Beyamis Circle Locator

Beyamis Air Trackers Tags User Manual

Model: Circle Locator

1. PRODUCT OVERVIEW

The Beyamis Air Trackers Tags are designed to help you locate your personal belongings using the Apple Find My network. These compact trackers are compatible with iOS devices (iOS 14.6 and above) and offer features like sound alerts, left-behind notifications, and location sharing.

Universal iOS

Ready for iPhones, iPads, and Macs

Image: The Beyamis Air Tracker Tag is universally compatible with iOS devices, including iPhones, iPads, and Macs, utilizing the Apple Find My app for tracking.

Smart Bluetooth Tracker

Pursue every important thing in life

⋮

Image: The Smart Bluetooth Tracker can be attached to various items such as keys, backpacks, pet collars, and wallets to help you keep track of important belongings.

2. SETUP INSTRUCTIONS

Follow these steps to set up your Beyamis Air Trackers Tags with your Apple device.

1. **Activate the Tracker:** Press the power button on the Air Tracker Tag to initiate the pairing process.
2. **Prepare Your Device:** Ensure your iPhone, iPad, or Mac is running iOS 14.6 or above. Open the pre-installed 'Find My' app and enable Bluetooth on your device.
3. **Pair the Tracker:** Within the 'Find My' app, navigate to the 'Items' tab. Select 'Add New Item' and then choose 'Other Supported Item'. Your device will detect the Beyamis Air Tracker Tag.
4. **Name Your Tracker:** Follow the on-screen prompts to link the tracker and assign a name to it (e.g., "Keys," "Luggage," "Wallet").

Easy to Pair

No need to download any software

One click to start

Image: The pairing process is straightforward, requiring no additional software downloads. Simply activate the tracker and connect it via the Find My app.

Image: Detailed setup steps: 1. Press the power button. 2. Turn on Find My app and Bluetooth. 3. Select 'Other Supported Item' to link and name your tracker.

3. OPERATING INSTRUCTIONS

3.1 Locating Items

- **Find Nearby with Sound Alerts:** When your item is within Bluetooth range (up to 60m/200ft), open the 'Find My' app, select your tracker, and tap 'Play Sound'. The tracker will emit a loud beep (up to 100dB) to help you pinpoint its exact location.
- **Extended Range with Find My Network:** If your item is out of Bluetooth range, the vast Apple Find My network can help. Hundreds of millions of Apple devices worldwide anonymously detect your tracker's location and relay it to your 'Find My' app, allowing you to see its last known position on a map.

Precise Location with Sound Alert

With a tap on your phone, Beyamis key finder emits a sound lasting up to 10s at 100dB

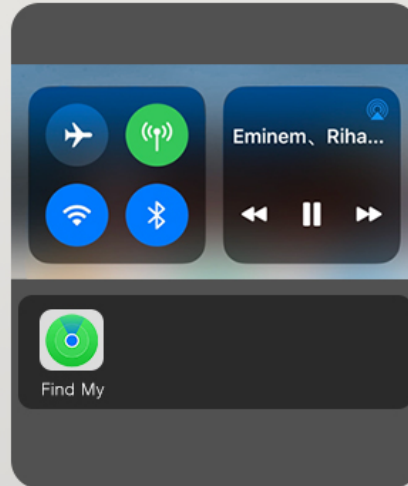

Image: The Find My app shows the precise location of your Beyamis Air Tracker Tag on a map, with an option to play a sound alert to locate it nearby.

