Your browser does not support the video tag.

Video: This video demonstrates the PAJ GPS Tracker for Dogs 4G, highlighting its runaway alarm capabilities and the

functionality of its LED lights for improved visibility in low-light conditions. It shows a dog walking with the illuminated tracker and a user interacting with the app to control the lights.

#### 4.5. Health & Activity Monitoring

Monitor your dog's health and activity levels through the app. This includes early health insights, a wellness score, and daily activity tracking (calories, active minutes). You can also review up to 365 days of route history.

The image shows a composite view of the PAJ GPS app's user interface. At the top, a banner displays the text "Pick Your Subscription Plan". Below this, a "Basic" plan is shown with three options: "Monthly" (\$13 monthly, \$13 billed monthly), "1 year" (\$7.5 monthly, \$90 billed annually), and "2 years" (\$5.5 monthly, \$132 billed every 2 years). Each option includes a list of features: LIVE Tracking, FINDER Portal, All alarms and functions, and Track memory (3 days for monthly, 365 days for annual and biennial plans). To the right, a "Premium" plan is shown with three options: "6 months" (\$11 monthly, \$66 billed every 6 months), "1 year" (\$8.5 monthly, \$102 billed annually), and "2 years" (\$6.5 monthly, \$166 billed every 2 years). The Premium plan includes all the features of the Basic plan plus additional ones: Satellite, 3D & Outdoor Maps, Priority 24/7 support, and Lifelong device replacement (as long as the device is connected to an active subscription). A "30 DAYS" return policy is also indicated. At the bottom, a note states: "Image: A composite image displaying various health and activity monitoring features within the PAJ GPS app, including wellness scores, daily activity logs, and historical route information."

#### 4.6. Family Sharing

The Family Sharing feature allows multiple individuals to track the same device simultaneously, ensuring

that all family members can monitor the pet's location.

## 4.7. Battery Saving Zone

Utilize the Battery Saving Zone feature to extend battery life. This mode optimizes power consumption when your pet is within a designated safe area, such as your home Wi-Fi zone.

## 4.8. Seamless Map Modes

Switch between different map modes (e.g., satellite, 3D, outdoor maps) seamlessly within the app for the best viewing experience, especially for outdoor tracking.

## 5. BATTERY INFORMATION

---

The PAJ GPS Dog Tracker is powered by a Lithium Ion battery. Battery performance varies based on usage:

- Up to 10 days in power-saving mode (e.g., within a Battery Saving Zone).
- 4-6 days with mixed use.
- 1-2 days with continuous 24/7 tracking.

Regular charging is recommended to ensure continuous tracking availability.

## 6. MAINTENANCE

---

The PAJ GPS Dog Tracker is IP67-rated waterproof, making it suitable for various weather conditions and activities like swimming. To maintain optimal performance and longevity:

- Clean the device regularly with a soft, damp cloth.
- Avoid exposing the charging port to water when not in use.
- Ensure the rubber cover is properly sealed to maintain water resistance.
- Store the device in a cool, dry place when not in use for extended periods.

## 7. TROUBLESHOOTING

---

If you encounter issues with your PAJ GPS Dog Tracker, consider the following:

- **No Location Data:** Ensure the device is charged and has a clear line of sight to the sky for GPS signal. Check your subscription status in the app.
- **Device Not Connecting:** Verify your smartphone's internet connection. Restart both the tracker and your smartphone.
- **Short Battery Life:** Review your tracking interval settings in the app. More frequent updates consume more battery. Utilize power-saving modes or Battery Saving Zones when possible.
- **Notifications Not Received:** Check app notification settings on your smartphone and within the PAJ GPS app. Ensure geofences are correctly configured.

For persistent issues, refer to the official PAJ GPS website or contact customer support.

## 8. SPECIFICATIONS

---

Feature	Detail
Model Name	PET Finder 4G - Blue
Connectivity Technology	Cellular (4G)
GPS	Built-in GPS
Waterproof Rating	IP67
Item Weight	48 Grams (1.69 ounces)
