## Setup and Assembly

Assembly of the T4TREAM Farmhouse Queen Bed is required. The product is shipped in multiple boxes with clearly labeled parts and comprehensive instructions to facilitate the process.

- **Two-Person Assembly:** It is strongly recommended that two individuals participate in the assembly process. This ensures safety, prevents potential injury, and streamlines the construction.
- **Component Inspection:** Upon receipt, inspect all components for any damage that may have occurred during transit. All pieces are typically well-packed and padded to ensure their condition.
- **Organize Parts:** Before beginning assembly, sort and organize all labeled parts and hardware according to the instruction manual. This will simplify the process.
- **Follow Instructions:** Adhere strictly to the provided assembly instructions, taking time to complete each step

accurately before proceeding to the next.

**Important Safety Note: Always use two people for assembly to prevent injury. Be cautious when handling components due to the bed's sturdy construction and weight.**

## Operating Features

The T4TREAM Farmhouse Queen Bed integrates several functional elements designed for comfort and convenience.

### Headboard

The headboard features a minimalist design with clean lines, providing a supportive backrest. It is suitable for lounging, reading, or watching television in bed.

### Storage Bench with Drawers

The integrated storage bench at the foot of the bed serves as both a seating area and a significant storage solution. It includes a 64-inch storage chest and four large drawers.

- **Bench Functionality:** The top surface of the bench can be used for seating, such as when putting on shoes, or as a surface for decorative items.
- **Spacious Drawers:** Each of the four drawers measures approximately 28.7 inches wide and 5.7 inches deep, offering ample space for storing blankets, pillows, clothing, books, or other bedroom essentials. The drawers are designed for smooth access.
- **Integrated Chest:** The 64-inch storage chest provides additional concealed storage space beneath the bench top, ideal for items requiring less frequent access.

# Additional Storage Bench

☑ Versatile storage bench, for seating and storing pillows, blankets, clothes, and more in your bedroom.

## Maintenance

Proper care and maintenance will extend the lifespan and preserve the appearance of your T4TREAM Farmhouse Queen Bed.

- **Cleaning:** For general cleaning, wipe surfaces with a soft, damp cloth. Avoid using abrasive cleaners, harsh chemicals, or excessive moisture, as these can damage the finish.
- **Spills:** Immediately blot any spills with a clean, dry cloth to prevent staining or damage to the wood finish.
- **Environmental Conditions:** Avoid placing the bed in direct sunlight or near heat sources, which can cause fading, warping, or cracking of the wood. Maintain a stable room temperature and humidity level.
- **Hardware Check:** Periodically check all assembly hardware (screws, bolts) to ensure they remain tight. Tighten any loose connections to maintain the bed's stability and prevent squeaking.
- **Weight Distribution:** Ensure even weight distribution on the platform to prevent mattress sagging and prolong its

lifespan. The bed is designed to support up to 800 lbs.

## Troubleshooting

This section addresses common concerns and provides guidance for resolving minor issues.

- **Missing or Damaged Parts:** If any parts are missing or damaged upon delivery, do not proceed with assembly. Contact T4TREAM customer support immediately for assistance and replacement parts.
- **Assembly Difficulties:** If you encounter challenges during assembly, review the instruction manual carefully. Ensure all steps are followed precisely and that the correct hardware is used for each connection. Remember that two-person assembly is recommended.
- **Squeaking Noises:** While the bed is designed for stability, if any squeaking occurs, re-check all bolts and screws to ensure they are securely tightened. Loose connections are a common cause of noise.
- **Drawer Operation:** If drawers do not slide smoothly, check for any obstructions in the tracks or ensure they are correctly aligned. Verify that the drawer slides are properly installed according to the assembly instructions.
