1. SETUP AND ASSEMBLY

Assembly of the VINGLI Swivel Barstool is designed to be straightforward and typically takes approximately 15 minutes. All necessary tools and hardware are included.

1.1 Unpacking and Component Check

- Carefully unpack all components from the packaging.
- Verify that all parts are present according to the included parts list.

- Place all components on a soft, clean surface to prevent scratches during assembly.

1.2 Assembly Steps

1. **Attach Legs to Seat Base:** Securely fasten the four wooden legs to the underside of the seat base using the provided screws and Allen wrench. Ensure each leg is oriented correctly.
2. **Install Footrest Ring:** Connect the circular footrest ring to the designated points on the legs. Tighten all screws evenly to ensure stability.
3. **Adjust Foot Pads:** The barstool is equipped with adjustable foot pads. Turn these pads at the bottom of each leg to stabilize the stool on uneven surfaces.
4. **Final Tightening:** Once all components are in place, re-tighten all screws to ensure maximum stability and safety. Do not overtighten.

3. MAINTENANCE AND CARE

Proper care will extend the life and appearance of your VINGLI barstool.

3.1 Cleaning the PU Leather

- For daily cleaning, wipe the PU leather surface with a soft, damp cloth.
- For spills, blot immediately with a clean, dry cloth. Avoid rubbing, which can spread the stain.
- For stubborn stains, use a mild soap solution on a damp cloth, then wipe clean with a fresh damp cloth and dry thoroughly.
- Avoid harsh chemicals, abrasive cleaners, or solvents, as these can damage the PU leather.

3.2 Frame and Legs

- Wipe wooden legs and metal components with a dry or slightly damp cloth.
- Periodically check and re-tighten all screws and fasteners to ensure the stool remains stable.
- Avoid exposing the stool to direct sunlight or extreme temperature changes, which can affect the wood and

upholstery.

4. TROUBLESHOOTING

If you encounter any issues with your barstool, refer to the following common solutions:

- **Stool feels wobbly:** Ensure all screws connecting the legs to the seat and the footrest ring are securely tightened. Adjust the foot pads on the bottom of the legs to compensate for uneven flooring.
- **Swivel mechanism is stiff:** Check for any obstructions beneath the seat. If the issue persists, a small amount of silicone-based lubricant can be applied to the swivel mechanism (avoiding contact with upholstery).
- **Scratches on floor:** Ensure the adjustable foot pads are properly installed and intact. Replace worn pads if necessary.

If problems persist after attempting these solutions, please contact customer support.
