# PawHut Large Metal Chicken Coop Instruction Manual

Model: D51-436V03SR

## 1. INTRODUCTION

---

Thank you for choosing the PawHut Large Metal Chicken Coop. This manual provides essential information for the safe assembly, operation, and maintenance of your new poultry enclosure. Please read these instructions thoroughly before beginning assembly and retain them for future reference.

This spacious walk-in chicken run is designed to provide a secure and comfortable environment for your poultry, ducks, or rabbits. It features a galvanized steel frame, durable wire mesh, and a waterproof, UV-resistant cover to protect your animals from the elements.

## 2. SAFETY INSTRUCTIONS

---

**WARNING: Failure to follow these safety instructions may result in injury to persons or animals, or damage to the product.**

- Always assemble the coop on a flat, stable surface.
- Ensure all parts are securely fastened before allowing animals into the enclosure.
- Regularly inspect the coop for any loose parts, damaged mesh, or wear on the cover. Repair or replace as necessary to maintain animal safety and prevent escapes or predator entry.
- Keep children and pets away from the assembly area.
- This product is intended for outdoor use only.
- Consider additional predator-proofing measures, such as burying the bottom edge of the mesh or adding a more robust base, especially in areas with active predators.

## 3. PACKAGE CONTENTS

---

Before assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, contact customer support.

- Galvanized Steel Frame Components

- Plastic-Coated Steel Wire Mesh
- 420D Silver-Coated Oxford Cloth Cover (Waterproof & Anti-UV)
- Hanging Feeder
- 4-Tier Perch
- Assembly Hardware (bolts, nuts, zip ties, etc.)
- Instruction Manual

## 4. ASSEMBLY INSTRUCTIONS

---

Assembly of this chicken coop typically requires two people and takes approximately 3 hours. Follow the numbered steps in the included assembly diagram carefully.

1. **Prepare the Area:** Choose a level, clear outdoor space for the coop. Ensure adequate drainage and protection from strong winds.
2. **Assemble the Frame:** Connect the galvanized steel pipes according to the diagrams. Ensure all connections are secure using the provided bolts and nuts.
3. **Attach the Wire Mesh:** Unroll and attach the plastic-coated steel wire mesh to the assembled frame. Use the provided zip ties to secure the mesh tightly to the frame, ensuring there are no gaps that animals could escape through or predators could enter.
4. **Install the Cover:** Drape the 420D silver-coated Oxford cloth cover over the top of the frame. Secure it firmly to prevent it from being dislodged by wind. The slanted roof design aids in water runoff.
5. **Install Internal Components:** Attach the 4-tier perch inside the coop as shown in the diagrams. Hang the feeder in an accessible location for your poultry.
6. **Secure the Door:** Ensure the main access door and the feeding door are properly installed and latch securely.

## 5. OPERATING INSTRUCTIONS

---

This chicken coop is designed for ease of use and animal comfort.

- **Animal Placement:** Once fully assembled and secured, introduce your poultry or other small animals into the enclosure. The spacious 258 sq. ft. area can accommodate 24-30 chickens.
- **Feeding:** Utilize the dedicated feeding door for convenient access to provide food and water without needing to enter the main enclosure. The included hanging feeder can be filled with appropriate feed.
- **Perching:** The 4-tier perch provides elevated resting spots for chickens, promoting natural behaviors and reducing stress.
- **Weather Protection:** The waterproof and UV-resistant Oxford cloth cover offers protection from sun and rain, keeping your animals dry and comfortable.

## EASY FEEDING

Feed your chickens through the top door, no need to worry about them escaping

## 6. MAINTENANCE

---

Regular maintenance will extend the life of your chicken coop and ensure the well-being of your animals.

- **Daily Checks:** Inspect the coop daily for any signs of damage, loose components, or potential entry points for predators.
- **Cleaning:** Clean the interior of the coop regularly to maintain hygiene. Remove droppings and old bedding. The wire mesh can be hosed down.
- **Cover Care:** Periodically check the Oxford cloth cover for tears or damage. Clean it with mild soap and water if necessary. Ensure it remains securely attached, especially before adverse weather.
- **Frame Inspection:** Annually, check all galvanized steel frame connections for rust or weakening. Tighten any loose bolts.

