Sophos XGS 108

Sophos XGS 108 (Gen2) Network Security Appliance User Manual

Model: XGS 108 | Brand: Sophos

1. INTRODUCTION

This manual provides essential information for the proper installation, operation, and maintenance of your Sophos XGS 108 (Gen2) Network Security Appliance. The Sophos XGS 108 is designed to deliver robust firewall performance, integrating advanced security features such as Deep Packet Inspection (DPI), Intrusion Prevention System (IPS), and TLS 1.3 decryption to protect network traffic. It supports SD-WAN optimization and VPN for secure and resilient connectivity, with centralized management facilitated by Sophos Central.

2. SAFETY INFORMATION

Please read all safety instructions before operating the device. Failure to follow these instructions may result in injury or damage to the device. Keep this manual for future reference.

- Ensure the device is placed on a stable, level surface.
- Do not expose the device to moisture, extreme temperatures, or direct sunlight.
- Use only the power adapter supplied with the device.
- Do not open the device casing. Refer all servicing to qualified personnel.
- Ensure adequate ventilation around the device to prevent overheating.

3. PACKAGE CONTENTS

Verify that all items are present in the package:

- Sophos XGS 108 (Gen2) Network Security Appliance
- Power Adapter
- Ethernet Cable
- Quick Start Guide
- Safety and Compliance Information

4. PRODUCT OVERVIEW

Front Panel

Image: Front view of the Sophos XGS 108 appliance, showing the Sophos logo, status LEDs, a COM port, and a USB port.

The front panel features status indicators for network activity and device health, along with a console port (COM) and a USB port for management and connectivity.
Rear Panel

Image: Rear view of the Sophos XGS 108 appliance, displaying power inputs, a console port, USB ports, multiple 2.5 GE copper ports, and an SFP fiber port.

The rear panel provides the primary connectivity options, including dual DC power inputs, a console port, USB ports, six 2.5 Gigabit Ethernet (GE) copper ports, and one Small Form-Factor Pluggable (SFP) fiber port. A reset button is also located on the rear panel.

5. SETUP

Follow these steps for initial setup of your Sophos XGS 108 appliance:

1. **Physical Placement:** Position the appliance in a well-ventilated area, away from direct heat sources or moisture.
2. **Connect Network Cables:** Connect your WAN (Internet) cable to the designated WAN port. Connect your internal network devices (switches, computers) to the LAN ports. The XGS 108 features 6 x 2.5 GE copper ports and 1 SFP fiber port.
3. **Connect Power:** Connect the power adapter to the appliance and then to a power outlet. The device will power on automatically.
4. **Initial Configuration:** Access the Sophos Firewall OS web interface from a connected computer using the default IP address (refer to the Quick Start Guide for details). Follow the on-screen prompts to complete the initial setup, including network settings, administrator password, and basic security policies.
5. **Sophos Central Registration:** Register your appliance with Sophos Central for centralized management, unified policies, and advanced reporting capabilities.

6. OPERATING INSTRUCTIONS

The Sophos XGS 108 operates on Sophos Firewall OS, providing a comprehensive suite of security features. Management is primarily performed through the web-based interface or Sophos Central.

Key Features and Protection

The XGS 108 offers advanced protection technologies and threat intelligence:

