GlocalMe Numen Air With 50GB

GlocalMe Numen Air 5G Hotspot User Manual

Portable WiFi Hotspot Device with Touch Screen

1. Product Overview

The GlocalMe Numen Air 5G Hotspot is a portable WiFi device designed to provide high-speed internet connectivity on the go. It features CloudSIM technology, eliminating the need for a physical SIM card in many regions, and supports both 5G and 4G networks globally. This device allows up to 16 devices to connect simultaneously and can also function as a power bank.

Image: The GlocalMe Numen Air 5G Hotspot device shown alongside a card indicating 50GB of included data.

Key Features:

- **Preloaded Data:** Comes with 50GB US/CA/MX data, valid for 90 days.
- **Lightning-fast 5G Speeds:** Up to 2.5 Gbps download speed.
- **Global Coverage:** Supports 5G in 80+ countries and 4G in 200+ countries.
- **CloudSIM Technology:** No physical SIM card required, intelligent network selection.
- **Multi-Device Connectivity:** Connects up to 16 devices simultaneously.
- **Power Bank Functionality:** Doubles as a portable charger for other devices.
- **User-friendly Interface:** 2.4" LCD touch screen for easy management.

2. Setup Guide

Follow these steps to set up your GlocalMe Numen Air 5G Hotspot and activate your data plan.

1. **Unpack and Power On:** Carefully remove the device from its packaging. Press and hold the power button to turn on the Numen Air hotspot.
2. **Download GlocalMe App:** Scan the QR code provided in the quick start guide or search for "GlocalMe" in your

mobile app store (Google Play or Apple App Store) and download the application.

3. **Create Account & Activate Data:** Open the GlocalMe app, register for a new account, and follow the prompts to activate your preloaded data or purchase additional data plans that suit your needs.
4. **Link Device:** In the GlocalMe app, navigate to "My Device" and scan the QR code displayed on your Numen Air hotspot's screen to link it to your account.
5. **Connect to WiFi:** Once linked, find the WiFi network name (SSID) and password displayed on the Numen Air device's screen. Connect your phone, laptop, or other devices to this WiFi network.
6. **Enjoy Connectivity:** Your GlocalMe Numen Air 5G Hotspot is now ready to provide internet access.

3. Operating Instructions

The Numen Air 5G Hotspot is designed for intuitive operation via its touch screen and the GlocalMe app.

Device Interface:

The 2.4-inch LCD touch screen provides real-time information and access to various settings:

- **Data Usage:** Monitor your current data consumption.
- **Signal Strength:** View the current network signal quality.
- **Connected Devices:** See how many devices are currently connected to your hotspot.
- **Network Settings:** Adjust WiFi band (2.4GHz/5GHz), security, and other network preferences.
- **Battery Level:** Check the remaining battery life.

4. Maintenance

To ensure the longevity and optimal performance of your GlocalMe Numen Air 5G Hotspot, follow these maintenance guidelines:

- **Keep Clean:** Gently wipe the device with a soft, dry cloth. Avoid using liquid cleaners or abrasive materials.
- **Protect from Elements:** Keep the device away from water, extreme temperatures, direct sunlight, and high humidity.
- **Handle with Care:** Avoid dropping the device or subjecting it to strong impacts.
- **Battery Care:** For optimal battery health, avoid fully discharging the device frequently. If storing for extended periods, charge the battery to around 50-70%.
- **Software Updates:** Periodically check for and install firmware updates via the GlocalMe app to ensure the device has the latest features and security enhancements.

5. Troubleshooting

If you encounter issues with your GlocalMe Numen Air 5G Hotspot, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
No Internet Connection	No active data plan; poor signal; device error.	Check data plan status in GlocalMe app. Move to an area with better signal. Restart the device.
Slow Internet Speed	Network congestion; weak signal; too many connected devices.	Reduce number of connected devices. Move to an area with stronger signal. Try switching between 2.4GHz and 5GHz bands if available.
Device Not Powering On	Low battery; faulty charger/cable.	Charge the device using the original charger and cable. Ensure the charging indicator lights up.
Cannot Connect to WiFi	Incorrect password; device too far from hotspot.	Verify WiFi password. Ensure devices are within range. Restart both the hotspot and the connecting device.

Problem	Possible Cause	Solution
Touch Screen Unresponsive	Temporary software glitch.	Perform a soft reset by holding the power button until the device restarts.

If the issue persists after trying these steps, please contact GlocalMe customer support for further assistance.

6. Specifications

Detailed technical specifications for the GlocalMe Numen Air 5G Hotspot:

Feature	Detail
Model Name	GlocalMe Numen Air 5G Hotspot (Numen Air With 50GB)
Dimensions	6.89 x 3.82 x 2.05 inches
Item Weight	12.6 ounces (approx. 357g)
Connectivity Technology	5G, Wi-Fi
Wireless Standard	802.11ac, 802.11b, 802.11g, 802.11n
Frequency Band Class	Dual-Band (2.4GHz & 5GHz)
Max Download Speed	Up to 2.5 Gbps (5G)
Max Upload Speed	Up to 50 Mbps (5G)
Battery Capacity	5400mAh (estimated from video)
Display	2.4" LCD Touch Screen
Max Connected Devices	16
SIM Card Slot	Yes (unlocked for any SIM card)