Easy to Set

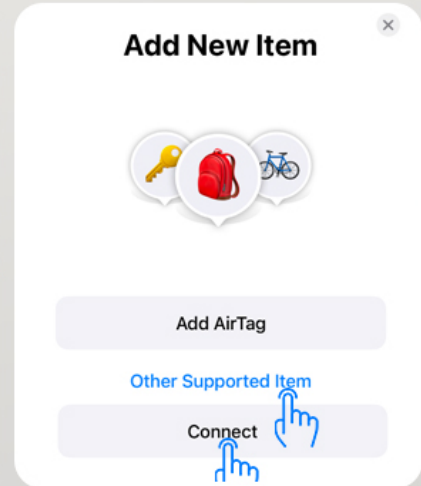

Step 1

Press the power button to start pairing

Step 2

Turn on "Find My" app and Bluetooth

Step 3

Select "Other Supported Items" and link your Loshall Tag, then name it

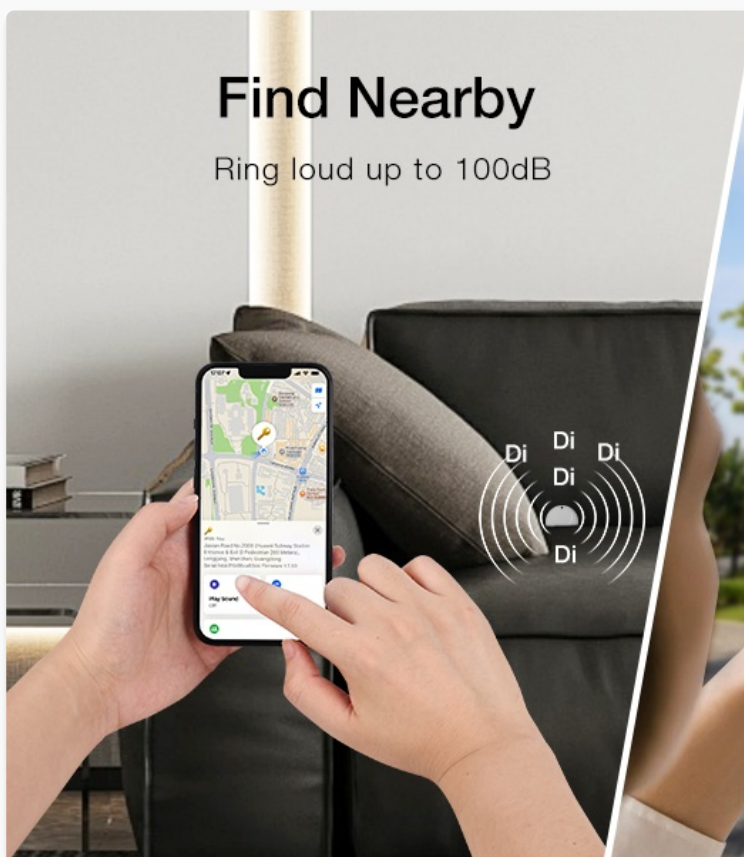

Image: This visual illustrates how to find items both nearby by ringing the tracker and far away using the Find My app's map and directions.

3.2 Alerts and Notifications

- **Left-Behind Alerts:** Receive instant notifications on your Apple device if you accidentally leave an item with a tracker behind. This feature helps prevent loss by alerting you when you separate from your belongings.
- **Lost Mode:** If an item is lost, activate 'Lost Mode' in the 'Find My' app. You can enter a contact number and message, which will be displayed to anyone who finds your tracker and scans it with an NFC-enabled smartphone.

Find Nearby

Ring loud up to 100dB

Find Far Away

Beyond Bluetooth reach, the Find My app maps the item and guides you close to Beyamis

