VINEVIDA VVDP1

VINEVIDA Studio Plug-in Waterless Diffuser Instruction Manual

Model: VVDP1

INTRODUCTION

This manual provides detailed instructions for the safe and efficient operation of your VINEVIDA Studio Plug-in Waterless Diffuser. Please read this manual thoroughly before using the product and retain it for future reference. This diffuser is designed to disperse essential oils into the air without the need for water, providing a consistent aroma experience.

IMPORTANT SAFETY INFORMATION

- Keep the diffuser upright at all times to prevent oil overflow and ensure proper performance.
- Do not modify, disassemble, or attempt repairs on the device.
- Avoid use in high humidity or high-pressure environments.
- Plug directly into a wall outlet; do not tape or glue to surfaces.
- Keep out of reach of children and pets.
- Use only VINEVIDA approved essential oils or high-quality, pure essential oils.
- Unplug the device before cleaning or when not in use for extended periods.

IMPORTANT NOTES

- Keep the diffuser upright at all times to prevent oil overflow and ensure proper performance.
- Do not modify, disassemble, or attempt repairs.
- Avoid use in high humidity or high-pressure environments.
- Plug directly into a wall outlet-do not tape or glue to surfaces.

PRODUCT OVERVIEW

Familiarize yourself with the components of your VINEVIDA Studio Plug-in Waterless Diffuser.

Installation Method

Unscrew the lower cover

Unscrew the oil bottle to fill or change the essential oils

Screw the oil bottle and the lower cover

Plug it in and start diffusing!

Image: Exploded view diagram of the diffuser, labeling its main parts such as the upper shell, lower shell, plug, atomized head, and the oil bottle compartment, along with control buttons.

Key Components:

- **Upper Shell:** The top casing of the diffuser.
- **Grade Button/Mode:** Controls the diffusion intensity and operating modes.
- **Lower Shell:** The bottom casing of the diffuser.
- **Plug:** For connecting to a standard wall outlet.
- **Atomized Head:** The component responsible for nebulizing the essential oil.
- **Oil Bottle:** Reservoir for essential oils.

SETUP INSTRUCTIONS

Follow these steps to set up your VINEVIDA Studio Plug-in Waterless Diffuser:

1. **Unscrew the Lower Cover:** Gently twist the lower cover of the diffuser counter-clockwise to remove it.
2. **Unscrew the Oil Bottle:** If an empty bottle is present, unscrew it. Fill the provided 100ml oil bottle with your desired essential oil. Ensure the bottle is not overfilled.
3. **Screw in the Oil Bottle:** Carefully screw the filled oil bottle into the atomized head until secure. Do not overtighten.
4. **Reattach the Lower Cover:** Align the lower cover and twist clockwise until it clicks into place.
5. **Plug into Wall Outlet:** Insert the diffuser directly into a standard wall outlet. Ensure it is upright.

OPERATING INSTRUCTIONS

Once plugged in, the diffuser will be ready for operation. Use the control buttons to select your desired settings.

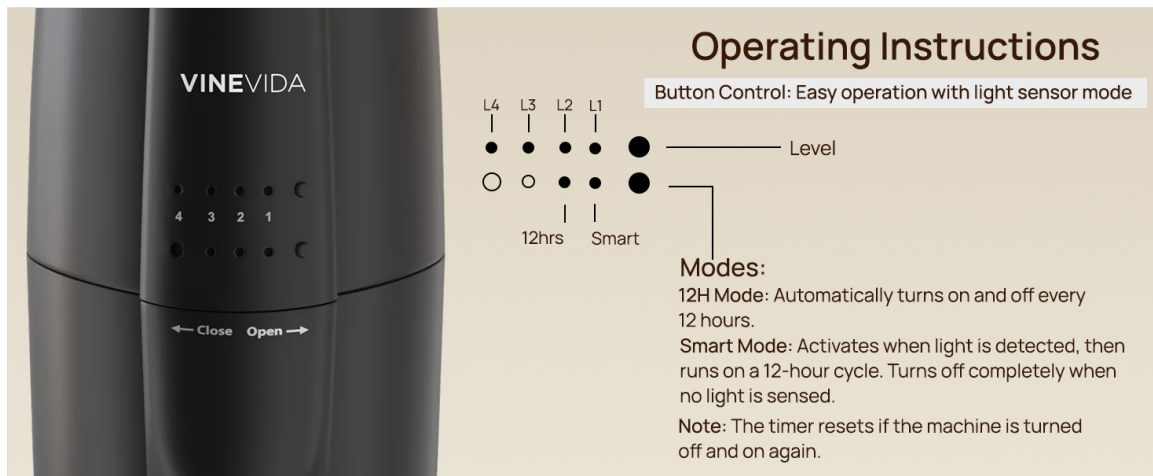

Image: Detailed diagram illustrating the diffuser's control buttons for adjusting diffusion levels and selecting operating modes.

Diffusion Levels:

The diffuser features multiple intensity levels (L1-L4) to control the fragrance output. Each level operates on a 15-second working cycle, followed by a stop interval.

- **L1:** Lowest intensity, longest pause.
- **L2:** Medium-low intensity.
- **L3:** Medium-high intensity.
- **L4:** Highest intensity, shortest pause.

Operating Modes:

- **12H Mode:** The diffuser automatically turns on and off every 12 hours.
- **Smart Mode:** Activates when light is detected, then runs on a 12-hour cycle. It turns off completely when no light is sensed.

Note: The timer resets if the machine is turned off and on again.

MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and extends the lifespan of your diffuser. Clean the diffuser when switching to a new essential oil or when fragrance output becomes weak.

Equipment Cleaning

When to Clean:

1. When switching to a new essential oil
2. When fragrance output becomes weak

Cleaning Steps:

1. Remove lower cover and take out oil bottle.
2. Soak bottle in 99% rubbing alcohol for 5-10 minutes.
3. Fill bottle with 10-20 mL alcohol and run diffuser for 15 minutes.
4. Empty bottle and air-dry for 15 minutes.

Level	Stop Interval	Consumption (mL/hr)
L1	285s	0.07
L2	135s	0.15
L3	85s	0.23
L4	60s	0.30

Important Notes:

Each level operates on a 15-second working cycle. For example, at Level 4, the diffuser runs for 15 seconds, then pauses for 60 seconds before repeating.

Oil consumption may vary depending on oil type and quality.

Image: Visual guide for cleaning the diffuser, including steps for soaking and running with rubbing alcohol, alongside a table detailing oil consumption rates for each level.

Cleaning Steps:

1. Remove the lower cover and take out the oil bottle.
2. Soak the empty oil bottle in 99% rubbing alcohol for 5-10 minutes.
3. Fill the bottle with 10-20 mL of rubbing alcohol and run the diffuser for 15 minutes.
4. Empty the bottle and allow it to air-dry for 15 minutes before refilling with essential oil.

Important Note: Oil consumption may vary depending on oil type and quality.

TROUBLESHOOTING

If you encounter issues with your diffuser, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No mist/scent output	Oil bottle empty or improperly installed. Atomized head clogged. Diffuser not powered on or plugged in correctly.	Check oil level and ensure bottle is screwed in securely. Perform cleaning steps as outlined in the Maintenance section. Verify the diffuser is plugged into a working outlet and the power indicator is on.
Diffuser is noisy	Normal operating sound of the pump. Diffuser not placed on a stable surface.	A slight humming sound is normal for nebulizing diffusers. Ensure the diffuser is placed on a flat, stable surface to minimize vibrations.
Diffuser not turning on	No power to the outlet. Device malfunction.	Test the outlet with another device. Contact customer support if power is confirmed and device still doesn't operate.

SPECIFICATIONS

Feature	Detail
Model	VVDP1
Size (L x W x H)	4.8" x 2.56" x 8.42"
Net Weight	10.6 oz (300g)
Voltage	DC5V
Power	2W
Coverage Area	Up to 1000 sq ft
Oil Bottle Capacity	3.4 oz (100mL)
Material	Plastic
Automatic Shutoff	No (operates on timed cycles)
