## 6. TROUBLESHOOTING

---

If you encounter issues with your fan, refer to the following common troubleshooting steps:

- **Fan does not operate:**

- Ensure power is supplied to the fan. Check circuit breaker.
- Verify all wire connections are secure.
- Check remote control batteries and ensure it's paired correctly.

- **Light does not work:**

- Check power supply.
- Ensure light connections are secure.
- Confirm light function is enabled on remote/app.

- **Fan wobbles:**

- Ensure all blade screws are tight.
- Check that the mounting bracket is securely fastened to the ceiling.
- Verify blades are balanced (balancing kit not included, but general advice).

- **Remote/App not responding:**

- Replace remote batteries.
- Re-pair the remote/app with the fan (refer to section 4.2).
- Ensure no obstructions between remote and fan receiver.
