## 4. SETUP INSTRUCTIONS

Follow these steps to set up your ZWXYVUT G7 Game Box:

1. **Connect to TV:** Insert one end of the provided HDMI cable into the HDMI port on the G7 Game Box and the other end into an available HDMI input on your television or monitor.
2. **Connect Power:** Plug the Micro USB charging line into the power port on the G7 Game Box, then connect the power adapter to the charging line and plug it into a wall outlet. The console should power on automatically or indicate power status.
3. **Select Input:** Turn on your TV and select the correct HDMI input source using your TV remote.

#### 4. Pair Gamepads:

- Ensure the wireless gamepads have batteries installed.
- Turn on the gamepads. They should automatically attempt to pair with the console. If not, refer to the gamepad's specific pairing instructions (usually involves holding a specific button combination).

5. **Initial Setup:** Follow the on-screen prompts for initial setup, which may include language selection, network connection (Wi-Fi or Ethernet), and Google account login (optional for full Android TV features).

## 5. OPERATING INSTRUCTIONS

This section covers basic operation of your G7 Game Box.

### 5.1 Navigating the Interface

Use the included remote control or a connected gamepad to navigate the Android TV interface. The directional pad (D-pad) on the remote/gamepad allows you to move between icons, and the "OK" or "A" button confirms selections. The "Back" button returns to the previous screen.

## 5.2 Playing Games

The G7 Game Box comes with over 25,000 built-in retro games. Access these games through the dedicated game application on the home screen. Select a game using the gamepad and press the appropriate button to start. The console supports two players simultaneously with the provided wireless gamepads.

## 5.3 Media Playback and Screen Mirroring

Beyond gaming, the G7 Game Box functions as an Android TV device, allowing you to stream movies, TV shows, and music through various applications. It also supports screen mirroring technologies like Airplay, DLNA, and Miracast, enabling you to project content from your phone or tablet to your TV.

## 6. CONNECTIVITY

The G7 Game Box offers multiple connectivity options for internet access and peripheral devices.

- **Wi-Fi:** Supports 2.4G and 5G Wi-Fi for wireless internet connection.

- **Ethernet:** A 100M Ethernet port is available for a stable wired internet connection.
- **Bluetooth 5.4:** For connecting wireless accessories such as gamepads, headphones, or speakers.
- **USB 2.0:** Two USB ports for connecting external storage or other USB devices.
- **TF Card Slot:** For expanding storage with a TF (MicroSD) card.

## Your Own Personal Google

Now you have a super-easy way to find things to watch, and to connect your TV to Google calendar, photos, and more. Plus, it works with a ton of smart home devices, so you can control every experience with just the sound of your voice.

## 7. VOICE CONTROL

The G7 Game Box remote control features a built-in microphone for voice commands, allowing for hands-free navigation and search.

1. **Activate Voice Control:** Press the dedicated microphone button on your remote control.
2. **Speak Commands:** Hold the remote close to your mouth and clearly speak your command. Examples include:
  - "What's the weather today?"
  - "Open YouTube."
  - "Search for [movie/show name]."

3. **Google Assistant Integration:** The device integrates with Google Assistant, allowing you to control smart home devices, check your calendar, and access other Google services using your voice.

## 8. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your G7 Game Box.

- **Cleaning:** Use a soft, dry cloth to clean the console and remote control. Avoid using liquid cleaners or abrasive materials.

- **Ventilation:** Ensure the console is placed in a well-ventilated area to prevent overheating. Do not block any ventilation openings.
- **Storage:** When not in use for extended periods, store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Software Updates:** Periodically check for and install system software updates to ensure the best performance and access to new features.

## 9. TROUBLESHOOTING

If you encounter issues with your G7 Game Box, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No power	Power adapter not connected or faulty.	Ensure the power adapter is securely connected to the console and a working power outlet. Try a different outlet.
No display on TV	Incorrect HDMI input selected or faulty HDMI cable.	Verify your TV is set to the correct HDMI input. Check HDMI cable connections. Try a different HDMI cable or port.
Gamepads not responding	Gamepads not paired or low battery.	Ensure gamepads are powered on and have fresh batteries. Re-pair gamepads according to their instructions.
Poor Wi-Fi connection	Distance from router or interference.	Move the console closer to your Wi-Fi router or use an Ethernet cable for a wired connection. Reduce interference from other devices.
Voice control not working	Microphone button not pressed or remote not paired correctly.	Ensure you are pressing the microphone button while speaking. Check remote control battery and pairing.