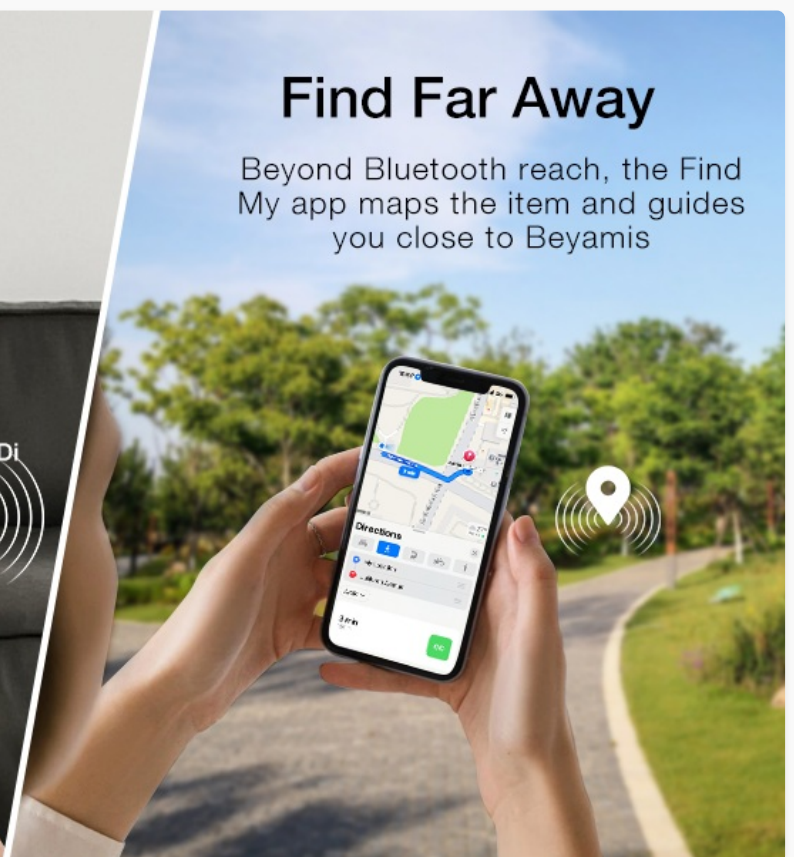

Image: The Find My app provides real-time notifications, including alerts when you leave an item behind, helping you keep track of your valuables.

3.3 Sharing Location

With iOS 17 or later, you can share the location of your Beyamis Air Tracker Tags with friends and family directly through the 'Find My' app. This allows multiple users to track the same item.

