## SAFETY INFORMATION

**WARNING: CHOKING HAZARD - Small pieces. Not for children under 3 years.**

Always supervise young children during play. Ensure the toy is used in an open area to prevent accidental damage or injury when throwing or slamming.

## WHAT'S IN THE BOX

## OPERATING INSTRUCTIONS

---

The SLAM Heroes Gorilla is designed for dynamic, interactive play. Follow these instructions for optimal enjoyment:

- **Stretch:** Grip the toy firmly and pull its limbs to stretch it up to four times its original size. The internal sand filling provides resistance and allows it to hold stretched shapes temporarily.

- **Slam:** Throw the toy against a hard, flat surface. It is designed to withstand impact and return to its original form.
- **Smash:** Press the toy down onto a surface or squeeze it. Observe its squishy texture and how it reforms.
- **Throw:** Toss the toy and watch it bounce back. Ensure a clear play area to avoid hitting objects or people.

## MAINTENANCE

To keep your SLAM Heroes Gorilla clean, wipe it with a damp cloth. Avoid harsh chemicals or abrasive cleaners, as these may damage the toy's surface or paint. The toy's material is designed to be easy to clean and resist collecting lint or fuzz.

## TROUBLESHOOTING

Issue	Possible Cause / Solution
Paint peeling on face or chest 'X'	This is normal wear and tear, especially with frequent stretching and handling of painted areas. It does not affect the toy's functionality or durability.
Toy not returning to original shape immediately after stretching	The sand filling allows the toy to hold stretched shapes for a short period. Gentle manipulation can help it return to its original form. Over time, the material may loosen slightly, allowing for greater stretch.
Toy feels stiff initially	New toys may require some initial stretching and play to loosen up the material and internal filling, making them more pliable.
