## Qaba 370-384V80BK

# Qaba 24V 2-Seater Electric Kids Ride-On Car

**MODEL: 370-384V80BK**

Instruction Manual

## 1. Product Overview

The Qaba 24V 2-Seater Electric Kids Ride-On Car is designed to provide an engaging and safe driving experience for children aged 3-8 years. This vehicle features dual 24V motors, adjustable speeds, and a range of interactive elements including music, a horn, and lights. Enhanced safety is provided through a four-wheel spring suspension system and soft start functionality. Parental control is available via a remote control, allowing adults to supervise or guide the vehicle.

## 2. Safety Guidelines

- **Recommended Age:** Suitable for children aged 3-8 years.
- **Maximum Load:** Do not exceed 110 lbs (50 kg).
- **Adult Supervision:** Always ensure adult supervision during operation, especially for younger children.
- **Seatbelts:** Ensure children are securely fastened with the provided seatbelts.
- **Operating Environment:** Use on flat, dry surfaces. Avoid steep inclines, rough terrain, or public roads.
- **Charging:** Only use the provided charger. Do not overcharge the battery.
- **Remote Control:** Parents can use the remote control to override manual driving for safety.

### 3. Package Contents

Before assembly, verify that all components are present and undamaged. Refer to the parts list in your physical manual for detailed identification.

- Vehicle Body
- Steering Wheel
- Wheels (4)
- Remote Control
- Charger
- Seat(s)
- Sunshade
- Rear Storage Bin
- Assembly Hardware (screws, washers, nuts)
- Instruction Manual

## 4. Assembly Instructions

Assembly requires adult supervision and basic tools. Follow the steps carefully to ensure proper and safe operation of the vehicle.

1. **Unboxing:** Carefully remove all components from the packaging.
2. **Wheel Installation:** Attach the wheels to the axles, ensuring all washers and nuts are securely fastened. Connect the motor wires to the corresponding wheel motors.
3. **Steering Wheel Assembly:** Connect the steering wheel's electrical wires and then secure the steering wheel to the steering column.
4. **Battery Connection:** Locate the battery compartment (usually under the seat) and connect the battery terminals. Ensure a secure connection.
5. **Seat Installation:** Place the seat(s) into position and secure them according to the manual.
6. **Accessory Attachment:** Install the sunshade, rear storage bin, and any other accessories.

This video is relevant for the Qaba 2-Seater Electric Car due to similar assembly processes for ride-on vehicles.

## 5. Operating Instructions

Familiarize yourself and your child with the controls before first use.

- **Power On/Off:** Insert the key (if applicable) and turn to the ON position, or press the power button on the dashboard.
- **Driving Modes:** Select forward or reverse using the gear shifter.
- **Acceleration:** Press the foot pedal to accelerate. The soft start feature ensures a smooth acceleration.
- **Steering:** Use the steering wheel to control direction.
- **Speed Control:** Adjust speeds (1.9-3.7 mph / 3-6 km/h) using the high/low speed buttons on the dashboard or remote control.
- **Remote Control Operation:** The remote allows parents to control forward/reverse, left/right steering, and emergency stop. Ensure the remote is paired correctly (refer to remote control instructions).
- **Interactive Features:** Use buttons on the steering wheel or dashboard for music, horn, and lights.

## 6. Charging the Battery

Proper battery charging is essential for longevity and performance.

- **First Use:** Fully charge the battery for 8-10 hours before the first use.
- **Regular Charging:** Recharge the battery for 8-12 hours after each use. Do not charge for more than 18 hours to avoid damage.
- **Charging Port:** The charging port is typically located near the battery compartment or on the dashboard. Insert the charger plug into the port.
- **Indicator Light:** The charger will usually have an indicator light to show charging status (e.g., red for charging, green for fully charged).
- **Safety:** Always ensure the vehicle is turned off and the key is removed before charging. Do not leave the charger connected for extended periods after charging is complete.

## 7. Maintenance

Regular maintenance ensures the longevity and safe operation of your ride-on car.

- **Cleaning:** Wipe the vehicle with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Storage:** Store the vehicle in a dry, cool place away from direct sunlight and moisture.
- **Battery Care:** If storing for an extended period, charge the battery fully every 30 days to maintain its life.
- **Inspections:** Periodically check all screws, nuts, and electrical connections to ensure they are secure.

## 8. Troubleshooting

If you encounter any issues, refer to the following common solutions:

- **Vehicle Not Moving:** Check battery connection, ensure the power switch is ON, and verify the remote control is not overriding manual operation.
- **Slow Speed/Short Run Time:** The battery may need charging or is nearing the end of its lifespan. Ensure the charger is working correctly.
- **Lights/Sounds Not Working:** Check electrical connections to the respective components. Ensure the battery is charged.
- **Remote Control Not Working:** Ensure batteries are installed correctly in the remote and it is properly paired with the vehicle.
