7. TROUBLESHOOTING

If you encounter any issues with your RoyalCraft patio furniture, please review the following common solutions:

- **Wobbly Furniture:** Ensure all bolts are securely tightened. Uneven surfaces can also cause wobbling; try adjusting the furniture's position or using shims if necessary.
- **Missing Parts:** If any parts are missing upon arrival, please contact RoyalCraft customer service immediately with your purchase details.
- **Cushion Discoloration/Fading:** While cushions are fade-resistant, prolonged exposure to direct sunlight can still cause some fading over time. Store cushions when not in use or use furniture covers to minimize exposure.
