Alliskeys M3N-A3C108397

Alliskeys Smart Key Fob User Manual

Model: M3N-A3C108397

1. PRODUCT OVERVIEW

The Alliskeys Smart Key Fob is a high-quality proximity key replacement designed for specific Ford Expedition models. This key fob is pre-tested with professional locksmith tools and comes with a pre-installed battery and electronics, ensuring readiness for use after proper programming. It offers convenient features such as quick locking/unlocking, remote start, and a panic function.

2. COMPATIBILITY AND VERIFICATION

This smart key fob is compatible with **Ford Expedition 2023-2024** models equipped with a push-button start ignition. To ensure proper functionality and compatibility, it is crucial to verify the following details against your original key fob:

- **FCC ID:** M3N-A3C108397
- **Interchange Part Number:** PL1T-15K601-GA
- **Manufacturer Part Number:** 164-R8355
- **Frequency:** 434MHz
- **Chip Type:** 49/Hitag Pro
- **Button Style:** Ensure the button layout matches your original key. This model features 4+1 buttons (Unlock, Lock, Remote Start, Hatch, Panic).

NOTE:

Please verified the Original FCC ID,
Part Number and the Continental No.,
and check the Button Style matched.

Compatible with:

2023-2024

Ford Expedition

3. SETUP AND PROGRAMMING

This smart key fob requires professional programming. **Self-programming is not available.** You will need to take your new smart key to a qualified locksmith or an authorized dealership for programming. It is recommended to confirm that the remote programming can be performed for your vehicle before proceeding with key cutting. An un-cut key blade is included with the fob. This blade must be cut by a professional locksmith to match your vehicle's ignition.

NOTE:

Un-cut key blade is included. Must be cut by a professional Locksmith.

LOCKSMITH REQUIRE

Bring your new smart key to a professional locksmith / dealer to get it program.

Image: A visual reminder that the un-cut key blade must be cut by a professional locksmith and that programming requires a professional locksmith or dealer.

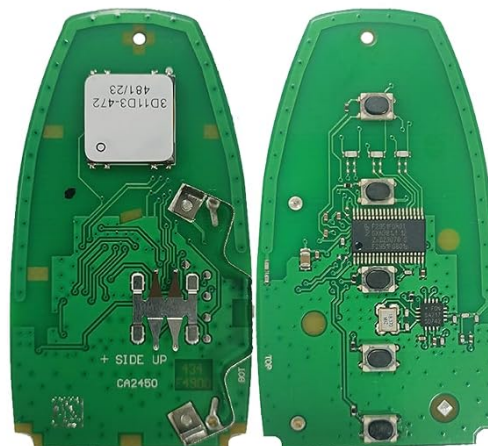

4. OPERATION

Once programmed, the Alliskeys Smart Key Fob provides the following functions:

- **Unlock Button:** Press once to unlock the driver's door, press twice to unlock all doors.
- **Lock Button:** Press to lock all doors.
- **Remote Start (2X) Button:** Press twice to remotely start your vehicle.
- **Hatch Button:** Press to open or release the rear hatch.
- **Panic Button:** Press and hold to activate the vehicle's alarm system, useful for locating your car or deterring threats.

Please check the Part No. on your original remote. Only if it is 164-R8355, PL1T-15K601-GA you can buy this remote key to match your car successfully.

6. TROUBLESHOOTING

If you encounter issues with your Alliskeys Smart Key Fob, consider the following:

- **Fob Not Responding:** Ensure the key fob has been correctly programmed by a professional locksmith or dealership. Verify that the battery is not depleted.
- **Incompatibility Issues:** Double-check all compatibility details (FCC ID, Part Number, Model Year, Button Style) as outlined in Section 2. An incorrect match will prevent the fob from working.
- **Range Issues:** While the fob has a maximum transmission distance of up to 100 meters, environmental factors or low battery can affect range.

If the remote does not work for any reason after professional programming and verification, please contact the seller for assistance, a refund, or a replacement.
