3. PACKAGE CONTENTS

The package includes:

- Hello Kitty Bluetooth Wireless Sleep Mask
- USB Charging Cable
- Instruction Manual

4. SETUP

4.1. Charging the Device

1. Locate the USB charging port on the sleep mask.
2. Connect the provided USB charging cable to the mask and a compatible USB power source (e.g., computer, wall adapter).
3. A red light will illuminate to indicate that the device is charging.
4. The red light will turn blue when charging is complete.

Video: Demonstrates the charging process and Bluetooth connection for a sleep mask with integrated speakers. A red light indicates charging, and a blue light indicates charging completion. The video also shows how to activate Bluetooth pairing mode by long-pressing the middle button until red/blue lights flash, and then connecting via a smartphone's Bluetooth settings.

4.2. Bluetooth Pairing

1. Ensure the sleep mask is charged.
2. Long-press the middle button on the control panel until the red and blue lights flash alternately. This indicates pairing mode.
3. On your smartphone or other Bluetooth-enabled device, open the Bluetooth settings.
4. Search for available devices and select "BT-FAAH" to connect.
5. Once connected, the blue light will remain steady.

5. OPERATING INSTRUCTIONS

5.1. Basic Controls

Button	Function
Middle Button (Power/Play/Pause)	Long press to power on/off. Short press to play/pause music.
"+" Button (Volume Up/Next Track)	Short press to increase volume. Long press for next track.
"-" Button (Volume Down/Previous Track)	Short press to decrease volume. Long press for previous track.

5.2. Wearing the Sleep Mask

Adjust the elastic strap at the back of the mask to ensure a comfortable and secure fit. The mask should block out light without applying excessive pressure to your eyes or face.

6. MAINTENANCE

6.1. Cleaning Instructions

To clean the sleep mask:

1. Carefully remove the internal Bluetooth speaker components and control panel from their pockets within the mask.
2. Hand wash the fabric mask with mild soap and cold water.
3. Allow the mask to air dry completely before reinserting the electronic components.
4. Do not machine wash or tumble dry the mask with electronic components inside.

Video: Demonstrates how to remove the internal speaker components and control panel from a sleep mask for cleaning. The video shows the user carefully detaching the speakers and control unit from the fabric mask, allowing the fabric to be washed separately.

7. TROUBLESHOOTING

Problem	Solution
Device does not power on.	Ensure the device is fully charged. Connect to a power source and check for the red charging indicator light.
Cannot pair via Bluetooth.	Ensure the mask is in pairing mode (red and blue lights flashing). Turn off and on your device's Bluetooth. Make sure no other devices are connected to the mask.
Poor sound quality or no sound.	Check the volume levels on both the mask and your connected device. Ensure the speakers are correctly positioned over your ears. Re-pair the device if necessary.
