SETUP AND ASSEMBLY

Assembly of the VOWNER Vanity requires careful attention to the provided instructions. It is recommended that two people assemble the unit due to its weight and size. Ensure all parts are present before beginning assembly.

Assembly Video Guide

Video 1: Step-by-step guide on how to install the VOWNER Vanity. This video demonstrates the assembly process for the vanity desk, including attaching components and installing drawers.

Refer to the detailed instruction manual included in your package for specific step-by-step diagrams and hardware identification. Ensure all screws and fasteners are securely tightened before use.

OPERATING INSTRUCTIONS

Lighted Mirror Operation

- **Power On/Off:** Locate the touch sensor on the mirror surface. Tap once to turn the lights on or off.
- **Change Color Mode:** With the lights on, tap the touch sensor repeatedly to cycle through the three color temperature modes: Warm White, Natural White, and Cool White.
- **Adjust Brightness:** With the lights on, press and hold the touch sensor to smoothly adjust the brightness level. Release when the desired brightness is achieved.

Integrated Power Outlet Usage

The vanity is equipped with 2 standard AC outlets and 2 USB charging ports located on the side. These can be used to power hair dryers, curling irons, and charge mobile devices. Ensure that the total power draw does not exceed the vanity's electrical specifications to prevent overloading.

MAINTENANCE

- **Cleaning:** Wipe the vanity surfaces with a dry, soft cloth. For stubborn marks, a slightly damp cloth with mild soap can be used, followed by immediate drying. Avoid abrasive cleaners or harsh chemicals.
- **Mirror Care:** Clean the mirror surface with a glass cleaner and a lint-free cloth. Do not spray cleaner directly onto the mirror; apply it to the cloth first.
- **Drawer Maintenance:** Periodically check drawer slides for smooth operation. If drawers become stiff, a small amount of silicone lubricant can be applied to the slides.
- **Electrical Safety:** Regularly inspect the power cord and plug for any damage. Unplug the vanity from the wall outlet when not in use for extended periods.

TROUBLESHOOTING

- **Lights Not Working:**
 - Ensure the vanity is properly plugged into a functional wall outlet.
 - Check if the power switch on the vanity or the wall outlet is turned on.
 - Verify that the touch sensor on the mirror is being pressed correctly.
- **Power Outlets Not Functioning:**
 - Confirm the vanity is plugged in and receiving power.
 - Test the outlet with another device to ensure it is working.
 - Avoid overloading the outlets with too many high-power devices simultaneously.
- **Drawers Sticking:**
 - Check for any obstructions within the drawer or along the slides.
 - Ensure the drawer slides are properly aligned and secured.
 - Apply a small amount of silicone lubricant to the drawer slides if needed.

If you encounter issues not covered here, please contact VOWNER customer support for assistance.
