1. INTRODUCTION

Thank you for choosing the FEPPO S30-W Handheld Vacuum Sealer. This compact and efficient device is designed to extend the freshness of your food up to 6 times longer than traditional storage methods, reducing food waste and saving space. Its innovative features, such as the automatic pressure release and detachable visible water tank, make food preservation simple and mess-free. Please read this manual thoroughly before use to ensure safe and optimal operation.

Key Features:

- **Innovative Pressure Release:** Automatically releases pressure at -40kpa for easy bag detachment.
- **30 Upgraded Reusable Bags:** BPA-free, durable, and suitable for various temperatures (-24°C to 100°C).
- **Detachable Visible Water Tank:** Monitors liquid levels and simplifies cleaning, preventing machine malfunctions.
- **6X More Effective Preservation:** Seals dry foods in 5 seconds, significantly slowing spoilage.
- **Compact, Wireless, Efficient:** Powered by a 1200mAh battery, 60KPa suction, and portable design.

6X Freshness

3. IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or injury, please observe the following safety precautions:

- Read all instructions before using the appliance.
- Do not immerse the appliance in water or other liquids.
- Keep the appliance out of reach of children.
- Use only the provided USB-C charging cable for charging.
- Do not attempt to disassemble or repair the appliance yourself. Contact customer support if service is

required.

- Avoid using the appliance near hot surfaces or open flames.
- Ensure the vacuum bags are clean and dry before use to prevent contamination.
- Do not overfill the vacuum bags.
- For liquid-rich foods, monitor the water tank and empty it if the liquid reaches the maximum fill line.

4. SETUP

4.1 Charging the Device

The FEPPPO S30-W is powered by a 1200mAh rechargeable battery. Before first use, fully charge the device using the provided USB-C charging cable. The power indicator light will show charging status.

4.2 Preparing the Bags

The FEPPo vacuum sealer comes with reusable bags in two sizes. Ensure the bags are clean and dry before placing food inside. Use the provided sealing clips to securely close the zipper seal of the bag, leaving the circular valve exposed.

BPA-Free Reusable Bags

5. OPERATING INSTRUCTIONS

5.1 Vacuum Sealing Dry Foods

1. Place the dry food items into a FEPPPO vacuum bag.
2. Use the sealing clip to firmly close the zipper seal of the bag. Ensure no food particles are caught in the seal.
3. Place the vacuum sealer directly over the circular air valve on the bag.
4. Press the power button on the sealer to start the vacuuming process.

5. The machine will automatically stop once the vacuum is complete and the air has been removed from the bag.
6. Remove the sealer from the bag. The bag is now sealed and ready for storage.

5.2 Vacuum Sealing Moist Foods (with Visible Water Tank)

The FEPPPO S30-W features a detachable visible water tank designed to collect any liquids or moisture extracted during the vacuum sealing process, preventing them from entering the machine and causing damage.

1. For moist foods, ensure the detachable water tank is properly attached and empty before starting.
2. Place the moist food items into a FEPPPO vacuum bag.
3. Securely close the zipper seal of the bag using the sealing clip.
4. Position the vacuum sealer over the circular air valve.
5. Press the power button to begin vacuuming. Monitor the visible water tank.
6. If liquid in the tank reaches the 'Max' fill line, stop the operation, detach and empty the tank, then reattach it and continue sealing.
7. For liquids, multiple sealing sessions may be required to achieve a proper seal.
8. The machine will automatically stop when the vacuum is complete.

5.3 Automatic Pressure Release Function

The FEPP0 vacuum sealer is equipped with an innovative automatic pressure release function. Unlike traditional models that require manual detachment, this device automatically releases pressure at -40kpa. This ensures efficient sealing and easy removal of the sealer from the bag without any struggle or spills.

Automatic Pressure Release

Image: A comparison illustrating the FEPP0 Vacuum Sealer's automatic pressure release for easy bag removal versus a manual method.

6. MAINTENANCE

6.1 Cleaning the Water Tank

The detachable water tank should be cleaned regularly, especially after sealing moist foods. To clean:

1. Gently twist and pull to detach the water tank from the main unit.
2. Empty any collected liquid.
3. Wash the tank with warm, soapy water. Rinse thoroughly and allow it to air dry completely before reattaching.
4. Ensure proper alignment when reattaching the tank to prevent leaks.

6.2 Cleaning the Vacuum Bags

The FEPP0 vacuum bags are reusable. To clean:

1. Open the zipper seal and wash the bags with warm, soapy water.
2. Rinse thoroughly and ensure all soap residue is removed.
3. Allow the bags to air dry completely before reuse to prevent moisture from affecting future seals.

7. TROUBLESHOOTING

If you encounter any issues with your FEPP0 S30-W Handheld Vacuum Sealer, please refer to the following common problems and solutions:

- **No Suction or Weak Suction:**

- Ensure the vacuum bag's zipper seal is completely closed and free of food particles.
- Verify that the vacuum sealer is placed directly and firmly over the circular air valve on the bag.
- Check if the detachable water tank is correctly attached and not full.
- Ensure the device is sufficiently charged.

- **Machine Stops Unexpectedly:**

- The water tank may be full. Empty and clean the tank, then resume operation.
- The battery might be low. Recharge the device.

- **Food Not Fully Sealed (especially liquids):**

- For liquid-rich foods, multiple vacuum sealing sessions may be necessary to achieve a complete seal.
- Ensure the bag is not overfilled, allowing enough space for proper sealing.

8. SPECIFICATIONS

Attribute	Value
Brand	FEPPPO
Model Number	S30-W
Material	Acrylonitrile Butadiene Styrene (ABS)
Color	White
Product Dimensions	8.31"L x 1.97"W x 8.31"H
Item Weight	2.43 Pounds
Power Source	Battery Powered (1200mAh)
Operation Mode	Automatic
Wattage	5 watts
Voltage	3.7 Volts
Included	1 USB-C Charging Cable, 1 Vacuum Sealer with Detachable Water Tank, 15 Bags (8.27 x 8.66 in), 15 Bags (10.24 x 11.02 in), 3 Sealing Clips, 1 Instruction Manual.

9. WARRANTY & SUPPORT

FEPPPO products are designed for quality and durability. For specific warranty information, please refer to the product packaging or contact FEPPPO customer service directly. If you have any questions, require technical assistance, or need to report an issue, please visit the official FEPPPO store or contact their support team.
