K'NEX 17026

K'NEX Dynamic Dinos 6-in-1 Building Set Instruction Manual

Brand: K'NEX | Model: 17026

INTRODUCTION

This manual provides essential information for the assembly, operation, and maintenance of your K'NEX Dynamic Dinos 6-in-1 Building Set. This set allows for the construction of six different motorized dinosaur models, one at a time, using 225 classic K'NEX rods and connectors, along with a battery-powered motor. The models feature moving parts, enhancing the play experience and promoting an understanding of basic mechanical principles.

SAFETY INFORMATION

Choking Hazard: This product contains small parts and is not suitable for children under 3 years of age. Adult supervision is recommended during assembly and play, especially for younger users.

WHAT'S IN THE BOX

- Instruction Manual
- 225 K'NEX Pieces, including one motor
- Storage bag/packaging

ASSEMBLY INSTRUCTIONS

The K'NEX Dynamic Dinos set includes components to build six distinct dinosaur models, one at a time. Detailed, step-by-step instructions for the initial model (Triceratops) are provided in the included physical manual. Instructions for the other five models are available online on the K'NEX official website. Ensure all pieces are accounted for before beginning assembly.

Image: A variety of K'NEX rods, connectors, and gears in different colors, which are the building blocks for the dinosaur models.

To access additional building instructions, visit the official K'NEX website and search for model number 17026.

OPERATING INSTRUCTIONS

Once a dinosaur model is fully assembled, the included battery-powered motor brings it to life. Insert the required batteries (not included) into the motor unit. Connect the motor to the designated points on your assembled dinosaur model as indicated in the building instructions. Activate the motor using its switch to observe the model's movement.

MAINTENANCE

To ensure the longevity of your K'NEX set, keep all pieces clean and free from dust. Wipe pieces with a dry cloth if necessary. Store all components in the provided zip-top storage bag or a similar container to prevent loss and damage. Ensure the motor unit is dry and free of debris. Remove batteries from the motor if the set will not be used for an extended period to prevent corrosion.

TROUBLESHOOTING

- **Motor Not Functioning:** Check that batteries are correctly inserted and are not depleted. Ensure all electrical connections to the motor are secure.
- **Model Not Moving Smoothly:** Verify that all K'NEX connections are firm and that no pieces are obstructing the moving parts or gears. Re-check the assembly steps for any missed or incorrectly placed components.
- **Missing Pieces:** Refer to the parts list in the instruction manual. If pieces are missing from a new set,

contact K'NEX customer service.

For further assistance, consult the K'NEX official website or contact their customer support.

SPECIFICATIONS

- **Product Dimensions:** 3 x 10.3 x 7.5 inches
- **Item Weight:** 14.3 ounces
- **Item Model Number:** 17026
- **Manufacturer Recommended Age:** 8 years and up
- **Manufacturer:** K'NEX
- **Number of Pieces:** 225

WARRANTY AND SUPPORT

For information regarding product warranty or to obtain support, please visit the official K'NEX website or contact their customer service department directly. Keep your purchase receipt as proof of purchase.
