Model: PB8808 - Officially Licensed by Toyota

1. INTRODUCTION

This instruction manual provides detailed guidance for assembling your MOCBROPCS Toyota Supra building car kit, model PB8808. This officially licensed Toyota product ensures an authentic and high-quality design, meticulously crafted to reflect the real-life sports car. The kit includes 367 building blocks and a unique display container.

1.1. Package Contents

- 367 Building Blocks (sorted into numbered bags)
- 1 Display Container
- 1 Product Manual (this document)

2. IMPORTANT SAFETY INFORMATION

WARNING: Small parts. Not suitable for children under 3 years due to choking hazard.

Always supervise young children during assembly. Keep all small parts away from infants and pets. Dispose of packaging materials responsibly.

3. ASSEMBLY INSTRUCTIONS

Follow the step-by-step instructions provided in the included product manual. The building blocks are organized into numbered bags to simplify the assembly process. Ensure each step is completed accurately before proceeding.

3.1. Getting Started

Unpack all components and verify that all numbered bags of blocks are present. Refer to the printed manual for detailed visual instructions.

6. MAINTENANCE

To maintain the appearance and integrity of your building car model and display container, follow these guidelines:

- **Cleaning:** Use a soft, dry cloth to gently wipe dust from the model and container. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying.

- **Storage:** Store the model in its display container to protect it from dust and accidental damage. Avoid prolonged exposure to direct sunlight to prevent color fading.
- **Handling:** Handle the assembled model with care to prevent pieces from detaching.

7. TROUBLESHOOTING

If you encounter any issues during assembly or with the product, refer to the following common solutions:

- **Missing Pieces:** If you find any missing pieces, please contact MOCBROPCS customer service for replacement parts.
- **Difficulty Assembling:** Double-check the instruction manual for the specific step. Ensure that the correct pieces are being used and that they are oriented correctly. Sometimes, a firm press is needed to secure pieces.
- **Loose Connections:** If parts feel loose, ensure they are fully pressed together. Disassemble and reassemble the section if necessary.