- **Xstream Protection:** Includes zero-day defense, cloud sandboxing, email filtering, intrusion prevention, and advanced reporting.
- **TLS Inspection:** Blocks hidden threats within encrypted traffic.
- **Next-Gen Intrusion Prevention:** Stops sophisticated attacks.
- **SD-WAN Optimization:** Ensures resilient and efficient network connectivity.
- **Secure VPN:** Provides secure remote access and site-to-site connections.
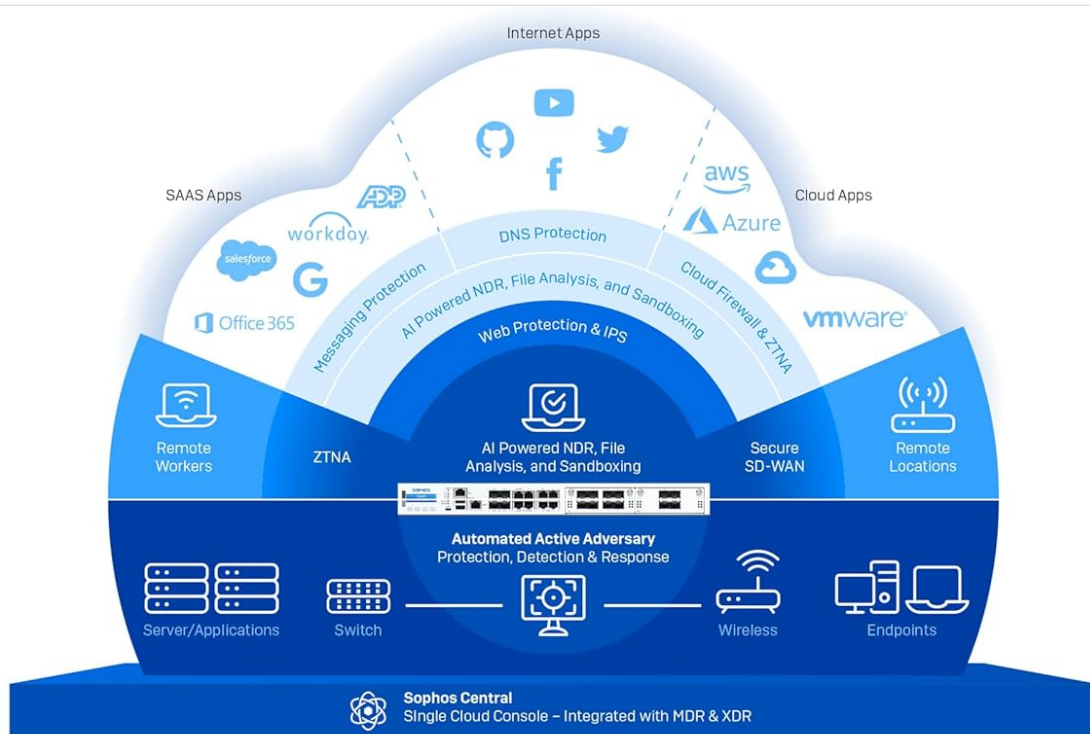

Powerful Protection and Performance

Sophos Firewall includes the latest advanced protection technologies and threat intelligence, including:

‣ Streaming DPI engine with web protection and IPS

‣ Accelerated TLS 1.3 encrypted traffic inspection

‣ Zero-day AI and machine learning analysis

‣ Real-time cloud sandboxing

‣ DNS Protection

‣ Network Detection and Response

The best part is, you don't need to compromise on performance. This is thanks to our programmable Xstream architecture. It offloads benign traffic flows and crypto operations as well as VPN and select application routing to accelerate these network traffic flows and create performance headroom for traffic that actually needs deep packet inspection.

Sophos Firewall leverages the Sophos Cloud to ensure that your organization is protected from the latest threats and further maximize your performance. You get the latest AI and machine learning technology from SophosLabs working to identify previously unseen threats and malicious URLs. Using a common cloud, any new threat attacking a single Sophos customer is instantly shared across all our customers, blocking it everywhere. In addition, offloading this analysis from your firewall to the cloud boosts your performance even further.

Image: Diagram illustrating Sophos Firewall's powerful protection and performance, showing integration with

cloud services, remote workers, and various network components.

