## INSTALLATION GUIDE

### 1. Installing Side Brushes

The side brushes are designed with a slot for easy installation. Align the brush with the corresponding slot on your robot vacuum and press firmly until it clicks into place. Ensure the brush rotates freely after installation.

**Soft  
Brush**

**Slot  
Design**

**Durable  
ABS**

Figure 4: Side brush design for easy installation.

**Important Tip:**

If side brushes appear bent or curled due to shipping, soak them in warm water for a few minutes. This will help them regain their original shape without affecting performance.

## 2. Installing HEPA Filters

Locate the filter compartment on your robot vacuum, typically under the dustbin. Remove the old filter and insert the new HEPA filter, ensuring it fits snugly to prevent air leakage. The HEPA filters are designed to effectively block 99.9% of dust, pollen, pet fur dander, and airborne particles as small as 0.1 micrometers.

Effectively blocks  
**99.9%**  
of dust, pollen,  
pet fur dander  
and any airborne  
particles as small as  
**0.1 micrometers**

Figure 5: HEPA filter effectiveness against various particles.

### 3. Installing Mop Pads

Attach the mop pad to the designated mop plate or water tank module of your robot vacuum. Ensure it is securely fastened for effective mopping. These microfiber mop pads are suitable for all floor types, including marble, bamboo, ceramic, hardwood, laminate, tile, stone, and cement.

## MAINTENANCE AND REPLACEMENT

Regular maintenance of your robot vacuum accessories is crucial for maintaining optimal cleaning performance and extending the lifespan of your device. We recommend replacing accessories every three months, or more frequently depending on usage and environment.

### Cleaning HEPA Filters

Use the provided cleaning brush to gently remove dust and debris from the HEPA filter. Do not wash HEPA filters with water, as this can damage the filter material.

