Lemorele P80

Lemorele Wireless CarPlay Adapter User Manual

Model: P80

INTRODUCTION

The Lemorele Wireless CarPlay Adapter (Model P80) converts your vehicle's existing wired CarPlay or Android Auto system into a wireless connection. This device allows you to seamlessly integrate your Apple iPhone (iOS 10+) or Android phone (Android 11+) with your car's display, enabling access to navigation, music, calls, and voice assistants without the need for a physical cable connection. It is designed for plug-and-play operation, ensuring a convenient and enhanced driving experience.

PRODUCT FEATURES

- **2-in-1 Compatibility:** Supports both Apple CarPlay (iOS 10 and above) and Android Auto (Android 11 and above) for versatile smartphone integration.
- **Plug and Play:** Requires no additional drivers, applications, or complex system updates for initial setup.
- **Automatic Reconnection:** After the initial pairing, the adapter automatically connects to your smartphone when the vehicle starts.
- **Retains Original Car Controls:** Maintains functionality of the car's original touch screen, buttons, OEM knobs, and steering wheel controls.
- **Wide Vehicle Compatibility:** Compatible with approximately 98% of vehicles equipped with factory-installed wired CarPlay or Android Auto.
- **Compact Design:** Small and portable, designed for discreet placement within the vehicle.

COMPATIBILITY

The Lemoirele Wireless CarPlay Adapter is designed for vehicles that come with factory-installed wired Apple CarPlay or Android Auto. It supports:

- **Smartphones:** iOS 10 and above for Apple CarPlay, Android 11 and above for Android Auto.
- **Vehicles:** Approximately 98% of cars equipped with original wired CarPlay or Android Auto.

Important Note: If your car system has been modified (e.g., aftermarket head unit), this adapter may not be supported.

Suitable for **98%** of cars factory-equipped with wired CarPlay or Android Auto

SETUP INSTRUCTIONS

Initial Connection and Pairing

1. **Connect the Adapter:** Plug the Lemoire Wireless CarPlay Adapter into your car's native USB-A or USB-C port, which is typically used for wired CarPlay/Android Auto.
2. **Enable Bluetooth and Wi-Fi:** Ensure that both Bluetooth and Wi-Fi are enabled on your smartphone.
3. **Pair with Bluetooth:** On your smartphone, go to Bluetooth settings and search for a device named "wireless dongle-xxxx" (the exact name may vary slightly). Select it to pair.
4. **Confirm CarPlay/Android Auto:** A prompt will appear on your phone asking to "Use CarPlay" or "Use Android Auto". Confirm this selection.
5. **Automatic Connection:** After successful initial pairing, the adapter will automatically connect to your phone each time you start your vehicle.

OPERATING INSTRUCTIONS

Once the adapter is successfully connected, your car's display will show the CarPlay or Android Auto interface wirelessly. You can interact with the system using your vehicle's native controls.

- **Navigation:** Access map applications for directions.
- **Music & Audio:** Play music, podcasts, and audiobooks from your smartphone.
- **Phone Calls:** Make and receive calls hands-free.
- **Messaging:** Send and receive messages using voice commands.
- **Voice Assistant:** Utilize Siri (for CarPlay) or Google Assistant (for Android Auto) for voice commands.

Using Car Controls

The adapter is designed to work seamlessly with your car's existing control methods:

- **Touch Control:** Interact directly with the car's touchscreen display.
- **OEM Knob Control:** Use the vehicle's central control knob for navigation.
- **Steering Wheel Control:** Utilize buttons on your steering wheel for audio, calls, and voice commands.

MAINTENANCE AND FIRMWARE UPDATES

Performing an Online Upgrade

To ensure optimal performance and access to the latest features, it is recommended to keep your adapter's firmware updated. Follow these steps for an online upgrade:

- 1. Connect to Power and Wi-Fi:** Connect the wireless CarPlay adapter to a power supply (e.g., your car's USB port). Then, connect your phone to the adapter's Wi-Fi network. The Wi-Fi password is typically **12345678**.
- 2. Access Update Page:** On your phone's browser, enter the URL: **192.168.1.101** to view and download the latest software update.
- 3. Select and Install Update:** Select the corresponding update package (e.g., "se_202410301615.swu") and proceed with the upgrade. Wait for the process to complete.

