› SteeLoong 75-Inch White Metal Storage Cabinet Instruction Manual (Model SL-YHJCWG-W)

SteeLoong SL-YHJCWG-W

SteeLoong 75-Inch White Metal Storage Cabinet

Model: SL-YHJCWG-W

IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before assembly and use. Keep this manual for future reference.

- **Anti-Tipping Design:** Always secure the cabinet to the wall using the provided screws and wall anchors to prevent tipping. This is crucial for safety, especially in households with children or pets.
- **Weight Capacity:** Do not overload the cabinet or individual shelves. Overloading may cause instability, bending, or damage to the cabinet structure. Refer to the specifications section for weight limits.
- **Assembly:** Ensure all parts are correctly assembled and fasteners are tightened securely before use. Periodically check all connections for tightness.
- **Placement:** Place the cabinet on a flat, level surface to ensure stability.

SETUP AND ASSEMBLY

The SteeLoong 75-inch metal storage cabinet is designed for straightforward assembly. All necessary installation tools and instructions are included in the package. Typical assembly time is approximately 35 minutes.

Assembly Steps Overview

1. **Unpack Components:** Carefully remove all parts from the packaging and verify against the parts list in the included instruction manual.
2. **Assemble Frame:** Follow the step-by-step diagrams to connect the main frame components.
3. **Install Shelves:** Insert the adjustable shelves into the desired positions. Ensure they are securely seated.
4. **Attach Doors:** Mount the doors and install the golden handles.
5. **Secure to Wall:** Utilize the anti-tipping hardware to firmly attach the cabinet to a wall stud.

6. **Adjust Feet:** Level the cabinet using the adjustable feet to ensure stability on uneven surfaces.

OPERATING INSTRUCTIONS

The SteelLoong storage cabinet offers versatile storage solutions with its adjustable features and robust design.

Adjustable Shelves

The cabinet includes four removable shelves with adjustable heights. To adjust a shelf:

1. Empty the shelf of all contents.

2. Carefully lift the shelf and remove it from its current position.
3. Re-insert the shelf into the desired slots on the side panels, ensuring it is level and securely seated on all four supports.

4 Adjustable Shelves

Door Operation

The cabinet features two doors equipped with golden handles and magnetic closures. The magnetic mechanism ensures the doors remain securely shut when closed. To open, gently pull the handle. To close, push the door until the magnetic catch engages.

Versatile Usage

This metal storage cabinet is suitable for various environments due to its durable steel construction, which is corrosion-resistant, wear-resistant, and easy to clean. It can be used in:

- Kitchens for pantry storage
- Living rooms for general organization
- Bedrooms for clothing or linen storage
- Bathrooms for toiletries and towels
- Garages or utility rooms for tools and supplies

MAINTENANCE

The SteelLoong metal storage cabinet is constructed from steel, offering durability and ease of maintenance.

Cleaning

To clean the cabinet, wipe surfaces with a soft, damp cloth. For stubborn marks, a mild soap solution can be used, followed by wiping with a clean, dry cloth. Avoid abrasive cleaners or harsh chemicals, as these may damage the painted finish.

General Care

- Periodically check all screws and fasteners to ensure they remain tight.
- Avoid placing excessively hot or cold items directly on the metal surface without protection.
- Ensure the cabinet is not exposed to prolonged moisture to prevent potential rust, despite its corrosion-resistant properties.

TROUBLESHOOTING

This section addresses common issues you might encounter with your SteelLoong storage cabinet.

Cabinet Instability

- **Issue:** The cabinet feels wobbly or unstable.
- **Solution:** Ensure the cabinet is placed on a level surface. Use the adjustable feet at the bottom to fine-tune the height and eliminate any wobbling. Always secure the cabinet to the wall using the provided anti-tipping hardware.

Doors Not Closing Properly

- **Issue:** Doors do not align or close completely, leaving a gap.
- **Solution:** Check the door hinges and ensure they are securely tightened. Verify that the cabinet frame is square and level. Minor adjustments to hinge screws can often correct door alignment. If a door appears warped, contact customer support.

Shelves Bending or Sagging

- **Issue:** Shelves show signs of bending or sagging under load.
- **Solution:** This indicates the shelf's weight capacity has been exceeded. Redistribute items to reduce the load on individual shelves. Ensure heavy items are placed on lower shelves for better stability. Refer to the specifications for maximum weight per shelf.