Sophos Central Management

Sophos Central provides a unified platform for managing your XGS 108 appliance, offering:

- Group firewall management
- Backup management
- Firmware update scheduling
- Centralized reporting
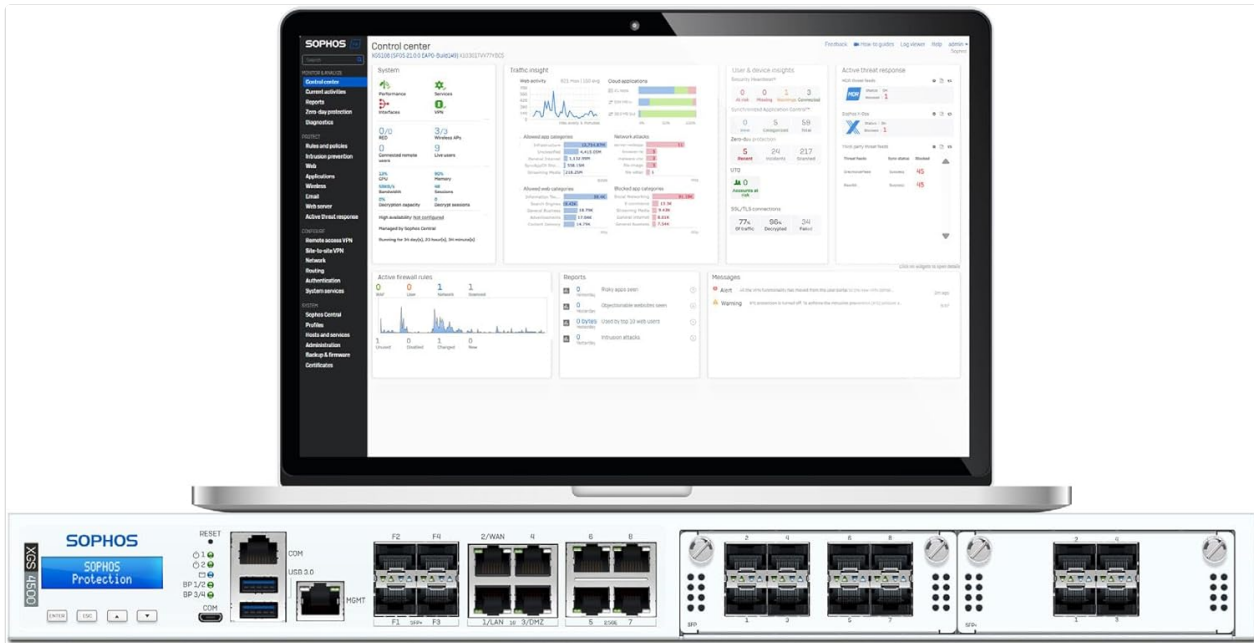

Image: Screenshot of the Sophos Central dashboard displayed on a laptop, showing various network security metrics and management options, with a Sophos appliance visible below.

Licensing Options

The XGS 108 supports various licensing bundles, including Xstream Protection, which provides comprehensive security features. Custom protection bundles and individual modules are also available to tailor security to specific organizational needs.

All Licensing Options

We recommend the Xstream Protection bundle for the ultimate in security. If you prefer to customize your protection, subscriptions are also available for individual purchase.

Xstream Protection Bundle:	
Base License	Networking, wireless, Xstream architecture, unlimited remote access VPN, site-to-site VPN, reporting
Network Protection	Xstream TLS/DPI, IPS, Active Threat Response with Sophos X-Ops threat feeds, Heartbeat, SD-RED, reporting
Web Protection	Xstream TLS and DPI engine, web security and control, application control, reporting
Zero-Day Protection	Machine learning and sandboxing file analysis, reporting
Central Orchestration	SD-WAN VPN orchestration, Central Firewall Advanced Reporting (30-days), MDR/XDR data lake connector
DNS Protection (not sold separately)	Cloud-based DNS service for web security and compliance
Bundle-only Features (not sold separately)	Active Threat Response with MDR/XDR threat feeds and third-party threat feeds, NDR Essentials
Enhanced Support	24/7 support access, firmware and feature updates, advanced replacement hardware warranty for term

Custom protection: You can choose the Standard Protection bundle or purchsase modules separately.