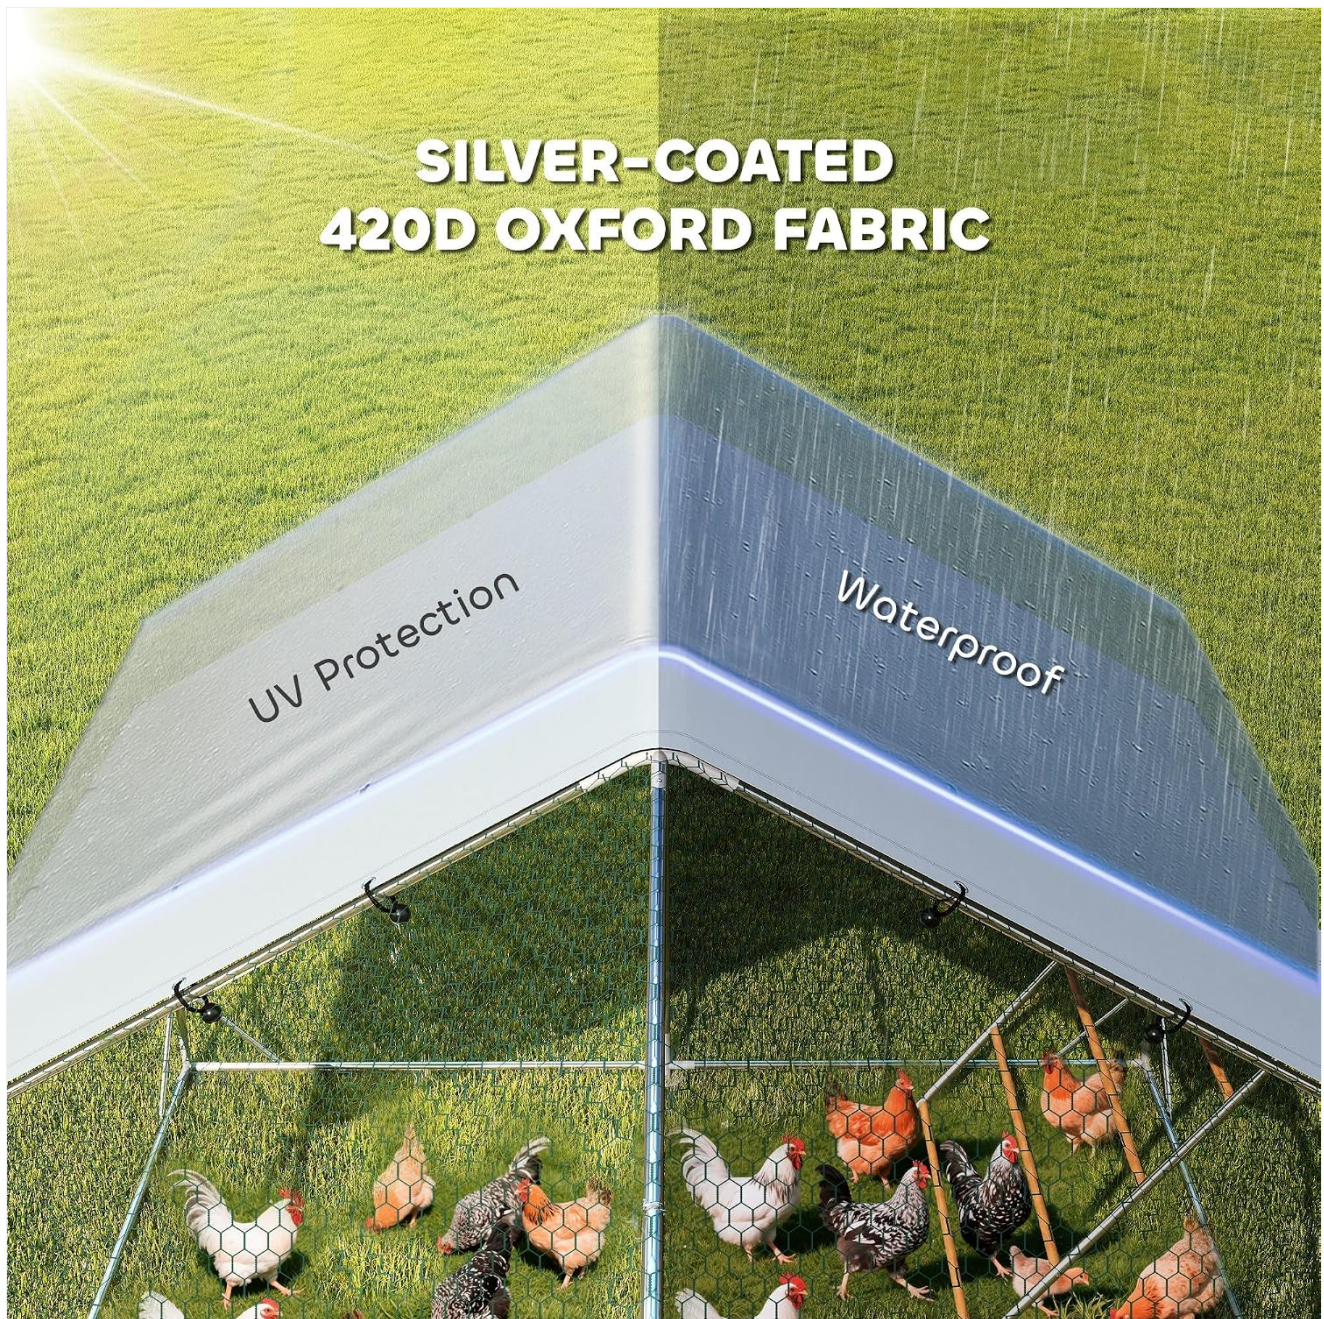

Figure 6.1: The waterproof and UV-resistant cover requires periodic inspection.

## 7. TROUBLESHOOTING

- **Predator Entry:** If predators are gaining access, inspect the entire mesh for gaps or weak points. Reinforce with additional zip ties or stronger wire if needed. Consider burying the bottom edge of the mesh or adding a solid base to deter digging predators.
- **Water Accumulation:** Ensure the cover is taut and properly angled to allow water to run off. Clear any debris that might obstruct water flow.
- **Loose Components:** Regularly check and tighten all bolts and connections to maintain structural integrity.

## 8. SPECIFICATIONS

Feature	Detail
Model Number	D51-436V03SR

Feature	Detail
Overall Dimensions (L x W x H)	315.0" x 118.1" x 76.8" (9.8' x 26.2' x 6.4')