**For  
Robot  
Vacuum  
Filters**

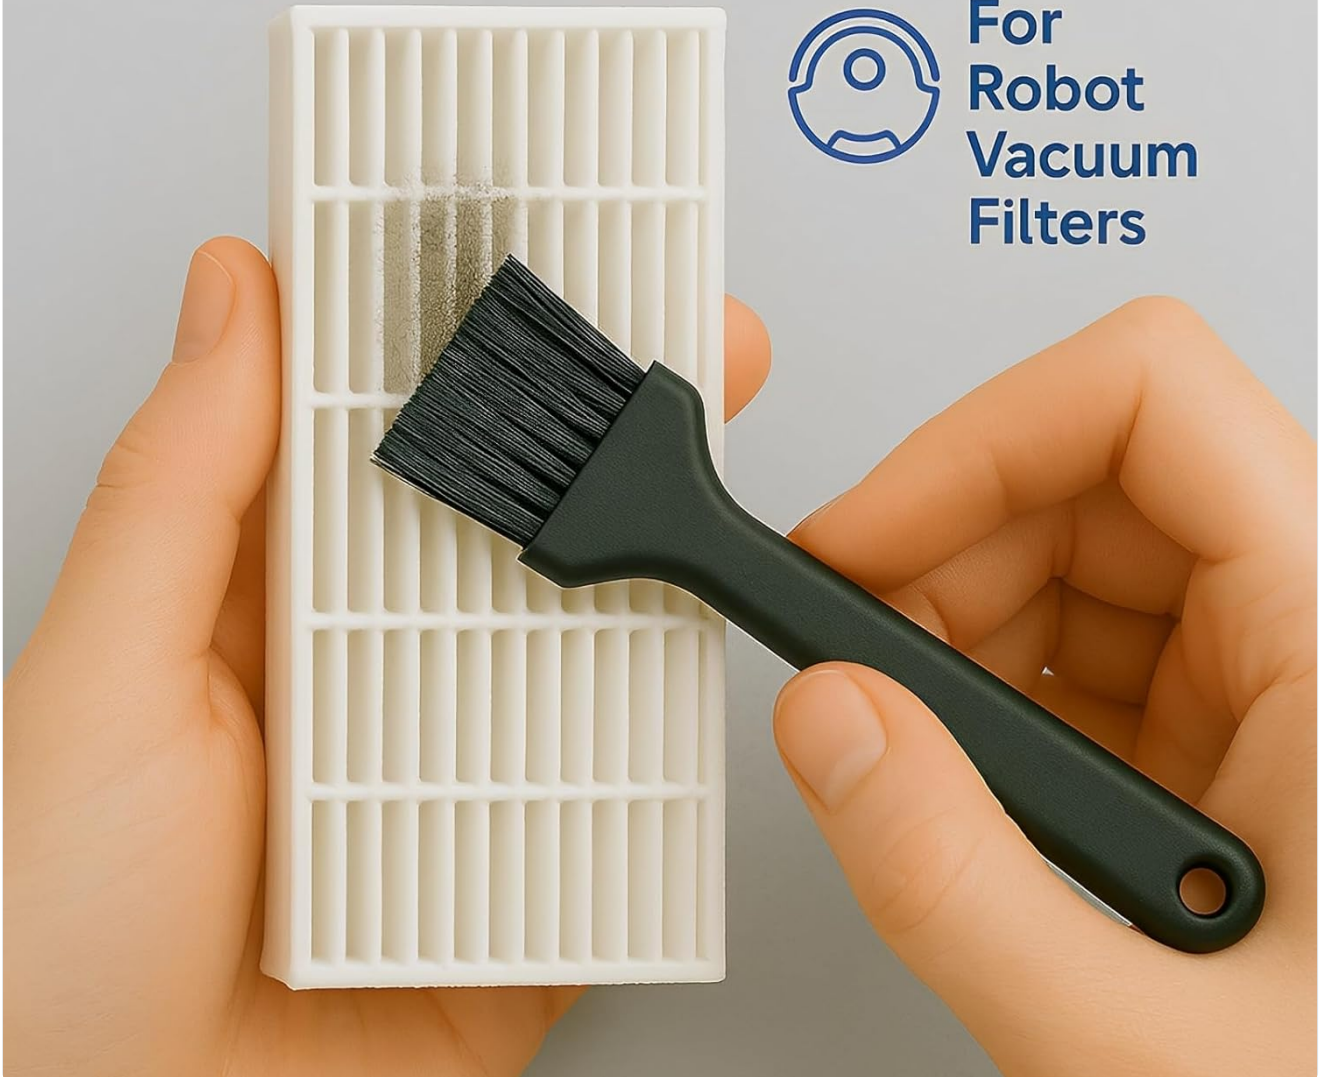

Figure 7: Cleaning a HEPA filter with the included brush.

### **Cleaning Mop Pads**

The microfiber mop pads are machine washable and reusable. After each use, remove the mop pad and wash it with water. For deeper cleaning, machine wash as needed. Allow the mop pad to air dry completely before reattaching it to the vacuum.

## SPECIFICATIONS

Component	Quantity	Material	Dimensions (Approx.)
Side Brushes	10	ABS Material	2.13 inches (length)
HEPA Filters	6	HEPA Filter Material	3.90 x 2.19 inches
Mop Pads	6	Microfiber	6.30 inches (width)
Cleaning Brush	1	Plastic	3.70 inches (length)

**Overall Product Dimensions:** 21.59 x 13.97 x 3.81 cm (8.5 x 5.5 x 1.5 inches)

**Item Weight:** 200 g

**Manufacturer:** HUIZHEN

**Model Number:** FORS1V75S22PCS

## TROUBLESHOOTING

---

### Bent Side Brushes

**Problem:** Side brushes appear bent or curled upon arrival.

**Solution:** This can occur during shipping. Soak the bent brushes in warm water for a few minutes. The material is designed to recover its shape, and this will not affect the quality or performance of the brush.

## SUPPORT

---

For any issues encountered during the use of these replacement parts, please contact the manufacturer or seller directly. Our team aims to respond and resolve your problem within 24 hours.

For further assistance, please refer to the contact information provided by your retailer or on the product packaging.