Standard Protection Bundle:	
Base License	Networking, wireless, Xstream architecture, Xstream SD-WAN, unlimited remote access VPN, site-to-site VPN
Network Protection	Xstream TLS and DPI engine, IPS, ATP, Security Heartbeat, manage SD-RED, reporting
Web Protection	Xstream TLS and DPI engine, web security and control, application control, reporting
Enhanced Support	24/7 support, firmware and feature updates, advanced replacement hardware warranty for term

Additional Protection Modules:	
Email Protection	On-box anti-spam, AV, DLP, encryption
Web Server Protection	Web Application Firewall

Sophos Central managing and reporting:

Sophos Central Management and Reporting (Included with any bundle, support, or protection subscription*)	
Sophos Central Management	Group firewall management, backup management, firmware update scheduling, ZTNA Gateway
Sophos Central Firewall Reporting	Pre-packaged and custom report tools, with seven days cloud storage for no extra charge (see other options)

*Except the Base License

Additional protection:

Additional Protection Services, Products, and Modules:	
Managed Detection and Response	24/7 threat hunting, detection, and response delivered by an expert team (more info)
Sophos Intercept X Endpoint with XDR	Sophos Central managed next-gen endpoint protection with EDR (more info)
Zero Trust Network Access	A ZTNA gateway is integrated into your firewall (more info)
Central Email Advanced	Sophos Central managed antispam, AV, DLP, encryption (more info)
Sophos Switch	Cloud-managed access layer switches (more info)
Sophos Wireless	Scalable, cloud-managed Wi-Fi (more info)

Support: A support subscription is required to receive firmware upgrades. Enhanced support is included in all protection bundles, but you can upgrade to enhance your support experience further.

Additional Support Options:	
Enhanced Plus Support Upgrade	Upgrade your support with VIP support, hardware warranty for add-ons, TAM option (extra cost) In Active/Passive HA scenarios, Enhanced Plus support is required in the primary device to be eligible for Advanced RMA on the passive device

Cloud, virtual, and software application licensing options: If you're deploying Sophos Firewall in the cloud, in a virtual environment, or as software on your own hardware, the licensing guide below can help you find the right option.

Model	Equivalent AWS instance	Equivalent Azure VM	Software/ Virtual License*
XGS 88(w)/87(w)	t3.medium	-	2 cores
XGS 108(w)/107(w)	c5.large	Standard_F2s_v2	-
XGS 118(w)/116(w)	-	-	4 cores
XGS 2100	c5.xlarge	-	-
XGS 2300	m5.xlarge	Standard_F4s_v2	6 cores
XGS 3100	c5.2xlarge	Standard_F8s_v2	8 cores
XGS 4300	c5.4xlarge	Standard_F16s_v2	16 cores
XGS 5500	c5.9xlarge	Standard_F32s_v2	Unlimited

* Based upon CPU cores

For a complete list of features included in each protection subscription, see the Sophos Firewall Feature List.

Image: Table detailing various licensing options for Sophos XGS Firewalls, including Xstream Protection Bundle, Standard Protection Bundle, and additional protection modules like Email Protection and Web Server Protection.

Xstream Protection: A single bundle for ultimate protection

All the next-gen protection, performance, and value you need to power even the most demanding networks. Also available with the XGS Series model of your choice included.

🔥 Base Firewall Features*

- **Networking and SD-WAN:** Wireless, SD-WAN, traffic shaping
- **Protection and Performance:** Xstream architecture with Network Flow FastPath, TLS 1.3 inspection, deep packet inspection
- **SD-WAN and VPN:** Xstream SD-WAN, IPsec/SSL site-to-site and remote access VPN (unlimited), SD-RED site-to-site
- **Reporting:** Historical on-box logging and reporting

Network Protection

- **Xstream TLS inspection:** TLS 1.3
- **Xstream DPI engine:** Streaming deep packet inspection
- **IPS:** Next-gen intrusion prevention
- **Active Threat Response:** Sophos X-Ops threat feeds
- **Synchronized Security:** Automatically identify and isolate threats
- **Clientless VPN:** HTML5
- **SD-RED VPN:** Manage SD-RED devices
- **Reporting:** Extensive network and threat reporting