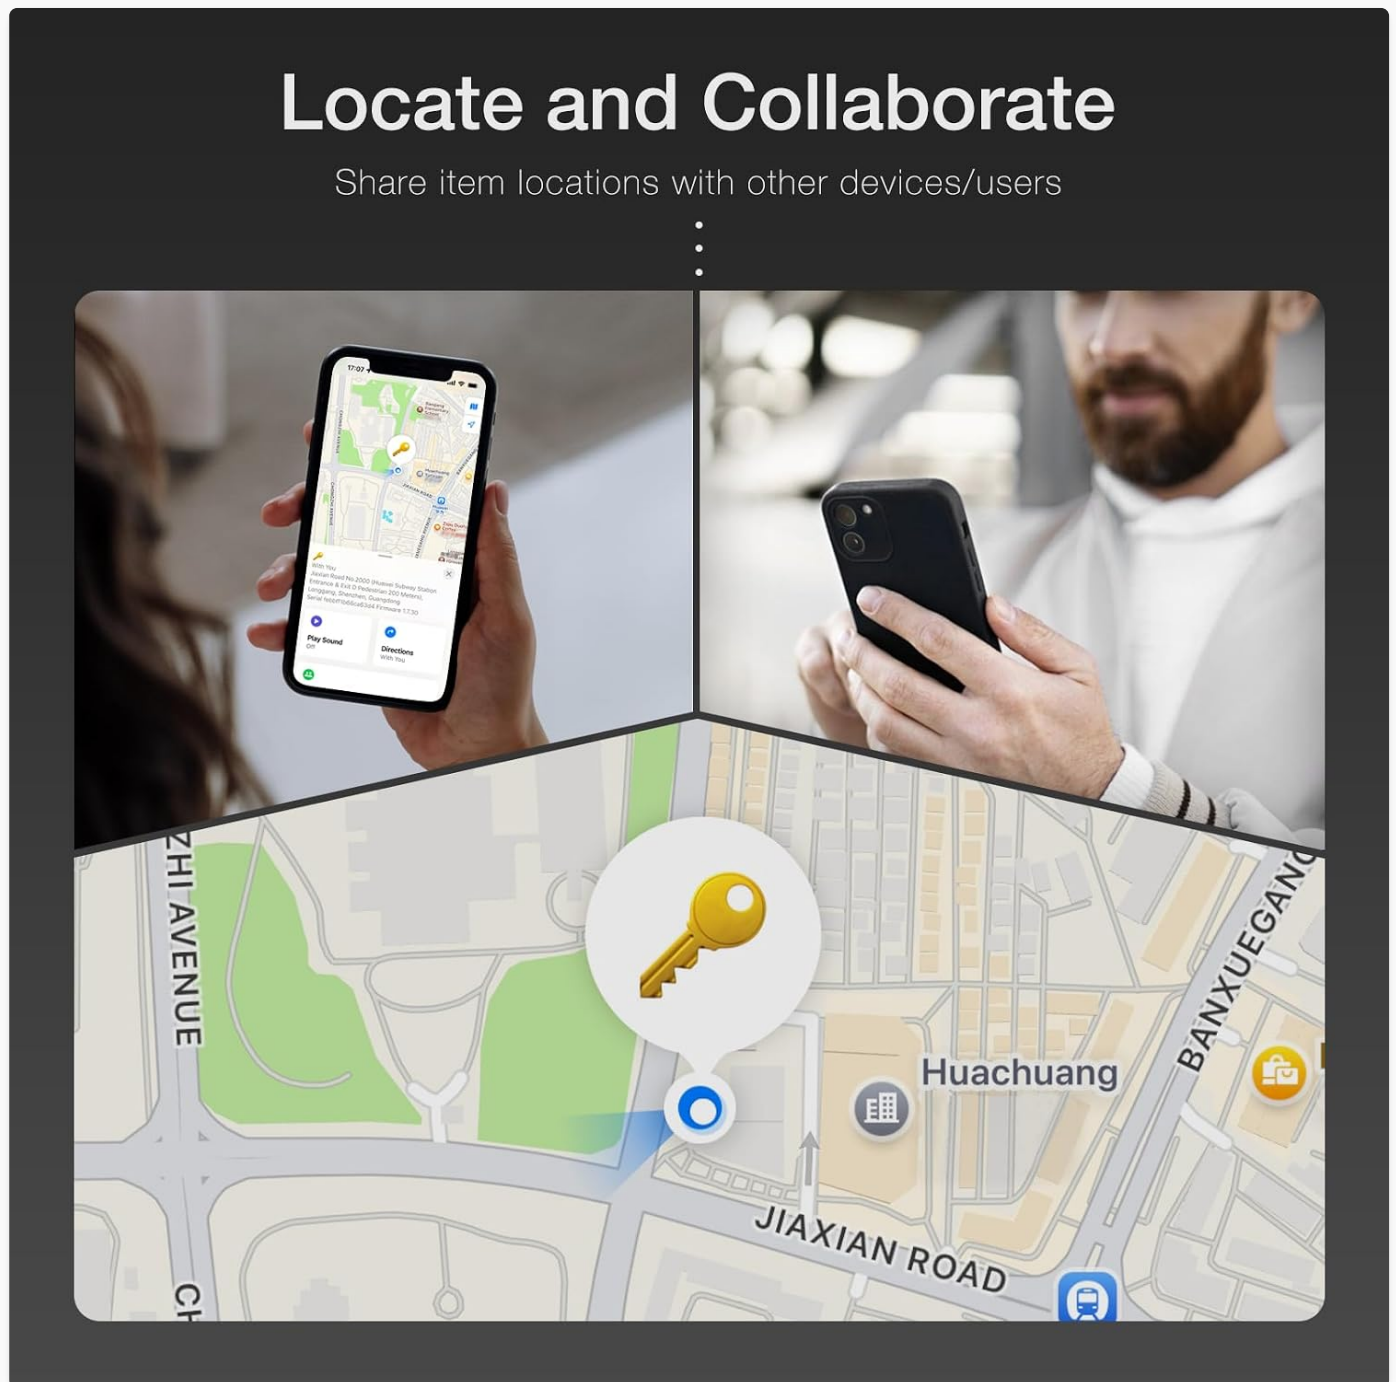

Image: The 'Locate and Collaborate' feature allows users to share item locations with others, enabling quick recovery through multiple methods.

4. MAINTENANCE

4.1 Battery Replacement

The Beyamis Air Tracker Tag uses a replaceable CR2032 battery, which typically lasts up to 10 months. When the battery is low, you will receive a notification on your Apple device. To replace the battery:

1. Gently twist the back cover of the tracker counter-clockwise to open it.
2. Remove the old CR2032 battery.
3. Insert a new CR2032 battery with the positive (+) side facing up.
4. Align the back cover and twist clockwise to secure it.

Multi-item Locators for Various Items

Image: The Beyamis Air Tracker Tag features a replaceable CR2032 battery, ensuring a long lifespan for the device.

4.2 Water Resistance

The tracker is IP67 waterproof, meaning it is protected from dust and can withstand immersion in water up to 1 meter for up to 30 minutes. While durable, avoid prolonged submersion or exposure to high-pressure water.

5. TROUBLESHOOTING

• Tracker Not Connecting:

- Ensure your Apple device has Bluetooth enabled.
- Verify that your iOS version is 14.6 or above.
- Press the power button on the tracker to ensure it is active and in pairing mode.
- Check the battery level; replace if necessary.

• Sound Alert Not Working:

- Ensure the tracker is within Bluetooth range of your Apple device.

- Check the tracker's battery level.

• **Location Not Updating:**

- Ensure your Apple device has an active internet connection (Wi-Fi or cellular).
- If out of Bluetooth range, location updates rely on the Find My network. Updates may take time depending on network activity.
- Verify that Location Services are enabled for the Find My app on your device.
