Radio Flyer M880

Radio Flyer Kid & Cargo Carrier - Flyer M880 User Manual

Model: M880

INTRODUCTION

This manual provides essential information for the safe and effective use of your Radio Flyer Kid & Cargo Carrier, Model M880. Designed for versatility, this carrier allows you to transport one child or haul cargo, adapting to your family's needs.

PRODUCT OVERVIEW

Image: The Radio Flyer Kid & Cargo Carrier, Model M880, mounted on the rear rack of a bicycle. The carrier features a grey fabric basket with "KID & CARGO" embroidered on the side, supported by a sturdy black metal frame. The image highlights the carrier's integration with the bike's rear wheel and seat post area.

The Kid & Cargo Carrier is a versatile accessory designed to attach to the rear rack of your bicycle. It features a durable fabric basket that can be configured for carrying a single child or for hauling cargo. Key features include:

- Capacity for one child rider or general cargo.
- Sides zip down for easy conversion between kid and cargo modes.
- Provides approximately 1.3 cubic feet of storage in cargo mode.
- Padded foam seat for passenger comfort.
- Integrated foot pegs for rider stability.
- Side panels designed to protect feet from wheel spokes.
- Integrated zipper pouch for additional storage.
- Constructed with DuraClean 2.0 fabric for durability and easy cleaning.
- Compatible for use with a Thule Yepp Maxi Seat for children aged 9 months to 6 years.

SETUP AND INSTALLATION

The Kid & Cargo Carrier is designed for straightforward mounting to the rear rack of your bicycle. Mounting hardware is included with the product.

Mounting Instructions:

1. **Prepare your bicycle:** Ensure your bicycle has a sturdy rear rack capable of supporting the carrier and its intended load (child or cargo). Refer to your bicycle's manual for rack weight limits.
2. **Position the carrier:** Place the carrier onto the rear rack, aligning the mounting points of the carrier with the rack.
3. **Secure the carrier:** Use the provided mounting hardware to firmly attach the carrier to the bicycle's rear rack. Follow the specific instructions in the hardware kit for proper tightening and secure fit. Ensure all bolts and fasteners are tightened to prevent movement during use.
4. **Verify stability:** After installation, gently shake the carrier to ensure it is securely attached and does not wobble. Re-tighten any loose connections if necessary.

***Note:** For optimal safety, always ensure the carrier is properly installed and secured before each use. If you are unsure about the installation process, consult a professional bicycle mechanic.*

OPERATING INSTRUCTIONS

Converting Between Kid and Cargo Mode:

The carrier's versatile design allows for easy conversion:

- **Kid Mode:** Keep the side panels zipped up to create a secure enclosure for a child. Ensure the padded foam seat is in place and foot pegs are extended for the child's comfort and stability.
- **Cargo Mode:** Unzip and fold down the side panels to expand the carrier's capacity for hauling cargo. This provides approximately 1.3 cubic feet of storage.

Child Safety and Comfort:

- **Seating:** Ensure the child is seated comfortably on the padded foam seat.
- **Foot Protection:** The integrated side panels are designed to protect the child's feet from the bicycle's wheel spokes. Ensure the child's feet are positioned within these protected areas.
- **Foot Pegs:** Guide the child to place their feet on the foot pegs for stability during the ride.

- **Compatibility with Thule Yepp Maxi Seat:** This carrier can be used in conjunction with a Thule Yepp Maxi Seat for children aged 9 months to 6 years. Follow the installation and safety guidelines for both products when using them together.

Storage:

Utilize the integrated zipper pouch for storing small items such as keys, wallets, or snacks.

MAINTENANCE

Regular maintenance will ensure the longevity and safe operation of your Kid & Cargo Carrier.

- **Fabric Care:** The carrier features DuraClean 2.0 fabric, which is designed to be extremely durable and easy to clean. For general cleaning, wipe down the fabric with a damp cloth and mild soap. Allow to air dry completely before storage or next use.
- **Frame Inspection:** Periodically inspect the metal frame for any signs of damage, bends, or cracks.
- **Fastener Check:** Regularly check all bolts, screws, and fasteners to ensure they are tight. Re-tighten as necessary to maintain a secure attachment to your bicycle.
- **Storage:** When not in use, store the carrier in a dry place, away from direct sunlight and extreme temperatures, to prevent material degradation.

TROUBLESHOOTING

If you encounter any issues with your Kid & Cargo Carrier, consider the following common solutions:

- **Carrier feels loose or wobbly:** Check all mounting hardware. Ensure the carrier is properly seated on the bicycle's rear rack and all fasteners are securely tightened.
- **Difficulty zipping/unzipping sides:** Ensure the fabric is not caught in the zipper. Clean the zipper teeth if necessary.
- **Child discomfort:** Verify the padded foam seat is correctly positioned. Ensure the child's feet are on the foot pegs and not dangling.

For persistent issues or concerns not addressed here, please contact Radio Flyer customer support.