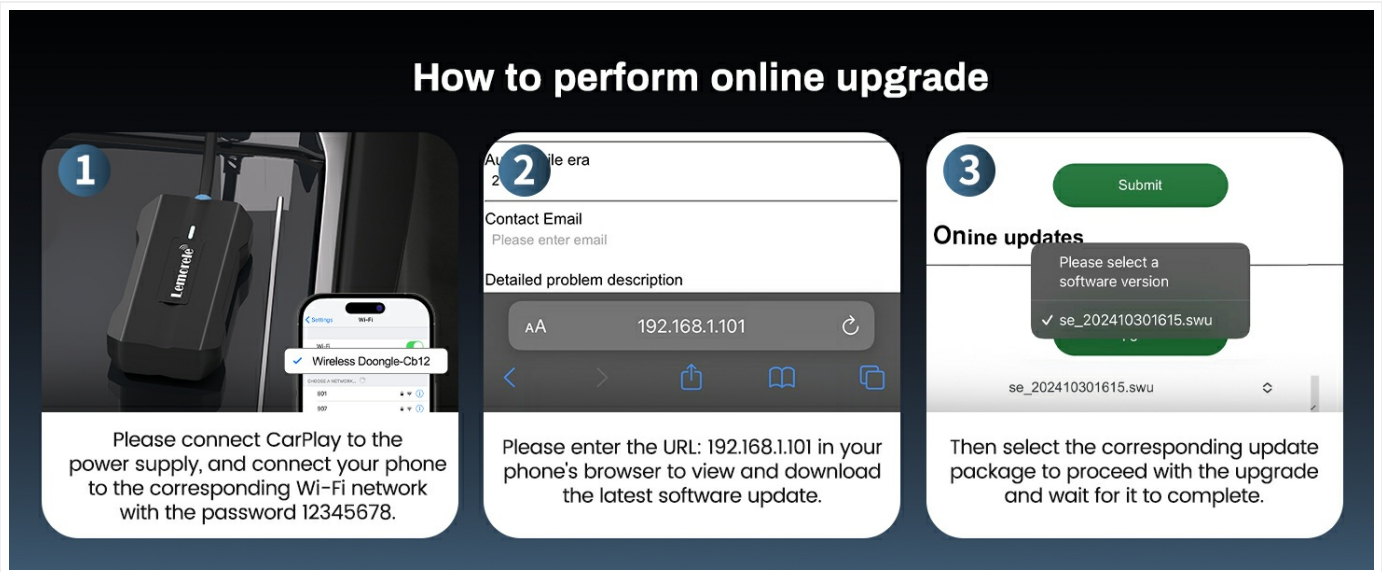

Image: A three-step visual guide illustrating the process of connecting the adapter to power and phone to its Wi-Fi, accessing the update URL (192.168.1.101) in a browser, and selecting a software version for upgrade.

TROUBLESHOOTING

If you encounter issues with your Leforele Wireless CarPlay Adapter, consider the following common solutions:

- **No Connection:**
 - Ensure your car has original wired CarPlay/Android Auto. Aftermarket systems may not be compatible.
 - Verify that Bluetooth and Wi-Fi are enabled on your smartphone.
 - Try unplugging and re-plugging the adapter into the car's USB port.
 - Restart your smartphone and your car's infotainment system.
- **Intermittent Connection:**
 - Check for any obstructions that might interfere with the wireless signal.
 - Ensure your phone's operating system is up to date.
 - Perform a firmware update on the adapter (refer to "Maintenance and Firmware Updates" section).
- **Audio Issues:**
 - Confirm that your car's audio input is set to CarPlay/Android Auto.
 - Adjust volume levels on both your phone and car system.
- **Slow Performance/Lag:**
 - Ensure your phone is not running too many background applications.
 - Check for and install any available firmware updates for the adapter.

If problems persist, please contact Leforele customer support for further assistance.
