## SETUP AND ASSEMBLY

---

The WLIVE Tall White Nightstand is designed for quick and easy assembly, typically completed within 25 minutes. All components are labeled, and clear instructions are provided.

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Assemble the metal frame using the provided hardware. Ensure all connections are secure.
3. Install the wooden shelves onto the frame.
4. Insert the fabric drawers into their designated slots. The drawers feature easy-to-pull handles.
5. Attach the LED light strip to the designated area, ensuring it adheres properly.
6. Install the charging station unit into its slot.
7. Attach the adjustable feet to the bottom of the nightstand. These feet can be rotated 360 degrees to level the unit on uneven surfaces.
8. Secure the nightstand to the wall using the included anti-tip kit for added safety.

## TROUBLESHOOTING

If you encounter any issues with your WLIVE Tall White Nightstand, please refer to the following common solutions:

| Problem                 | Possible Cause                             | Solution                                                                                                                                                                                                   |
|-------------------------|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Nightstand is wobbly.   | Uneven floor; loose assembly.              | Adjust the leveling feet at the bottom of the nightstand. Ensure all screws and bolts are tightened securely.                                                                                              |
| LED lights not working. | Power connection issue; app not connected. | Check if the LED strip is properly plugged into the power source. Ensure the iStrip+ app is connected via Bluetooth and has necessary permissions. Try restarting the app or power cycling the nightstand. |

| Problem                               | Possible Cause                        | Solution                                                                                                                                                |
|---------------------------------------|---------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| Charging station not providing power. | Not plugged in; device compatibility. | Verify the nightstand's main power cord is securely plugged into a working wall outlet. Ensure your device is compatible with USB charging or AC power. |
| Drawers are difficult to open/close.  | Overloaded; misaligned.               | Reduce the weight in the drawers. Ensure the fabric drawers are inserted correctly and not obstructed.                                                  |

If the problem persists after attempting these solutions, please contact WLIVE customer support for further assistance.
