## APTMAPT BL015

# APTMAPT MagSafe Wallet with Find My Tracking Instruction Manual

Model: BL015

## INTRODUCTION

---

This manual provides detailed instructions for the APTMAPT MagSafe Wallet with Find My Tracking. This ultra-slim wallet is designed to securely hold up to three cards, offers RFID protection, and integrates with Apple's Find My network for location tracking. It features strong magnetic attachment and supports wireless charging.

## SETUP

---

### 1. Initial Charging

Before first use, ensure your APTMAPT MagSafe Wallet is fully charged. Connect it to a MagSafe-compatible wireless charger. A full charge takes approximately 1.5 hours and provides up to 6 months of battery life for the Find My feature.

# Magnetic Wireless Charging

Lasts up to 6 Months on a single charge

Note: Wireless charge is not included.

## 2. Pairing with Apple Find My

1. **Enable Bluetooth and Location Services:** On your iPhone, navigate to Settings and ensure both Bluetooth and Location Services are turned on.
2. **Activate Wallet:** Press and hold the power button on the APTMAPT MagSafe Wallet until it enters pairing mode (refer to the wallet's LED indicator for status).
3. **Open Find My App:** On your iPhone, open the "Find My" application.
4. **Add New Item:** In the Find My app, tap the "Items" tab, then tap the "+" icon. Select "Add New Item" and then "Other Supported Item." Follow the on-screen prompts to connect your APTMAPT wallet.

## Find in 4 Steps

### 3. Attaching to iPhone and Inserting Cards

Align the wallet with the MagSafe area on the back of your iPhone or MagSafe-compatible case. The strong N52 magnets will securely attach the wallet. Insert up to three cards into the wallet's slot. The bottom cutout allows for easy card access.

## Smart Card Storage

Bottom design for easy access

**Max 3 Cards**

**Built-in Metal Clips**  
(Holds firmly even with just one card)

## OPERATING INSTRUCTIONS

### Magnetic Attachment

The wallet features upgraded N52 magnets, providing 5 times stronger magnetic force than standard MagSafe wallets. This ensures a secure attachment to your iPhone 12 series and newer, or MagSafe-compatible cases. The dual anti-slip clip design helps hold cards firmly, even with just one card.

# Super Strong Magnetic Force

5X stronger than the official magnetic wallet

## Find My Functionality

Once paired, you can use the Apple Find My app to locate your wallet. Features include:

- **Play Sound:** Trigger a sound from the wallet to help locate it when nearby (within 160ft/50m Bluetooth range).
- **Direction Map:** Use the Find My app to get directions to your wallet's last known location.
- **Left-Behind Notifications:** Receive alerts on your iPhone if you leave your wallet behind.
- **Lost Mode:** Mark your wallet as lost in the Find My app to display a message and contact information to anyone who finds it.

### RFID Protection

The wallet includes built-in RFID-blocking technology to protect your credit cards and IDs from unauthorized scanning and digital theft.

## MAINTENANCE

### Cleaning

To clean your APTMAPT MagSafe Wallet, use a wet wipe. Gently wipe the exterior surfaces. Avoid using harsh chemicals or abrasive materials, as these may damage the faux leather finish.

### Battery Care

The wallet's Find My feature battery lasts up to 6 months on a single charge. Recharge the wallet wirelessly using a MagSafe-compatible charger when the battery is low to ensure continuous tracking functionality.

## TROUBLESHOOTING

## Wallet Not Attaching Securely

- **Check Compatibility:** Ensure your iPhone is an iPhone 12 series or newer, or that your case is MagSafe-compatible. Non-magnetic cases will prevent proper attachment.
- **Clean Surfaces:** Ensure both the back of your iPhone/case and the wallet's magnetic surface are clean and free of debris.
- **Remove Obstructions:** Avoid placing other objects between the wallet and your iPhone/case.

Image: Compatibility guide for iPhone models and case types.

## Find My Feature Not Working

- **Check Battery:** Ensure the wallet's battery is charged. The Find My feature requires power to operate.
- **Bluetooth and Location Services:** Verify that Bluetooth and Location Services are enabled on your iPhone.
- **Re-pair Device:** If issues persist, try removing the wallet from the Find My app and re-pairing it according to the setup instructions.

- **App Updates:** Ensure your iPhone's operating system (iOS 14.5 or above) and the Find My app are up to date.

### Cards Difficult to Remove or Falling Out

- **Card Capacity:** The wallet is designed for up to 3 cards. Overfilling may make cards difficult to remove.
- **Proper Insertion:** Ensure cards are inserted fully and correctly. The dual anti-slip clips are designed to hold cards securely.
- **Use Bottom Cutout:** Utilize the bottom cutout to push cards up for easier access.

## SPECIFICATIONS

<b>Brand</b>	APTMAPT
