## 3. SETUP

Follow these steps to set up your projector for the first time.

### 3.1 Placement

Position the projector on a stable, flat surface. The 360-degree rotation feature allows for flexible projection onto walls, ceilings, or floors. Ensure adequate ventilation around the unit.

# Android 11 Smart Streaming

Your all-in-one entertainment hub with Android 11 & built-in apps.  
Endless fun at your fingertips!

## 3.2 Power Connection

1. Connect the power adapter to the projector's power input port.
2. Plug the power adapter into a suitable electrical outlet.

## 3.3 Initial Power On

1. Press the power button on the projector or the remote control to turn on the device.
2. Allow the projector to boot up. The Android 11 interface will appear.

## 3.4 Focus and Keystone Adjustment

Achieve a clear and rectangular image using the focus and keystone correction features.

- **Automatic Vertical Keystone Correction:** The projector automatically adjusts vertical image distortion.
- **Manual Focus:** Use the focus ring on the projector lens to sharpen the image until it is clear.

## Dynamic 2X Brightness

## 4. OPERATING INSTRUCTIONS

Learn how to navigate and use your Lifelong Lightbeam 2 Pro Smart Projector.

## 4.1 Android 11 Smart Operating System

The projector runs on Android 11, providing a user-friendly interface and access to a wide range of applications.

- **Home Screen:** Navigate using the remote control to access installed apps, settings, and media.
- **App Access:** Pre-installed OTT apps like Netflix, Prime Video, Disney+ Hotstar, and YouTube are available. Connect to Wi-Fi to use these services.

Image: Android 11 interface showing available streaming applications.

## 4.2 Connectivity

The projector offers multiple ways to connect to external devices and networks.

- **Wi-Fi 6 with Miracast:** Connect to your home network for internet access and screen mirroring from compatible devices.
- **Bluetooth 5.0:** Pair with external Bluetooth speakers, headphones, or other accessories for enhanced audio.
- **HDMI:** Connect gaming consoles, laptops, or other HDMI-enabled devices.
- **USB:** Play media files directly from a USB drive.

## 4.3 Audio Output

The projector features built-in 6W (3W x 2) speakers. For a more immersive audio experience, connect external speakers via Bluetooth or the audio output port.

## 4.4 Remote Control

Use the included remote control to navigate the interface, adjust settings, and control media playback.

# 5. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your projector.

## 5.1 Cleaning the Lens

Gently wipe the projector lens with a soft, lint-free cloth specifically designed for optical surfaces. Avoid using abrasive cleaners or excessive force.

## 5.2 Cleaning the Projector Body

Wipe the exterior of the projector with a soft, dry cloth. Do not use liquid cleaners directly on the device.

## 5.3 Ventilation

Ensure that the projector's ventilation openings are clear and unobstructed to prevent overheating. Do not place the projector on soft surfaces that may block airflow.

## 5.4 Storage

When not in use for extended periods, store the projector in a cool, dry place, away from direct sunlight and extreme

temperatures. Consider using the original packaging for protection.

## 6. TROUBLESHOOTING

This section addresses common issues you might encounter with your projector.

### 6.1 No Power

- Ensure the power adapter is securely connected to both the projector and a working electrical outlet.
- Verify that the power outlet is functional by testing it with another device.

### 6.2 No Image or Blurry Image

- Adjust the manual focus ring on the lens until the image is sharp.
- Check the projection distance. Ensure the projector is within the recommended range for the desired screen size.
- Verify that the input source is correctly selected (e.g., HDMI, USB).
- Ensure the lens is clean and free of dust or smudges.

### 6.3 No Sound or Low Sound

- Increase the volume on both the projector and the connected source device.
- If using external speakers, ensure they are properly connected and powered on.
- If using Bluetooth audio, ensure the projector is correctly paired with the Bluetooth device.

### 6.4 Apps are Slow or Unresponsive

- Ensure a stable and strong Wi-Fi connection.
- Close unused applications running in the background.
- Restart the projector to clear temporary system issues.

### 6.5 Connectivity Issues (Wi-Fi/Bluetooth)

- Restart your Wi-Fi router or Bluetooth device.
- Forget and re-pair Bluetooth devices.
- Ensure the projector is within range of the Wi-Fi router or Bluetooth device.
