Aoxun G37027-52HGW5P

Aoxun Outdoor Resin Storage Shed User Manual

Model: G37027-52HGW5P | Brand: Aoxun

1. Product Overview

The Aoxun Outdoor Resin Storage Shed is a robust and versatile storage solution designed for various outdoor environments, including garages, poolsides, gardens, and patios. This 64 Cu.Ft vertical cabinet is constructed from high-quality, durable resin, offering excellent waterproof and UV-resistant properties to ensure longevity and minimal maintenance.

Key features include an innovative four-door design for flexible access, a widened anti-toppling bottom for enhanced stability, and an integrated metal shelving kit for organized storage. It is ideal for storing garden tools, pool supplies, sports equipment, patio cushions, and more.

2. Setup and Assembly

The Aoxun storage shed is designed for a straightforward assembly process. While optimized for fewer screws, it is recommended that 2-3 people participate in the installation, which typically takes 30-60 minutes. Please note that the product ships in three separate packages, which may arrive at different times.

2.1 Unpacking and Preparation

- Ensure all three packages have arrived before beginning assembly.
- Carefully unpack all components and verify against the parts list provided in your physical manual.
- Choose a level and stable surface for assembly.

2.2 Assembly Tips

- **Tool Recommendation:** While a drill may seem convenient, it is highly recommended to use a hand-held

screwdriver for assembly. This prevents over-tightening and stripping of screw holes, which can occur easily with power drills.

- **Anti-Toppling Design:** The shed features a widened anti-toppling bottom design for enhanced stability. Ensure this base is securely positioned during assembly.
- **Door Connection:** The innovative four-door design includes convenient connection bars. These allow you to connect the upper and lower doors to convert them into a two-door mode, offering flexibility during and after assembly.

3. Operating Instructions

The Aoxun storage shed is designed for ease of use and flexible storage management.

3.1 Door Operation

- The shed features an innovative four-door design, allowing for versatile access. Each door can be opened independently, or the upper and lower doors can be connected using the provided bars to function as a single, larger two-door unit.
- The doors are equipped with a specially designed top and bottom door suction system to prevent accidental closing or opening, ensuring the security of your stored items.
- The shed doors are lockable, providing added security for your belongings.

3.2 Storage Management

- The included metal shelving kit provides organized storage space. These shelves are heavy-duty, colorfast, corrosion-resistant, and easy to clean.
- The shed offers flexible storage space. Additional partitions can be purchased separately and combined with the existing hole plate function to create various storage solutions for items of different sizes, from small screws to large tools.

Image 3.2: A close-up view of the heavy-duty metal shelves, highlighting their robust construction and suitability for organized storage.

Image 3.3: The shed in a poolside setting, demonstrating its capacity to store various recreational items like surfboards and skateboards.

4. Maintenance

The Aoxun storage shed is designed for low maintenance due to its durable resin construction.

- **Cleaning:** For daily cleaning, simply wipe the surfaces with a damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the resin material.
- **UV Resistance:** The high-quality resin material has excellent UV resistance, which helps prevent fading over long periods of outdoor use.
- **Waterproof Performance:** The shed offers excellent waterproof performance, protecting your stored items from rain and moisture.

5. Troubleshooting

This section addresses common issues and concerns that may arise during the use and assembly of your Aoxun storage shed.

5.1 Assembly Time

- **Issue:** Assembly takes longer than the estimated 30-60 minutes.
- **Solution:** The estimated time is an average. Actual assembly time can vary based on experience and the number of people assisting. Allocate sufficient time and do not rush the process.

5.2 Stripped Screw Holes

- **Issue:** Screw holes become stripped during assembly.
- **Solution:** Always use a hand-held screwdriver instead of a power drill. This provides better control and reduces the risk of over-tightening and stripping the resin material.

5.3 Door Operation Issues

- **Issue:** Doors feel flimsy or are difficult to open/close.
- **Solution:** Ensure all door hinges and connection bars are correctly installed and tightened. Verify that the top and bottom door suction systems are properly aligned. If issues persist, consider adding an external handle for easier operation, ensuring it does not interfere with the locking mechanism.

5.4 Water Inside the Shed

- **Issue:** Water enters the shed, particularly after rain.
- **Solution:** The shed is designed to be waterproof when closed. Water ingress typically occurs when doors are opened during or immediately after rainfall. Ensure doors are fully closed and latched during inclement weather. Verify that the shed is placed on a level surface to prevent water pooling around the base.

5.5 Thin Floor Material

- **Issue:** The floor feels thin or shows marks from heavy items/foot traffic.
- **Solution:** While suitable for general storage, if you plan to store very heavy items or anticipate frequent foot traffic, consider placing a protective layer, such as a 3/8-inch piece of plywood, on top of the shed floor.

6. Specifications

Feature	Detail
Brand	Aoxun
Model Number	G37027-52HGW5P
Color	White
Material	Resin
Product Dimensions (D x W x H)	51.96"D x 74.8"W x 28.34"H
Internal Capacity	64 Cu.Ft
Item Weight	22 pounds
Water Resistance Level	Water Resistant
Door Style	Folding Doors, Lockable
Assembly Required	Yes

7. Warranty and Support

For any questions regarding product warranty, missing parts, or technical support, please contact Aoxun customer service directly. Refer to the contact information provided in your product packaging or visit the official Aoxun website for assistance.