Web Protection

- **Xstream TLS inspection:** TLS 1.3
- **Xstream DPI engine:** Streaming deep packet inspection
- **Web Control:** By user, group, category, URL, keyword
- **Web Protection:** from the latest threats
- **App Control:** By user, group, category, risk, and more
- **Synchronized App Control:** Identify unknown apps
- **Synchronized SD-WAN:** Route unknown apps
- **Reporting:** Extensive web and app reporting

Zero-Day Protection

- **Xstream TLS inspection:** TLS 1.3
- **Xstream DPI engine:** Streaming deep packet inspection
- **Zero-day threat protection:** ML and Sandboxing analysis of files
- **Machine learning:** Using multiple deep learning models
- **Cloud sandboxing:** Dynamic run-time analysis of unknown files
- **Reporting:** Extensive threat intelligence analysis reporting

DNS DNS Protection and Xstream Protection Bundle-Only Features

- **Domain name resolution service:** Backed by SophosLabs and powered by AI to block malicious or unwanted URLs
- **Active Threat Response:** Sophos MDR/XDR and third-party regional/vertical threat feeds
- **Active Threat Response:** Sophos NDR Essentials threat feeds (XGS hardware only)

Sophos Central Management

- **Group firewall management:** synchronized policy and configuration, cloud backups and firmware update scheduling
- **Zero-touch deployment:** for new firewalls from the cloud
- **ZTNA Gateway:** for secure application access

Sophos Central Orchestration

- **SD-WAN orchestration:** Point-and click site-to-site VPN orchestration
- **Cloud firewall reporting:** Multi-firewall reporting, save, schedule and export reports (30-day data retention)
- **XDR and MDR connector:** Support for XDR and MDR services

Enhanced Support

*Note: Customers with a Base License only must add support or another individual subscription for access to Sophos Central management and the 7-day allocation of Central Firewall Reporting. Support is also required to receive firmware updates and full access to customer support.

Image: Detailed diagram outlining the features included in the Xstream Protection bundle, categorized into Base Firewall Features, Network Protection, Web Protection, Zero-Day Protection, DNS Protection, Sophos Central Management, Sophos Central Orchestration, and Enhanced Support.

7. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your Sophos XGS 108 appliance:

- **Firmware Updates:** Regularly check for and apply firmware updates through Sophos Central or the device's web interface to ensure the latest security patches and features.
- **Configuration Backups:** Perform regular backups of your device configuration.
- **Environmental Checks:** Ensure the operating environment remains within specified temperature and humidity ranges. Keep ventilation clear.
- **Monitoring:** Utilize Sophos Central's monitoring tools to observe device health, network traffic, and security alerts.

8. TROUBLESHOOTING

If you encounter issues with your Sophos XGS 108, consider the following troubleshooting steps:

- **No Power:** Verify the power adapter is securely connected to both the appliance and a working power outlet. Check the power LED on the front panel.
- **No Network Connectivity:** Check all Ethernet and SFP cable connections. Verify link/activity LEDs on the ports. Ensure correct network configuration in the Sophos Firewall OS.
- **Web Interface Inaccessible:** Confirm your computer is on the same network segment as the appliance and that its IP address is correctly configured. Try accessing the interface using the default IP address.
- **Performance Issues:** Review system logs and resource utilization in the Sophos Firewall OS or Sophos Central. Ensure the appliance is not overloaded and that security policies are optimized.
- **Security Alerts:** Investigate alerts through Sophos Central or the device's logs. Adjust security policies as needed.
- **Factory Reset:** As a last resort, a factory reset can restore the device to its default settings. Refer to the Quick Start Guide for instructions. Note that this will erase all configurations.

