Energizer VMHAL8

Energizer Rechargeable Metal Flashlight VMHAL8

Model: VMHAL8 | Brand: Energizer

1. SAFETY INFORMATION

Please read all instructions and cautionary markings on the package and light, and via the QR code before use. Failure to follow these instructions may result in injury, fire, or explosion.

1.1 General Warnings

- **Battery Warning:** The 18650 Lithium-Ion battery is non-removable. Do not attempt to replace or disassemble the battery. Risk of injury, fire, or explosion.
- **Disassembly Warning:** Do not disassemble the flashlight. Disassembly may cause damage to the product and void the warranty.
- **Eye Safety:** Do not shine the light directly into eyes. The intense light can cause temporary vision impairment or damage.

1.2 Strobe Mode Warning

A small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights and strobing lights. If you have a history of epilepsy or seizures, consult a doctor before using the strobe function. Discontinue use immediately if you experience any discomfort or adverse reactions.

2. PRODUCT OVERVIEW

The Energizer VMHAL8 Rechargeable Metal Flashlight is a smart, portable lighting solution. It features a durable aluminum body, a non-removable rechargeable 18650 Lithium-Ion battery, and a micro-USB charging cable for convenient recharging from various USB power sources. This flashlight offers three distinct lighting modes: High, Low, and Strobe, making it versatile for a range of activities including camping, hiking, fishing, dog walking, and emergency situations. A lanyard is included for easy carrying.

2.1 Key Features

- **High Brightness:** Up to 300 lumens, providing powerful illumination.
- **Multiple Modes:** High, Low, and Strobe for various lighting needs.

- **Durable Construction:** Made with robust metal for long-lasting use.
- **Rechargeable:** Integrated 18650 Lithium-Ion battery with micro-USB charging.
- **Compact and Portable:** Lightweight design with an included lanyard for easy transport.
- **User-Friendly:** Simple push-button operation.

3. SETUP

3.1 Charging the Flashlight

1. Locate the micro-USB charging port on the flashlight.
2. Connect the provided micro-USB cable to the flashlight's charging port.
3. Plug the other end of the USB cable into a compatible USB power source (e.g., power bank, car charger, computer).

USB port, or wall adapter).

4. Allow the flashlight to charge until the charging indicator (if present) shows a full charge. Charging time may vary depending on the power source and battery depletion level.
5. Once fully charged, disconnect the charging cable.

The flashlight uses a non-removable 18650 Lithium-Ion battery. No additional batteries are required.

4. OPERATING INSTRUCTIONS

4.2 Power On/Off and Mode Selection

The Energizer VMHAL8 flashlight features three lighting modes: High, Low, and Strobe. To operate the flashlight:

1. **Power On:** Press the power button once to turn the flashlight ON. It will typically start in High mode.
2. **Cycle Modes:** Press the power button repeatedly to cycle through the available modes: High → Low → Strobe.
3. **Power Off:** After cycling through all modes, the next press of the power button will turn the flashlight OFF.

High Mode: Provides maximum brightness (300 lumens) for powerful illumination.

Low Mode: Offers reduced brightness (130 lumens) for extended runtime and less intense lighting.

Strobe Mode: Emits a flashing light for signaling or emergency situations.

Image: Visual representation of the flashlight's operating modes and performance metrics (lumens, runtime) for High and Low modes, including the strobe icon, from the product packaging.

5. MAINTENANCE

- **Cleaning:** Wipe the flashlight with a soft, damp cloth to remove dirt or debris. Do not use abrasive cleaners or solvents.
- **Storage:** Store the flashlight in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To maintain battery health, recharge the flashlight regularly, even if not in frequent use. Avoid fully depleting the battery for extended periods.
- **Water Resistance:** The flashlight is designed to be water-resistant (FL1 Standard icon shows rain), but it is not submersible. Avoid prolonged exposure to heavy rain or submersion in water.

6. TROUBLESHOOTING

- **Flashlight not turning on:**
 - Ensure the battery is charged. Connect the flashlight to a USB power source and allow it to charge.
 - Press the power button firmly.
- **Flashlight not charging:**
 - Check the micro-USB cable for damage and ensure it is securely connected to both the flashlight and the power source.
 - Try a different USB power source or charging cable.
- **Light output is dim:**
 - The battery may be low. Recharge the flashlight.
 - Ensure the flashlight is not in Low mode. Cycle through modes to High mode.

If you encounter issues not listed here, please contact customer support.

7. SPECIFICATIONS

Feature	Detail
Brand	Energizer
Model Number	VMHAL8
Color	Black
Special Features	Rechargeable, 3 modes, robust, portable
Battery Type	Lithium-ion (18650, non-removable)
Light Output (High Mode)	300 Lumens
Runtime (High Mode)	3 hours
Beam Distance (High Mode)	130 meters
Light Output (Low Mode)	130 Lumens
Runtime (Low Mode)	4 hours
Impact Resistance	1 meter
Water Resistance	IPX4 (Rain resistant, as per FL1 Standard)
Included in Box	Flashlight, Micro-USB charging cable

Note: Performance data (Lumens, Runtime, Beam Distance, Impact Resistance, Water Resistance) is tested in accordance with ANSI FL1 standards.

8. RECYCLING INFORMATION

This Energizer product and its packaging are designed with recycling in mind. Please dispose of them responsibly.

8.1 Product Recycling

This device contains a Lithium-Ion battery and should not be disposed of with general household waste. It must be recycled separately. Look for designated collection points for electronic waste or batteries in your area.

Image: Recycling symbol for electronic waste (crossed-out wheeled bin) and text indicating the device is recyclable, as seen on the product packaging.

In France, you can find collection points at stores or waste disposal centers. For more information, visit: www.quefairedemesdechets.fr

8.2 Packaging Recycling

The packaging materials are recyclable:

- **Cardboard:** PAP 21 (Paper and Cardboard)

- **Plastic:** PET 1 (Polyethylene Terephthalate)

Image: Recycling symbols for PAP 21 (cardboard) and PET 1 (plastic), indicating proper disposal of packaging components.

Please check with your local municipality for specific recycling guidelines in your community.

9. WARRANTY AND SUPPORT

For consumer enquiries or support regarding your Energizer VMHAL8 flashlight, please contact us:
