Lark Lucy Small Single Light Sconce Instruction Manual

Model: 85590LCB-BK | Brand: Lark

1. INTRODUCTION

Thank you for choosing the Lark Lucy Small Single Light Sconce. This manual provides essential information for the safe installation, operation, and maintenance of your new lighting fixture. Please read all instructions carefully before beginning installation and retain this manual for future reference.

This elegant single light sconce features a lacquered brass finish with black accents, designed to complement various interior styles. It is suitable for indoor use, particularly in bathrooms and vanity areas, as it is rated for damp locations. The fixture is hardwired and can be mounted either upwards or downwards, offering installation flexibility.

2. IMPORTANT SAFETY INFORMATION

To reduce the risk of electric shock, fire, or injury to persons, please adhere to the following safety guidelines:

- **Always turn off the power supply at the main circuit breaker or fuse box before installation, servicing, or cleaning the fixture.**
- Consult a qualified electrician if you are unsure about the installation process.
- This fixture is designed for 120 Volts AC. Ensure your electrical supply matches this requirement.
- Only use **LED bulbs** with this fixture. Using incandescent or other bulb types may cause damage or create a

fire hazard.

- Do not exceed the maximum wattage specified for the bulb.
- This product is suitable for use in *damp locations* as defined by NEC and CEC. Do not install in areas where it will be directly exposed to water.
- Ensure all electrical connections are secure and comply with local electrical codes.
- Do not modify the fixture in any way. Any modifications will void the warranty and may create a safety hazard.

3. WHAT'S IN THE Box

Verify that all components are present and undamaged before beginning installation. If any parts are missing or damaged, do not proceed with installation and contact customer support.

5. SETUP AND INSTALLATION

Installation of this hardwired fixture requires basic electrical knowledge. If you are uncomfortable with electrical wiring, please consult a licensed electrician. For detailed step-by-step instructions, refer to the official Installation Manual (PDF) provided by the manufacturer, which can be accessed via this link: [Lark Lucy Sconce Installation Manual](#)

General Installation Steps:

- 1. Safety First:** Turn off power at the circuit breaker before starting.
- 2. Prepare Mounting Surface:** Ensure the electrical box is securely mounted in the wall.
- 3. Attach Mounting Hardware:** The mounting hardware is designed to be hidden on the back plate for a clean silhouette. Secure the mounting bracket to the electrical box.
- 4. Wire Connections:** Connect the fixture's wires to the corresponding house wires (black to black, white to white, ground to ground) using wire nuts. Ensure all connections are secure.

5. **Mount Fixture:** Carefully align the fixture with the mounting bracket and secure it in place. The fixture can be mounted either with the light pointing up or down.
6. **Install Bulb:** Insert the required LED bulb into the socket.
7. **Restore Power:** Turn the power back on at the circuit breaker.

6. OPERATING INSTRUCTIONS

The Lark Lucy Small Single Light Sconce is a hardwired fixture, meaning its operation is controlled by the wall switch connected to its circuit. Once installed and powered, simply use the wall switch to turn the light on or off.

This fixture is **dimmable**. If you wish to utilize the dimming feature, ensure you have installed a dimmable LED bulb

and connected the fixture to a compatible dimmer switch (sold separately). Follow the dimmer switch manufacturer's instructions for proper operation.

7. CARE AND MAINTENANCE

Proper care will ensure the longevity and appearance of your Lark Lucy Sconce:

- Cleaning:** Always turn off the power to the fixture and allow it to cool before cleaning. Wipe the fixture with a soft, dry, or slightly damp cloth. Do not use abrasive cleaners, solvents, or polishes as they may damage the finish.
- Bulb Replacement:** Ensure the power is off and the bulb has cooled before attempting to replace it. Use only LED bulbs as specified.
- Inspection:** Periodically check for any loose connections or signs of wear. If any issues are found, turn off power and consult a qualified electrician.

8. TROUBLESHOOTING

If you encounter issues with your sconce, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on	No power to the fixture Loose wire connection Faulty bulb	Check circuit breaker/fuse. Ensure wall switch is on. Turn off power, check wire connections. Replace bulb with a new, known-good LED bulb.
Light flickers	Loose wire connection Incompatible dimmer switch/bulb Faulty bulb	Turn off power, check wire connections. Ensure both bulb and dimmer are compatible with each other and rated for LED. Replace bulb.
Fixture hums	Incompatible dimmer switch/bulb Loose connections	Ensure both bulb and dimmer are compatible with each other and rated for LED. Turn off power, check wire connections.

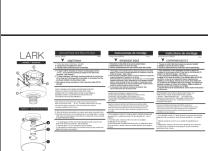

If the problem persists after attempting these solutions, please contact a qualified electrician or Lark customer support.