9. SPECIFICATIONS

The following table provides detailed technical specifications for the Sophos XGS 108 appliance:

Sophos XGS Series Desktop: SMB and Branch Office
Gen.2: XGS 108, XGS 108w

Technical specifications

Front View

1 x USB 2.0

Status LEDs
(w-model has additional Wi-Fi LED)

1 x COM Micro USB

Back View

2 x external antenna
(XGS 108w only)

1 x COM (RJ45)

6 x 2.5 GE copper port

Power supply

1 x USB 3.0

1 x GE SFP

Connector for optional 2nd redundant power supply

Performance	XGS 108(w)
Firewall throughput	12,500 Mbps
Firewall IMIX	8,100 Mbps
IPS throughput	2,500 Mbps
Threat Protection throughput	2,500 Mbps
NGFW	2,600 Mbps
Concurrent connections	4,190,000
New connections/sec	53,000
IPsec VPN throughput	8,250 Mbps
SSL VPN concurrent tunnels	1,000
IPsec VPN concurrent tunnels	1,000
Xstream SSL/TLS Inspection	800 Mbps
Xstream SSL/TLS concurrent connections	12,288

Note: For performance testing methodology, see page 10

Wireless Specification (XGS 108w only)	
No. of antennas	2 external
MIMO capabilities	2 x 2:2
Wireless interface	Wi-Fi 6 (802.11ax) 2.4 GHz/5 GHz concurrent

Physical Interfaces	
Storage (local quarantine/logs)	64 GB UFS 2.1
Ethernet interfaces (fixed)	6 x 2.5 GE copper 1 x SFP fiber
Management ports	1 x COM RJ45 1 x Micro-USB (cable incl.)
Other I/O ports	1 x USB 2.0 (front) 1 x USB 3.0 (rear)
Number of expansion slots	0
Optional add-on connectivity	n/a

Physical Specifications	
Mounting	Rackmount kit available (to be ordered separately)
Dimensions: Width X height X depth	260 x 44 x 180 mm
Weight	1.8 kg/3.97 lbs (unpacked) 2.4 kg/5.29 lbs (packed) (w-model minimally more)

Environment	
Power supply	External auto-ranging AC-DC 100-240VAC, 2A@50-60 Hz 12VDC, 5A, 60W Optional second redundant power supply
Power consumption	21.5 W/73.36 BTU/hr (108 idle) 25.5 W/87.01 BTU/hr (108w idle) 27 W/92.13 BTU/hr (108 max.) 30 W/102.36 BTU/hr (108w max.)
Noise level (avg.)	0 dBA - fanless
Operating temperature	0°C to 40°C (operating) -20°C to +70°C (storage)
Humidity	10% to 90%, non-condensing

Product Certifications	
Certifications	CB, CE, UKCA, UL, FCC, ISED, VCCI, KC*, BSMI, RCM, NOM, Anatel*, TEC

* XGS 108 only

Image: A table detailing the technical specifications of the Sophos XGS 108 and XGS 108w models, including performance metrics, physical specifications, environmental conditions, and product certifications.

Feature	Detail
Model Name	XGS 108
Manufacturer	SOPHOS
Ports	6 x 2.5 GE Copper Ports, 1 x SFP Fiber Port (Total 7 ports)

Feature	Detail
Firewall Throughput	Up to 12.5 Gbps
Operating System	Sophos Firewall OS
Special Features	Internet Security, Remote Access
Connectivity Technology	Ethernet, Wi-Fi (for XGS 108w variant), 5G (via external modem)
Wireless Standard (XGS 108w only)	802.11ax (Wi-Fi 6)
Security Protocols	WPA3, WPA2-PSK, WPA-PSK
Compatible Devices	Laptop, Personal Computer, Smartphone, Tablet

Product Matrix for XGS Series

Sophos XGS Series Appliances

The XGS Series models offer excellent performance and connectivity at every price point to power the protection you need for today's diverse, distributed, and encrypted networks.

Product Matrix

Model					Throughput			
Model	Form Factor	Ports/Slots [Max Ports]	w-model	Swappable Components	Firewall [Gbps]	IPsec VPN [Gbps]	Threat Protection [Gbps]	Xstream SSL/TLS [Gbps]

10. WARRANTY AND SUPPORT

For warranty information, please refer to the documentation included with your product or visit the official Sophos website. Sophos provides comprehensive support resources, including knowledge bases, forums, and direct technical assistance.

Your Sophos XGS 108 appliance, especially with an Xstream Protection subscription, includes access to advanced support and threat intelligence updates. For immediate assistance, log in to your Sophos Central account or contact Sophos support.
