Inexaccessories 4GB+64GB

Inexaccessories Android 13 Car Radio Stereo User Manual

For Toyota Sienna 2004-2010 (Model: 4GB+64GB)

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Inexaccessories Android 13 Car Radio Stereo. Please read this manual thoroughly before installation and use to ensure proper functionality and safety.

This car stereo is designed for specific Toyota Sienna models. Ensure your vehicle's year and console dimensions match the compatibility requirements.

Image 1.1: Inexaccessories Android 13 Car Radio Stereo integrated into a Toyota Sienna dashboard.

2. VEHICLE COMPATIBILITY

This car stereo is compatible with the original factory-style car radio for **Toyota Sienna models from 2004 to 2010**.

Important Note:

- This unit does **not** support factory JBL amplifiers.
- This unit does **not** support factory cameras.

Before purchasing or installing, please verify the year, dimensions, and shape of your vehicle's center console. If your vehicle has a J-B-L Sound system, an additional harness may be required.

3. PACKAGE CONTENTS

Verify that all items are present in the package before proceeding with installation:

- Android 13 Car Radio Stereo Unit (9-inch IPS Touch Screen)
- Power Cable & RCA Cable
- USB Cable & Microphone Cable
- Back-up Camera & Camera Cable
- GPS Antenna & Signal Cable
- Disassembly Tool
- User Manual (this document)

4. INSTALLATION GUIDE

Professional installation is recommended. Disconnect the vehicle's battery before starting any electrical work.

4.1. General Installation Steps

1. **Remove Original Unit:** Carefully remove the existing factory radio from your Toyota Sienna dashboard using the provided disassembly tool.
2. **Connect Wiring Harness:** Connect the main power cable and RCA cables from the new stereo to the vehicle's wiring harness. Ensure all connections are secure.
3. **GPS Antenna:** Mount the GPS antenna in a location with a clear view of the sky, typically on the dashboard or under the windshield, ensuring it is not obstructed by metal.
4. **USB & Microphone:** Connect the USB cable for external devices and the microphone cable for hands-free calling. Route the microphone to a suitable position for clear voice pickup.

5. **Test Connections:** Before fully securing the unit, temporarily connect the battery and test basic functions like power on, audio, and touch screen response.
6. **Secure Unit:** Once tested, carefully slide the new car stereo into the dashboard opening and secure it with the appropriate screws or mounting brackets.
7. **Reassemble Dashboard:** Reassemble any removed dashboard panels.

4.2. Backup Camera Installation

The included backup camera provides a 170° viewing angle and night vision capabilities for enhanced safety.

1. **Mount Camera:** Install the backup camera at the rear of your vehicle, typically near the license plate, ensuring a clear view.
2. **Route Cable:** Route the camera cable from the rear of the vehicle to the car stereo unit, connecting it to the designated 'Reversing Input' port.
3. **Power Connection:** Connect the camera's power wire to the vehicle's reverse light circuit so it activates automatically when reverse gear is engaged.

Backup Camera

The night images are still bright and clear, making reversing safer.

Steering Wheel Control

Through it you can control the functions you need by steering wheel, more convenient.

Image 4.2: The top image shows the backup camera feed on the stereo screen with parking guidelines. The bottom image displays the steering wheel control learning interface.

4.3. Steering Wheel Control (SWC) Setup

The unit supports learning functions for your vehicle's steering wheel controls, allowing you to map buttons to stereo functions.

1. Access the 'Steering Learn' or 'SWC Settings' menu on the car stereo.
2. Follow the on-screen prompts to assign functions (e.g., volume up/down, track skip) to your steering wheel buttons.

5. OPERATING INSTRUCTIONS

5.1. Android 13 System & Apps

The car stereo runs on Android 13.0 with 4GB RAM and 64GB ROM, providing a responsive user experience. You can install various Android applications from the Application Store after connecting to Wi-Fi or a personal hotspot.

5.2. Wireless Carplay & Android Auto

Connect your smartphone wirelessly or via USB to access Apple CarPlay or Android Auto. This allows for hands-free calls, navigation, music playback, and access to other compatible apps through voice commands (Siri or Google Assistant).

Wireless carplay and android auto

Image 5.1: Screenshots demonstrating the Apple CarPlay and Android Auto interfaces on the car stereo, highlighting app integration and voice control.
