

Keerain MDC3

Keerain Electric Orange Juicer (Model MDC3) User Manual

Your Guide to Freshly Squeezed Juice

1. INTRODUCTION

Thank you for choosing the Keerain Electric Orange Juicer, Model MDC3. This high-performance automatic juice squeezer is designed for effortless juicing of various citrus fruits, providing fresh juice in seconds. Its compact design and easy-to-clean components make it a convenient addition to any kitchen. Please read this manual thoroughly before use to ensure safe and optimal operation.

2. IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury to persons, including the following:

- Read all instructions before operating the juicer.
- Do not immerse the motor base in water or other liquids.
- Ensure the appliance is unplugged from the outlet when not in use, before assembling or disassembling parts, and before cleaning.
- Avoid contact with moving parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner.
- The juicer features overheat protection. If the motor overheats, the unit will automatically shut off. Allow it to cool down before resuming operation.
- This appliance is designed for household use only.

3. PACKAGE CONTENTS

Verify that all items are included in your package:

- Keerain Electric Orange Juicer Base
- Juicing Cone (for various citrus fruits)
- Pulp Filter
- Juice Collection Cup
- Top Cover
- Cleaning Brush

An advertisement for the Keerain Electric Orange Juicer. The background shows a woman in a brown shirt drinking orange juice. In the foreground, the black juicer is shown with an orange being juiced, and fresh orange juice is being poured into a glass. The juicer has a clear collection cup and a black top cover. The brand name 'Keerain' is visible on the front of the base, along with 'START' and 'ON/OFF' buttons.

4. SETUP

Before first use, wash all detachable parts (juicing cone, pulp filter, juice collection cup, top cover) in warm, soapy water. Rinse thoroughly and dry. The motor base should be wiped with a damp cloth.

1. Place the juicer base on a stable, flat surface.
2. Insert the juice collection cup onto the motor base, ensuring it is securely seated.
3. Place the pulp filter into the juice collection cup.

4. Position the juicing cone onto the shaft of the motor base, aligning it properly.
5. Place the top cover over the juicing cone and twist gently to lock it into place.

5. OPERATING INSTRUCTIONS

The Keerain Electric Orange Juicer is designed for simple, one-touch operation.

1. **Prepare Fruit:** Cut your chosen citrus fruit (e.g., orange, lemon, lime, grapefruit, pomegranate) in half. The juicer can accommodate fruits up to 4.33 inches in diameter.
2. **Place Fruit:** Place one half of the fruit onto the juicing cone.
3. **Start Juicing:** Hold the ON/OFF button for 2 seconds until the white light is on, then press the START button. The 100-watt motor will begin rotating, extracting juice efficiently.
4. **Collect Juice:** The fresh juice will flow directly into the collection cup. The advanced filter efficiently traps seeds and pulp, ensuring pure juice.
5. **Stop Juicing:** The juicer will automatically stop once the fruit is fully juiced. You can also press the ON/OFF button to stop it manually.

PERFECT FOR JUICE

STEP 1: Hold ON/OFF for 2 sec until white light is on.
STEP 2: Press START to juice.

6. CLEANING AND MAINTENANCE

Regular cleaning ensures the longevity and hygiene of your Keerain Electric Orange Juicer.

1. **Unplug:** Always unplug the juicer from the power outlet before cleaning.
2. **Disassemble:** Detach the top cover, juicing cone, pulp filter, and juice collection cup from the motor base.
3. **Rinse:** Rinse the detachable parts under running water. Use the included cleaning brush to remove any pulp or residue from the filter and cone.
4. **Wash:** The detachable parts are dishwasher safe for convenient cleaning. For hand washing, use warm, soapy water.
5. **Clean Base:** Wipe the motor base with a damp cloth. Do not immerse the motor base in water.
6. **Dry:** Ensure all parts are completely dry before reassembling or storing.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Juicer does not turn on.	Not plugged in; lid not properly locked; overheat protection activated.	Ensure power cord is securely plugged in. Check if the top cover is twisted and locked correctly. If overheated, unplug and allow to cool for 15-20 minutes.
Low juice yield.	Fruit not pressed firmly enough; fruit too small/large for cone.	Apply gentle, consistent pressure. Ensure fruit size is appropriate for the juicing cone.
Excessive pulp in juice.	Pulp filter not properly installed or clogged.	Check that the pulp filter is correctly seated. Clean the filter thoroughly after each use.

8. SPECIFICATIONS

Feature	Detail
Brand	Keerain
Model Name	CJ001-GY
Model Number	MDC3
Color	Grey
Product Dimensions (D x W x H)	5.9"D x 6.2"W x 11.6"H
