Domi 12x16FT Outdoor Gazebo with Galvanized Steel Double Roof - Instruction Manual

Model: LGMF1671-BR-DF-US

Brand: domi outdoor living

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Domi 12x16FT Outdoor Gazebo. Please read all instructions carefully before beginning assembly and retain this manual for future reference. Proper assembly and care will ensure the longevity and safe use of your gazebo.

2. SAFETY INFORMATION

Important Safety Precautions:

- Always assemble this product on a stable, level surface.
- Secure the gazebo to the ground using the provided stakes or weights to prevent it from tipping over in windy conditions.
- Be cautious when handling privacy curtains and bug netting to avoid entanglement.
- Keep children and pets away from the gazebo during assembly and disassembly.
- Before purchasing and installing, verify that your local and state regulations permit the installation of such outdoor structures.

3. PARTS LIST

Refer to the detailed parts list included in your product packaging. Ensure all components are present and undamaged before beginning assembly. Contact customer support immediately if any parts are missing or defective.

4. SETUP AND ASSEMBLY

Assembly of the Domi 12x16FT Outdoor Gazebo requires careful attention to detail and typically two individuals. While pre-drilled base holes simplify installation, allow ample time for completion.

4.1. Frame Assembly

Begin by assembling the main frame structure. The galvanized steel frame is designed for durability and resistance to fading, rust, and corrosion. The 3.9-inch thick posts contribute to stability.

The Strong Support Services

24 Hours Team Support	5 Years After-sales Service	7 Boxes Fast Delivery
---------------------------------	---------------------------------------	---------------------------------

Image 4.1: Enhanced metal steel frame design.

4.2. Base Installation

The gazebo features pre-drilled base holes for secure ground anchoring. Ensure the base covers are properly installed to protect against rain and prevent rust, enhancing the overall appearance and longevity of the structure.

Watertight Base Cover

BASE COMBINED WITH COVER

Blocks rain, prevents rust, and enhances the appearance of your gazebo.

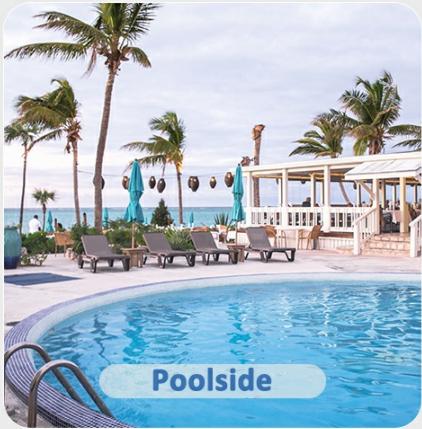

EXPOSED BASE WITHOUT COVER

Rainwater seeps through holes, causing wet floors and rusted metal parts.

4.3. Roof Assembly

The roof assembly is a critical step. Follow the instructions carefully, ensuring all panels are correctly aligned before tightening fasteners. This step may require extra time and coordination.

Where moments become memories
Artistic • Stable • UV-proof

5. OPERATING INSTRUCTIONS

5.1. Ventilated Double Roof

The gazebo features a ventilated double-roof system designed to promote excellent airflow, keeping the outdoor space comfortable. This design also helps block UV rays and withstands rain and snow.

Image 5.1: Ventilated double roof features.

5.2. Water Drainage System

The sloped roof incorporates an efficient water gutter design, ensuring rainwater drains quickly and safely, preventing accumulation and potential damage. This system is clog-resistant for improved drainage efficiency.

Water Gutter Design

The slope design allows water to flow down quickly, ensuring the drainage ditch is clog-resistant and improving overall drainage efficiency.

Image 5.2: Water gutter drainage system.

5.3. Curtains and Netting

The gazebo includes removable netting to keep insects out while allowing air circulation. Privacy curtains can be used to create a more enclosed and private atmosphere. Both are made from 160G/M² PU coated polyester, offering colorfast and waterproof properties.

REMOVEABLE CURTAINS & NETTINGS

Image 5.3: Removable curtains and nettings for versatility.

5.4. Ceiling Hooks

Three 'J' shaped hooks are integrated into the ceiling structure, providing convenient points for hanging lights, fans, or decorative items.

3 Ceiling Hooks & Updated Mesh

There are 3 "J" shaped hooks on the roof to hang fans, lights and decors.

Image 5.4: Ceiling hooks for accessories and updated mesh.

6. MAINTENANCE

Regular maintenance will help preserve the appearance and functionality of your gazebo.

- **Cleaning the Frame:** Wipe the metal frame with a soft cloth and mild soap and water. Rinse thoroughly and dry to prevent water spots. Avoid abrasive cleaners or harsh chemicals.
- **Cleaning Curtains and Netting:** The polyester curtains and mesh netting can be spot cleaned with mild soap and water. For deeper cleaning, they may be removed and hand washed. Ensure they are completely dry before reattaching or storing to prevent mildew.
- **Roof Care:** Periodically inspect the roof panels for debris accumulation. Clear leaves, snow, or other materials to prevent excessive weight and ensure proper drainage.
- **Fastener Check:** Annually, or after severe weather, check all bolts and screws to ensure they are tight. Retighten as necessary.
- **Winter Preparation:** While the gazebo is designed to withstand heavy winter snow, it is advisable to regularly

clear heavy snow accumulation from the roof to prevent structural stress.

7. TROUBLESHOOTING

This section addresses common issues you might encounter during assembly or use.

- **Difficulty with Roof Assembly:** The roof section can be challenging. Ensure all panels are correctly oriented and loosely fitted before attempting to secure them. Do not fully tighten any bolts until all roof panels are in place and aligned.
- **Screws Not Catching Thread:** If some screws do not catch, ensure you are using the correct screw size for the designated hole. Avoid overtightening, especially on roof panel bolts, as this can cause leaks.
- **Bent Parts:** If any parts arrive bent, do not attempt to force them into place. Contact customer support for replacement parts.
- **Water Accumulation on Roof:** Verify that the drainage system is clear of debris. Ensure the roof panels are correctly installed and sealed to allow water to flow into the gutters.

8. SPECIFICATIONS

Key specifications for the Domi 12x16FT Outdoor Gazebo:

Feature	Specification
Brand	domi outdoor living
Model Number	LGMF1671-BR-DF-US
Material	Alloy Steel, Metal
Style	Modern
Product Dimensions (L x W x H)	190.39" x 142.76" x 120.92"
Item Weight	452.9 Pounds
Frame Material	Metal
Water Resistance Level	Water Resistant
Shape	Rectangular
UV Protection	UV Resistant
Assembly Required	Yes
Color	Dark Gray
Floor Area	192 Square Feet
